The snow is fastly disappearing under the rays of Old Sol, and the soft gentle zephyrs from the west. Stock men's faces are again taking on their natural smiles as of yore and we are glad to see it for this has been a trying winter on stock as well as the patience of men.

We welcome Mr. Lacy and family back to Harrison, for we found them very worthy people while residents of Sioux county years ago.

Last Saturday was Lenis Larson's 18th birthday, and in the evening a large number of his friends and associates gathered at his home and surprised him, - he looked very much surprised. The evening was enjoyed by playing games, singing songs, & etc., and no doubt Lenis will long remember his eighteenth birthday.

August Baumgard was up from Montrose last Friday. He reported the death of his father who died March 4th. He leaves a wife and a number of children, besides a host of friends, to mourn his death. Mr. Baumgard was one of our most respected citizens, and the PRESS-JOURNAL extends sympathies to the bereaved family and friends.

We understand some of our boys, or young men, have been indulging in letter writing to the girls, and one has become so low as to write matter of an obscene nature, and sent it through the mail. We will say this: That Uncle Sam does not allow any such matter to go through his mails, and if you are caught young man, you will pay a severe penalty, and which you will rightly deserve; so be careful.

The many friends of John Blount will be pleased to learn that he has entirely recovered from his attack of rheumatism. Chamberlain's Pain Balm cured him after the best doctors in the town (Monon Ind.) had failed to give relief. Colds Are Dangerous.

How often you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency toward pneumonia. It always cures and is pleasant to take. Sold by all Druggists.

The Literary Society met as per adjournment last Monday evening. The program was the best rendered so far, and the literary will continue to prosper as it grows older. More are becoming interested, and the more members we have the more interesting our literary will be, as is generally the case. The subject debated on: "Resolved that Women should have equal rights as Men, or should be allowed to vote," was decided by the judges, in favor of the affirmative. The subject for debate for next Monday evening is: Resolved that Art is more becoming to the eye than Nature. Come everybody.

On our recent visit to Glen last week we found everything going along nicely in the school rooms in districts No. 1 and 19. Miss Cora L. Bowers is doing good work, and as this is her first school, too much praise can't be given her, and may she continue in the school work. Miss Elizabeth Harris is doing good work in the school room, and we found her in her place in the Sunday school on Sunday. Such teachers as she can't help but be successful and we know the people of that vicinity will long remember her labors with them. We were pleased to see the Sunday School going on and that it is only an ever-green Sunday School by the faithfulness of a few. The Supt. Mr. U. A. Puddy, says there will be special exercises on Easter Sunday; so all should try and be there. We thank the people of Glen for the kind and generous spirit in which they received us while among them.

We have made arrangements with the publishers of the Young People's Weekly one of the best periodicals of its class, so that we can furnish said paper in connection with the Press-Journal each one year for the small sum of \$1.25 for both papers or to those in arrears on subscription who will pay what they owe and 25 cents extra we will send the Young People's Weekly one year. Those who have paid in advance for the Press-Journal and want a first class paper for the young folks can come in on the deal also, by paying 25 cents extra.

The Young People's Weekly has reached its marvelous success and attained a circulation of over \$10,000 copies a week because its contents interest young readers. Its popularity extends to thoughtful parents who recognize in it one of the best aids in helping young folks in healthy touch with the active world giving them a taste for clean, vigorous reading, and presenting truths in their most attractive form.

We spent a part of last week along the Platte valley, and found that a great many changes have taken place in the past few years. There has been but little snow there all winter, and stock have not suffered as they have on the higher land. The price of land is high, and there is a town about every ten miles, so it makes it quite convenient, so far as towns go. We predict a bright future for this valley unless something turns up that will rob them of their abundant supply of water. We were favorably impressed with the towns of Mitchell, and her schools are very good. Her paper, "The Index," is published by Mr. G. E. Mark, and gives the news in a brief and concise manner. We found a welcome hand from all, and if we conclude to remove from Harrison we will be tempted to settle in Mitchell.

READ IT THROUGH.

"I would Spell This Story to Tell It in the Headlines."

To use an eighteenth century phrase, this is an "o'er true tale." Having happened in a small Virginia town in the winter of 1902, it is a story very much of the present. Up to a short time ago Mrs. John E. Harmon, of Meifa Station, Va., had no personal knowledge of the rare curative properties of Chamberlain's Cough Remedy. "Last January," she says, "my baby took a dreadful cold and at one time I feared she would have pneumonia, but one of my neighbors told me how this remedy had cured her little boy and I began giving it to my baby at once and it soon cured her. I heartily thank the manufacturers of Chamberlain's Cough Remedy for placing so great a cure within my reach. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was." For sale by all Druggists.

