There are a few of our late customers that have not settled their accounts, we would be pleased to have these come in and settle, for we are anxious to close up all our accounts. Marsteller Bros.

## CARD OF THANKS.

We the undersigned hereby extend our heartfelt thanks to the kind friends and neighbors who so liberally rendered assistance during the illness, death and burial of our beloved Eddie.

MR. AND MRS. FANN LEITHOFF.

Mr. J. T. Morris the principal elect of the Harrison school was in town Wednesday trying to rent a house but met with poor success so far as all the houses are engaged. Mr. Morris has a family and expects to reside with us indefinitely and we are sure our people will welcome them to our little burg.

## Boy Cured of Colic After Physician's Treatment Had Failed.

My boy when four years old was taken with colic and cramps in his stomach. I sent for the doctor and he injected morphine, but the child kept getting worse. I then gave him a teaspoonful of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and in half an hour he was sleeping and soon recovered. — F. L. WILKINS, Shell Lake, Wis. Mr. Wilkins is book-keeper for the Shell Lake Lumber Co. For sale by All Druggists.

## Call For Bids.

Glen, Neb., Aug. 10, 1903. The board of school district No. 19, Sioux Co., Neb. will receive bids for a new school house until Sept. 14th at 5 o'clock P. M. when bids will be opened. N. B. Board reserve the right to reject any or all bids. For specification call on or write director.

## Not Over-Wise.

There is an old allegorical picture of a girl scared at a grasshopper but in the act of heartlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by All Druggists.

The Judicial Convention which meets at Valentine next Tuesday will no doubt nominate Hon. W. H. Westover for district judge. We can say of Judge Westover that he is the best judge that has ever been on the bench in this district, and his nomination means his election, for the people in the north west part of the state know when they have a good man, and they mean to keep him too.

## Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery) says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is so pleasant to take. For sale by All Druggists.

## Pine Nook.

Death of Mrs. B. B. Bixby. Mrs. Mary Bixby died at the home of her daughter Mrs. Hannah Mitchell early Saturday morning, June 13, 1903, aged 76 years and 19 days. Last summer Mrs. Bixby made a continental journey to the home of her daughter, Mrs. F. Smith, who now lives at College Place Washington and Mrs. Zerbe who still lives in Nebraska. She visited with Mrs. Zerbe about 5 weeks and then returned to Nevada, Iowa.

Mr. Zerbe was a pleasant caller at Pine Nook Tuesday of this week and Mr. B. B. Bixby was with his daughter, Mrs. Zerbe. Mr. Bixby came to visit his old friends around this vicinity for a few days.

## Bodarc Gleanings.

As we are responsible for the appearance of the Bodarc items the past two months we hope the Editor will be kind enough to forgive us, and we will promise better behavior in the future. We have been spending a few weeks in a peaceful little valley in the shadow of the Big Horn mountains, where at this season of the year nature is seen at her best. Our first view of these mountains was a surprise. The valley was bright with sunshine and flowers, (the greatest variety of wild flowers I ever seen,) while the mountains beyond were white with snow, the most noticeable among them being Cloud Peak, the highest point in that range, and the Needlers, four distinct peaks from one base covered with perpetual snow. We spent one day on the mountains where there was no snow; the dizzy climb along the side of the mountains was rather trying on ones nerves, but when the top was reached we felt repaid for all our uncomfortable feelings until we started to come down, and then, well we peered to come down on foot over the steepest places, and carefully refrained from looking down when we could possibly avoid it. Big Horn is not so large as its name would indicate, although the oldest town in the state it must be the smallest one grocery and general merchandise store, post office and a saloon comprise the entire town. It is connected with Sheridan 10 miles distance by telephone and by stage which runs daily from Sheridan to Big Horn and thence to Buffalo. The driver of this stage had a real old fashioned "hold up" a few weeks ago while returning from Buffalo in the evening. He was unharmed and had no passengers with him. As he was driving leisurely along a masked man stepped into the road and demanded his purse which he promptly gave up containing only about six dollars. He was then compelled to give up a new pair of shoes he was wearing and which the robber informed him would come in handy. It recalled to the minds of the older residents, the time when Jesse James and his famous band made Big Horn their winter quarter. Sheridan is a very pretty flourishing town and is rapidly growing, reaching out in all directions. Fort McKean situated on the hills just above the town looks quite imposing and is nearly completed. A number from down this way are working up there; among them L. Priddy, Jesse Hitt and our old neighbor Henry Wertz. Although we did not get to see them, we learned incidentally they were all well and contented. There seems to be plenty of work, and men to help put up hay were in great demand, and in fact it is impossible to get help in the hay field as the boys will ride the backing broncho on preference to doing any kind of what they call granger work. We have been looking over the Press-Journals that circulated while we were absent and were glad to find letters from Mrs. Rice, Chas. and others and so sorry to learn of the death of Professor Phipps and our old friend and neighbor J. W. Hunter, but it is a path we must all tread sooner or later. M. A. C.

