Many a boy has made a good impression when he did not even know he was being watched. Business men are continually watching the boys. If they see one boy coming out of a saloon with a cigarette between his lips, and another with a clean collar on coming out of a Sunday school, it does not take long for them to decide which one of the boys they want to employ. Many business, and professional men do a great many things themselves they don't want their boys to do. The great trouble with the average boy of to-day is his big head and brass cheek.—Ex.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all Druggists.

The outlook for the Master's work is brighter and most encouraging, and we hope many souls may be gathered into His Kingdom. Those in attendance will long remember the many kindnesses shown by the citizens of Bridgeport, and surrounding country.

SEVERE ATTACK OF GRIP.

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, at Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all Druggists.

A LETTER FROM MRS. E. L. RICE.

Hotchkiss, Colo. April 16, 1903.

We had a little dash of sun again Easter, and the morning of the 13th the thermometer read only 17 above zero. It warmed up but slowly. The alfalfa fields begin to look green, but the buds on the trees prudently hold back.

Everybody is busy cleaning ditches and the sound of blasts is in the air, these stones must be got rid of some way, and if they are to big to move, powder must do the work. There has been so much snow in the mountains that people look for lots of water this year, and ditches are being enlarged and strengthened accordingly. It would make Nebraska people open their eyes to see some of the farming that is done right on top of the stones or between them, our neighbors put in a piece of alfalfa last fall on a piece of ground so rocky that it was a marvel where the seeds found lodgment, and a greater marvel how such ground could be plowed and harrowed. The brave little plants are coming up, however in green patches all around the rocks and when a leisure time comes to pick off the rock, I suppose the alfalfa will spread and fill up the vacancies.

A great many fruit trees will be set, and much alfalfa put in this spring on this, and neighboring mesas. Every body seems to be hopeful and busy; their little town is building up rapidly, and every thing seems prosperous, there is plenty of work at good wages. We attended a County S. S. Convention at Hotchkiss April 1st, and were not "fooled" in the least, unless in the fact that it was a better meeting than we looked for. The State Supt. of S. S. work, Rev. John Carmen was present, and was full of helpful, and practical suggestions for the teacher.

A letter lately received from Henry Cough says that his aged father passed peacefully away last month. Many friends in Sioux Co. will mourn for the dear old man, who when among usual ways had a loving and kindly word for everybody. His was the love that thinketh no evil and never faileth a fit preparation for the Heavenly Home which is now his.

I find from letters received that La Grippe is the fashion in Nebraska, we had our touch of it, but now think ourselves usually well, Mr. Rice and Harry are busy preparing alfalfa ground, and arranging ditches. Roy's eight months school closes this week, and I find enough to do getting them all something to eat and sweeping out the dirt.

If I could only write poetry like Zekiel I should be encouraged to write often. His "Ode to March" is a little off the line of regular spring poetry which is supposed to begin "Beautiful Spring", but I think it expresses the feelings of many of us, tho' I realize that our March has not been as bad as yours, unless it is in the matter of mud, that is dried up now, their beautiful mountains are still covered with snow, and look cold. I am wondering how long it will stay on.

EMMA L. RICE

In Wyoming.

Miss Florence Christian began the spring term of school in the East school last Monday.

Miss Amy Christian went to Manville to finish the school there, which her cousin Charles began last December, and had to quit on account of poor health.

Charles is now at home recuperating and we sincerely hope that he will soon regain his usual good health. At present he is feeling better than when he came home some ten days ago.

James Rice has been hauling potatoes to Lusk for Len and James W. Christian.

Last week we received the sad news of the death of an old time friend and neighbor at Mendota, Illinois. J. D. Tower of the firm of J. D. Tower & Sons, Surface Cultivator, whose ad appears in all agriculture papers and many newspapers. We also received a paper containing his picture and obituary.

Every one is busy putting in rye, and the granger has no time to spend with the reporter.

Mrs. Fancher received the sad news, a short time ago, of the death of her sister Olive Tatman, which occurred in Walla Walla, Washington April 2nd. Mr. and Mrs. Tatman went from here, there last fall.

MOVING TO TOWN.

What! going to move to the city? Is that what I'm hearing you say? To-morrow you gather your chattels And get ready to move right away! I guess that I must be mistaken Just say it all over again. Yes—We're going to move to the city Our neighbors will be happy then. No, no; I don't mean to be selfish Or foolish; but you can not see The ties that are holding my heart here, Or know what your words mean to me. There's the pine trees in sight over yonder The prairie so rolling and green, And in the green grass by the hillside Most beautiful flowers are seen. To hear the dear meadow larks singing Their songs are a pleasure to me, I fear when we go to the city Their yellow breasts we can not see. And there where the sweet pea tassels It's streamers of pink blossoms high, Our children have gathered the flowers But now they must bid them good-by. Ah John, you are young yet—not fifty, And the city's enticing I know; Let's stay on the farm awhile longer; Till we're better able to go. Yes, Ella, we'll move to the city We have staunch friends there we know, While out here in the country Some are happy to see us go. Yes, kind friends of the Press Journal, we expect to move to your city in the near future and will soon have to bid good-bye to those who have read our items. Will perhaps write once more. ZEKIEL.