Editor of Press-Journal:

Having read your recent article, commenting on the action of the ladies of Crawford, concerning this serious problem—the saloon; I wish to congratulate you for the noble stand you have taken for their encouragement, and also for so bravely exposing the awful and direful influence of the saloon. As you state a great many citizens uphold the saloon on account of financial support for the schools, but if we observe closely, that element is usually that so-called honorable class, who tho' they may not be habitual imbibers, are not too noble to enter these dens of iniquity and mingle with the rough element, where they would be abused if their actions were disclosed to their wives. We admire men who will stand boldly and firmly for the right, and upon these the rights and prosperity of our nation rest. We pray and hope that the rising generation, who have learned through science, the evils of intoxicants, and besides can see the results of expense and misery, will profit by the sad experience, and rise up in a solid phalanx against this horrible Demon—Intemperance, and wrest from him this power he has swayed for centuries. But we must not sit idly dreaming, awaiting this happy time, while the Monster slays his millions, but awake as the wives and daughters of Crawford are doing, and help to forward the good work. I extend my heartfelt thanks to the editor and also sincerest interest and encouragement to the ladies of Crawford, in their earnest endeavor. May God in his wisdom strengthen them and crown their efforts with success.

A zealous Wyoming Friend of Temperance. P. S. If some of our good Wyoming Republican editors would choose nobler topics than censuring Christianity and magnifying slander, the world would be wiser and better.

Breezes from Glen.

Fine weather here at present.

Miss E. R. Harris visited her sister Lillian last Saturday.

Supt. J. B. Burke came to Glen Thursday, and visited the schools here. He visited school No. 1 on Friday, and came back to Glen Saturday morning.

There was a dance last Friday eve, at Mr. Franklins place. Those present reported a good time.

We had a good S. S. last Lords day. Mr. Burke was with us, and took the place of Mr. Puddy, who was unable to attend.

Mr. Shipley was at Glen Saturday. He says that they are all getting along as well as usual over his way.

Mr. and Mrs. John Fry were visiting at Mr. Puddy's last Saturday and Sunday. Supt. Burke reports that our school is doing very nicely. He gave us a good talk which we appreciated very much.

Mr. M. J. Weber helped butcher a hog for Mr. Lars Peterson last week.

Mr. Shipley and Mr. Geo. Gilmore took in the city of Harrison last Saturday.

Mr. and Mrs. Adams visited at Mr. Martensons last Sunday.

Hotchkiss Colo. March 4th, 1903.

When we read of howling blizzards, and the mercury dropping to 20 below zero. We feel that we are very comfortable; if our winter does seem to last a long time. Our December snow has not gone yet, but it is a going, and the air feels quite spring like, and balmy; though only four days ago it was 30 below zero. Nearly as cold as we have had it this winter. Still no wind, and I think Clio will have to visit us, and enjoy the heavenly calm, with us. We are told that the wind blows in the spring, but we have not seen it yet. We are beginning to see spring mud however, and it is both deeper, and stickier than any thing Sioux Co. has to show. We suspect it will be worse, instead of better as the frost has hardly begun to come out of the ground. Roy whose experience has been limited to north-west Nebraska, groans as he makes his daily trips to school. He will doubtless know more of the nature of mud before spring is over. It is raining tonight which sounds more spring like. Last Sunday we got to Sunday-school again, after three months absence; first on account of Mr. Rice's sickness, and then because our team was away. The friendly greetings made us feel quite at home; and have realized that Christians are the same in Colorado as in Nebraska, and can not fail to be at home among them. The meeting of the Womens Missionary society of Box Butte Prebytery is to be held at Bridgeport April 17th, Members of Bodarc and Union Star Society please take notice. It is hoped that Mrs. Wells of Chicago will be present to assist in the meetings, and can testify that she is well worth hearing. Mrs. Bandy can not come now but may visit the churches in the summer.

EMMA L. RICE.

In Wyoming.

Roy Zumbrennen, and Francis Deuel are breaking horses to ride and drive.

Mr. and Mrs. James Petty arrived home, from eastern Nebraska, about two weeks ago.

Carl Foote is working for Billy Bergren, near Lusk. Carl seems to be quite a rustler for a boy of his age, thirteen. Yes spring can not be more than 90 days off, as we have seen more men, and teams string around in the last ten days than has been on the road since Dec 1st.