## War Bonnet Topics.

More rain, which was much needed. Miss Annie Leeling is working at the S-E at present.

Born—To Mr. and Mrs. Geo. Grimm, Thursday, Aug. 6, a girl baby. Mother and babe are getting along nicely. Mr. Grimm says he can't call it Johnnie so they named her Emma.

Born—To Mr. and Mrs. Robt. Keel, a bouncing boy, on Friday, Aug. 7. Mother and child are all right but Bob is a little rattled, but will recover, I think. You know this is the first boy.

Mrs. Ed Maine is staying at Mr. Keels at present.

During a recent storm Clem Leeling's house was struck by lightning. It knocked the panels out of the door, passed through the house and out of an open window. Fortunately the family was in the adjoining room at the time and none were hurt.

John Anderson having completed buying at the S-E last week removed his buying machinery and men over to his ranch on the upper 33 to commence haying at that place.

Miss Emma Noreisch is at home again to take up ranching. They couldn't run the ranch without Emma.

Frank Hubbard is working on the divide for the Witt Bros.

Arthur Dunn went up to work for Geo. Turner last week.

Frank Scott has gone to work at the 33.

Ed Scott was working for Robt. Keel last week.

Ethel Burke visited a few days last week with Eddie Grimm, also with Mary Scott.

Rememose preaching again next Sunday at the usual hour, 3 o'clock P. M. Come on and all.

PROG.

## DIED.

At His Home on Soldier Creek Aug. 3, 1903.

Little Eddie Leitloff died on Aug. 3rd at 3 o'clock in the morning. Eddie was a sufferer for the last sixteen months of a form of Bright's Disease. His age was 6 years 2 months and five days. During his illness he was treated by different doctors. First he was treated by Dr. Phinney of Harrison. While Eddie and his parents were living east of Harrison Eddie appeared to be getting well; Later on Mr. Leitloff purchased the Bill Roger place on Soldier Creek and Eddie took sick again and Dr. Northness was called from Crawford; Later on Dr. Field from Ft. Robinson; and later on Dr. Kullig from Ft. Robinson was also called to assist Dr. Field. These two doctors treated Eddie for seven months and pronounced him beyond curable. Later on Dr. Richard of Crawford and Dr. Stevens of Council Bluffs, Iowa, who is one of the owners of the Council Bluffs hospital. These two doctors were treating Eddie and appeared to be getting along nicely. His parents and brother Walter and friends around him were much enjoyed.

On Sunday Eddie said, "I don't want to die, I am getting better and soon be able to get out of bed." But as night came and the hour hand kept moving closer to Eddie began to ask his mamma and papa, "When are we going home," and repeated it a number of times; Then he began to grow weaker and at 2 o'clock and five minutes his eyes were closed.

On Tuesday his body was taken to the Congregational church at Crawford where relatives from Hemmingford and a number of friends of Crawford were in attendance at the funeral service which was conducted by Rev. Schultz. The remains were then taken to the Crawford Cemetery where a large crowd had congregated. There little Eddie was laid to rest by his Uncle Peter Miller's side, and left there for his parents, brother, and sister to mourn the loss.

On our return from a two weeks visit to the Platte valley we were glad to see everything moving along as of yore in old Sioux. We must say though, that the Platte valley beats anything we have ever seen since leaving the east. The hay stacks down there look at a distance like a continuous town and the fields of ripening grain are beautiful to behold. Fine residences are taking the places of the small sod houses that use to be so conspicuous, and the majority of the homes have telephones in them, so that the once almost isolated valley has the equipments of our eastern counties and towns, and are in touch with the whole world, so much for the push and energy of man. Nice church buildings and school houses are conspicuous in all the towns, and the people of this valley all seem to be full of push and energy. But always have the time to greet a stranger and answer his many curious questions. It is only a question of time until this part of Neb. will be recognized as the banner part of the state and it will justify itself for them in no class of settlers that have stood by their homesteads as have the settlers of this valley, and may they now enjoy the fruits of their many years of waiting and toil for capitalists to come in and develop the part they were unable to; but may they ever remember that while they water and labor God giveth the increase.

## Horse Thieves Abundant.

It has been years since horse thieves were so numerous and we might say systematic, as they have become the past year. South Dakota, Wyoming Nebraska are particularly interested. Our exchanges report a number of cases quite recently. The latest was twenty-one head stolen from C. Bishop and Mr. Pankonin of Perkins county, and shipped to the South Omaha market from Wray, Colo. These horses were consigned to Walworth & Hiltner, which firm has been out of the horse business for a month or more.