War Bonnet Topics.

Everybody has the spring fever, and all the boys over 15, the western fever. Bill Hunter and Emmet Jordan were at S. S. at Noreisches' Sunday. They were starting for Billings, Montana to find work. Tom Plunkett is going to start west next week. Emma Noreisch leaves this week for Douglas, Wyo. to resume her work after the few week's visit at home.

Miss Gussie and Emma Noreisch visited with Mrs. Scott one evening last week. Mrs. Scott visited at Matt Hall's at Bodarc one day last week. Mrs. Matt Hall and children visited a couple of days last week with her sister Mrs. Geo Grimm and family, at the S-E Covotes must be getting pretty numerous in this locality: Mr. Noreisch had a calf killed by some and Sam Knori had a calf killed by them.

Bill Harvey passed by one day last week on his way to Shepherds' to buy himself a team. Sam Leeling's family has been down with the La Grippe.

Mr. and Mrs. Christensen were visiting with their daughter, Mrs. Nels Anderson, last week. Ben Scott is the proud owner of a fine wee bit of a colt that rained down in the shower Saturday; He says it would take \$100 to buy him already. Don't forget the preaching services at our school house Sunday.

Will Grimm's pony, Valley, has a nice colt but unfortunately it became entangled in her halter rope and almost cut one of her hind legs off. They feared for a while she would die, but she is getting better. We hope she will get all right as she is a fine pony, and Will is proud of her.

Mr. Burke was at Gustave Noreisches' one day last week, looking after S. S. interests.

S. S. at Noreisches' as usual at 1 o'clock P. M., and at our school house as usual at 2:30 P. M. next Sunday; Come one and all. PEGGY.

Andrews Happenings.

Mrs. J. D. Proctor, and Mrs. Hughes visited Mrs. S. E. Jones last Monday.

Supt. Conrad Parsons visited our school Monday forenoon, and reported it in good working order. He went down the line to visit other schools. We enjoyed his visit very much but were sorry that he could not stay all day.

Our School closes Friday April 24th. A programme will be given the evening of the same if the weather permits.

Mrs. Chris Christensen was taken sick very suddenly a week ago, and was out of her head for some time. Her hands got very cold and finger nails black. She didn't know her folks at times, then when a spell was over she would say "I'm not sick." The doctor from Crawford was summoned, and came up as soon as he could on the passenger. He said it was congestion of blood in places causing circulating in dreadful condition. The medicine and careful watch of her friends aided her in recovering, at this writing she is able to be up a little. We hope she will soon be strong and well as usual.

Come and enjoy our programme, don't think for a moment that I bought a cheese box while up town Saturday. I am not after furniture yet! If you want organs sold call on me, I'm a good one at it. Mr. D. W. Shepherd and wife spent Monday evening at Mrs. Tom Jones. There was surely music in the air, and then a treat of peanuts. Oh my! Mrs. Tom Jones has an organ now and Pearl and the children are delighted; they can play several pieces that they learned at school and know the notes. We will prophesy good musicians in the future. Mr. Tom Jones and Ego went to Harrison Saturday and though the sun was shining when we left it was raining when we arrived there. How's that? Isn't the Harrison Son any good!

Mr. Geo. Baldwin went to Harrison last Monday. What's the matter with Zekiel? Did his laugh jar him so he couldn't report? Mrs. Alice Hagerman was taken sick and sent for Pearl Jones Friday. She stayed and helped cook and returned home Saturday.

Grip Remedies in Great Demand.

When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDuff, Va., says that he was cured of a very deep and lasting attack of the grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by all Druggists.

The Pearl Fishing Industry.

The pearl fishing season has just commenced in East Indian waters, and statistics show the enormous number of oysters already handled in search for the gems. Experts estimate that the Indian banks along the coast line of Ceylon and Southern India hold 71,000,000 pearl-bearing oysters.

Carlyle and Sir Henry Parkes.

Forty years ago Sir Henry Parkes, the Australian statesman, went to England to lecture through the country in support of emigration. Parkes sent an introduction from Gavan Duffy to Thomas Carlyle and was promptly invited to Chelsea "to a feed." Parkes put on his best clothes for the occasion, went to Cheynwalk and was treated to some strong tea and coarse omelette. Then Carlyle kicked off his boots, squatted on the floor with his back against the wall, lit a rough black pipe and began to ask the rook-coated and nervously prim colonist how he liked the rough life in Australia and whether the snakes were as bad as they made out. Parkes had a bad night of it, but he took his revenge the next day by sending Carlyle a copy of his book, "Murmurs of the Stream"—which the sage never acknowledged.