Chris Christian brought his cattle home from his ranch in Albany Co. the first of this week. He had lost quite a number with a disease resembling spinal meningitis, and thought it best to move them.

Mr. Church Sr. and son Hial, sold their cattle, 225 head to C. B. Hollingsworth and his brother-in-law, Chas. Hooper. They moved them during the blizzard of two weeks ago and lost several head on the road.

On last Sunday the thermometer rose to 45, and the snow softened quite a bit; in places water stood in puddles, but it is hard to tell what may yet come as at the present writing the indications are favorable for more snow.

Eph Boyles is visiting somewhat, but it is hard to keep track of him as some say he is in Iowa, while others say that he is in Hot Springs S. D. Report has it that he has married one of Dakota's fair school mams a few days ago, but your correspondent won't vouch for the truth of the report. Perhaps by the time this is in print he will be at home, and can speak for himself.

Miss Amy Christian will close her school in the west school-house on Wednesday of this week, and her sister, Florence M. will close her school in the east school the next day, Thursday. They are planning an entertainment to be held in the W. O. W. Hall on Thursday night the 12th. We predict an enjoyable time as we hear they have a good programme arranged.

No Peggy don't you think it. It isn't brightness its a gift. We're sorry that you're not gifted that way; still we're very glad of it. No we have no Jones Browns, nor Johnsmings nor Smiths, never had 'em. The worst we've got is Boilyles on the Foote that Freeze. Now if the rest of the "Sunbeams" hop onto us we'll call on our old friends M. A. C. and Clio to take our part; that what Scott is to do.

Len Christian killed an ermine one day last week. This is the first one we have ever seen in this part. This peculiar little animal is one of the few that possess the property of changing its color to suit the season. In summer it is a reddish brown and is then known as the stoat but in winter it changes to a pure white with the exception of the tip of its tail which is a jet black. It is then known as the ermine. Its fur is very valuable. As it is used for trimming the cloaks or gowns worn by judges.

ZAKIEL.

Andrews Happenings.

Mrs. Cris Christensen went to Crawford last Wednesday and came back Thursday evening.

Several of the young people here spent Wednesday evening last in singing and visiting at Mrs. Shepherds.

Mr. E. Hughes gave a dance last Saturday night.

The stars and moon shone very bright. The music afforded great delight. And the supper was "out of sight."

Miss Elizabeth Harris, from Glen, visited her sister and friends here Saturday. She came and returned on the passenger. Her visit, though brief, was enjoyed by all.

There was a dance at Mr. Elmer Hughes' last Saturday evening. A large crowd attended. The music, dance, and supper was enjoyed by all present. I did not attend, but state what was reported of it.

Please Mr. Zekiel we did not say Mr. Bert Black was a darkey. I suppose you inferred it from his name; but you must remember a man's name may be Black and his color white in Andrews. By what you wrote I infer that it is Leap Year on the Ridge. How's that, is Andrews behind the times?

Mr. George Baldwin left for Omaha last Friday evening where he will undergo a treatment for his eyes. His mother relatives, and friends were at the train here to bid him good-by and wish him success. We hope he will return with renewed eye sight. Mrs. Baldwin is enjoying a very pleasant visit with her son Tom Jones and family.

Mr. Tom Plunkett, from War Bonnet, was a welcome visitor at Mr. Tom Jones' last week. He came Sunday morning and stayed and visited school Monday. He spoke very highly of the work that was done while here and thought the school should be complimented for the good order and interest shown in each recitation. We know we have a good school here and that thorough work is being done in all the common branches, and high school studies as well. You scarcely ever find a school where one teacher teaches so many difficult studies as she does here without extra pay. The 9th and 10th grade studies that are being taught here are viz: Rhetoric, general history, algebra, (elementary and advanced), natural philosophy, botany & etc., so you may know that the teacher is kept busy. We are proud that our school is making such advancement and feel that when the pupils are put to a test that they can cope with anyone in the same grade elsewhere.

Tom Plunkett went to Andrews Saturday. Some may wonder what attraction but when you stop to think "Buds and Blossoms" are to be seen there, such weather as this you will no longer wonder.

Mr. Dunn from the ridge drove 2000 head of cattle down to the valley to Andrew Knoris, where he has bought \$1000 tons of feed at \$12 a ton. He is going to feed it out right on the place. Some of the cattle are pretty poor.