## W. E. Smith the consignor, was with the horses and Mr. Walworth, one of the firm to whom they were shipped turned the horses over to John S. Cooper another horse dealer. The horses were sold for \$640. Smith insisted that he be paid in cash instead of by check, as is the custom in the yards. He said that he needed some money to make some purchases of clothing and other stuff. He was given \$40 in currency and a check for \$600. He has not been seen since, and the payment of the check has been stopped.

Boby & Adams of Neligh, Neb. purchased the horses and shipped them to their ranch near that place. Mr. Bishop of the firm of Bishop & Pankonin went to Neligh and recovered the horses save one which was found near Wray, Colo., where it had been abandoned because of wire fence cuts.

It seems that every stockman in Nebraska should become members of the Nebraska Live Stock association, and brand both horses and cattle. The return of these horses was a rather lucky ending for Messrs. Bishop & Pankonin.—Independent Era.

"THE THORN."

## STOCK REPORT.

South Omaha, Neb., Aug. 11, 1903. Chicago reports very heavy again so for this week and the market still declining. Omaha is following but not so weak. Corn steers on which 4.80 was bid here last week, went to Chicago and sold for 4.45. Grass beef steers 4.40 here 4.25 Chicago. Corn-cows 2.90 here, 2.85 Chicago. These are actual tests. Our market is 10c lower on fat steers and 15c lower on fat cows than last week. We quote corn steers 1.75 to 5.00. Western hay feeds 4.00 to 4.25 best feeders 3.75 to 4.00. Hay 3.25 to 3.75. Cows 2.50 to 3.25 calves 3.00 to 5.00. Bulls 2.00 to 3.50.

Our sheep market is 10c lower this week but still continues the best market proportionally in the country.

Principal factor of weakness is the lower Chicago market. The feeder demand is new break. We do not expect any serious declines. Ewes are selling at 2.50 to 3.00. Feeder lambs 3.75 to 4.25. Hog market higher.

## NVE & BUCHANAN CO.,

Mrs. Ed Hollingsworth was in town yesterday for the first time since the school closed last spring. We had hoped the family would be with us again this winter, but Mrs. Hollingsworth says they will either go to Chadron or Los Angeles for the winter.

Mrs. Albert Rands was a Harrison visitor Wednesday. Mrs. Rands says she loves the pines of old Sioux, and we hope that love may continue indefinitely, and that she and her husband may continue their abode among us for years to come.

## GOOD POINTER FOR GAMBLERS.

How to Make Money Out of Easy-Going Strangers.

"I thought I was pretty wise to all sorts of games," said a gambler, "but I've just been beaten out of a five-spot as easily as though I came from Coboes. A friend and I had been standing in the doorway of a hotel betting on the odd or even numbers of the next car to pass, and I was loser. Then the other fellow suggested that I try to call a coin, head or tail, for \$5, as a chance to get my money back. I agreed. He slipped a quarter on the back of his hand and I said 'heads.' It was a tail, and I was a five out."

"The experience was worth it, though, for he told me the game after joshing me for a good thing. It is instinct, he said, for almost every one in calling a coin to say head, so he always placed the coin tails up when the other man was to call it. He said that the game worked nine times out of ten, and he didn't really consider it unfair, because he was practically betting me that I would say 'heads,' though I didn't know it. I like the game, and I'm going to try it on some of the wise ones I know. I'll bet it works, too."

## The Pearl Fishing Industry.

The pearl fishing season has just commenced in East Indian waters, and statistics show the enormous number of oysters already handled in search for the gems. Experts estimate that the Indian banks along the coast line of Ceylon and Southern India hold 71,000,000 pearl-bearing oysters.

## The Force of a Cyclone.

Careful estimates of the force of a cyclone and the energy required to keep the full-fledged hurricane in active operation reveal the presence of a power that makes the mightiest efforts of man appear as nothing in comparison. A force fully equal to one 100,000,000 horse power was estimated as developed in a West Indian cyclone. This is about fifteen times the power that can be developed by all the means within the range of man's capabilities during the same time.

## Dr. Hedin a Wide Traveler.

Dr. Anders Sven Hedin, the illustrious traveler, who lately returned from a wonderful Asiatic journey, was born at Stockholm on Feb. 19, 1865. Stockholm, Upsala, Berlin and Halle contributed to his education and his first expedition was through Persia and Mesopotamia in 1885-86. In 1890 he was a member of King Oscar's embassy to the late shah of Persia, and in the same year began a journey through Khorasan and Turkestan. In 1893 he started on what proved to be a four years' expedition through Asia from Orenburg to Peking via Lop-nor and Tibet, and his late journey through much of the same country and including several trips in the Gobi desert was begun in 1899 and ended only last year.
