North of the 48th Parallel.

(From the Chicago Record-Herald.) "Canada has anticipated a very

heavy immigration this year, and she

now has figures to show that she is

actually getting it in a way to meet all her expectations. In the first four months of this year the doors of the

Dominion opened to 40,672 persons, according to a report prepared by the

committee on agriculture and coloniza-

tion of the Canadian Parliament. This

is almost twice as large as the immi-

Liver and Bacon.

Bacon and calves' liver is a commlish, but especially attractive to mer who enjoy rich food. Calves' liver | much more delicate than beef or ever lamb. Slice it fine and lay it in cold water for at least ten minutes. This draws out the blood and makes the liver better food. Fry a dozen pleases of bacon cut in wafer-like like slices to every quarter of a pound of calves' liver. Let the bacon be lee-cold and risp it quickly on a very hot frying pan until it forms, in a few minutes into little brown rolls. Take up the bacon and fry the calves' liver, which has been dried on a clean cloth, in the bacon fat for ten minutes, or until it is bacon. There should be no grease about this dish, and there will not be if it is properly cooked.

Curried Veal (Chafing-Dish). Cut into small pieces, half an incl square, about a pound of cold roasblespoonfuls of butter, an onion, a tar apple and a clove of garlie, all mineed fine; then stir in a tablespoonful of curry powder, and half a tablespoon ful of flour; add the ment and pour in half a pint of stock, or the same quantity of hot water, in which a des sertspoonful of fluid beef has been dis solved. Add a little lemon julce and salt, let all simmer slowly a few minites, and serve hot.

Hollandaise Sauce.

Put two ounces of butter in a sauce pan, with a little salt, nutmeg and a gill of water. Cook over the fire for five minutes. In another saucepan have two tablespoonfuls of vinegar cooked till reduced one-half. Add to the other ingredients with a tablespoonful of bechamel sauce and an ounce of but ter. The daily supply of food may be kept in the cellar if a wire safe is used, but this is doubtful wisdom unless the housekeeper is prepared to inspect the safe every day to see that no scraps are left lying around.

Never leave empty wooden tubs and palls standing in the sun, or in a hot part of the scullery. In very hot weather they should be left full of clean water to prevent the wood shrinking and cracking. At other times keep them in a cool, rather damp place.

When knives have steel blades they should be cleaned and polished after each using. This is best accomplished if a small basket is kept near at hand which contains a potato, a bathbrick and a polishing cloth. Scrape a little of the brick upon a board, dip the cut end of the potato into it, and use this to rub the blade of the knife free of all stains. Then polish with the cloth and wash the handle in warm but not
