

U. S. SENATOR FROM SOUTH CAROLINA

Recommends Pe-ru-na

For Dyspepsia and Stomach Trouble

Ex-Senator M. C. Butler.

Catarrh of the Stomach is Generally Called Dyspepsia—Something to Produce Artificial Digestion is Generally Taken.

Hence, Pepsin, Pancreatin and a Host of Other Digestive Remedies Has Been Invented.

These Remedies Do Not Reach the Seat of the Difficulty, Which is Really Catarrh.

EX U. S. Senator M. C. Butler from South Carolina was Senator from that State for two terms. In a recent letter to The Peruna Medicine Co., from Washington, D. C., says:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine besides a good tonic."—M. C. Butler.

The only rational way to cure dyspepsia is to remove the catarrh. Peruna cures catarrh. Peruna does not produce artificial digestion. It cures catarrh and leaves the stomach to perform digestion in a natural way. This is vastly better and safer than resorting to artificial methods.

Peruna has cured more cases of dyspepsia than all other remedies combined, simply because it cures catarrh wherever located. If catarrh is located in the head, Peruna cures it. If catarrh has fastened itself in the throat or bronchial tubes, Peruna cures it. When catarrh becomes settled in the stomach, Peruna cures it, as well in this location as in any other.

Peruna is not simply a remedy for dyspepsia. Peruna is a catarrh remedy. Peruna cures dyspepsia because it is generally dependent upon catarrh.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

It gives a woman extreme pleasure to prove a man to be in error.

Women select sentiment rather than fact for letter writing.

When a man thinks he is a failure or sinks in despair.

It touches a woman's heart to tell her she is not possessed of vanity.

Men past middle age become tire-some when they drop into the reminiscence.

When a man seeks advice he is sure to expect praise.

Worry during these days puts you in close touch with the undertaker.

Woman's good-heartedness often assumes an impressive form.

At the church of the Sacred Heart in Paris a twenty-two ton bell is tolled by electricity. A choir boy does the work which formerly required the services of five men.

COMPULSED TO USE A CRUTCH FOR EIGHT MONTHS. DOAN'S KIDNEY PILLS CURED MRS. P. CONLIN, CARBONDALE, PA.

Mrs. P. Conlin, 8 Greenfield Avenue, Carbondale, Pa., says: "I suffered with backache, and, despite the use of medicine, I could not get rid of it. I was compelled to use a crutch for eight months, and a part of the time was unable to walk at all. I finally screamed at all I saw, and I was finally cured by Doan's Kidney Pills. I feel like a new person and I would say to every woman suffering as I did, give Doan's Kidney Pills a trial and you will not be disappointed. They are worthy of the highest praise."

"Why is the mob chasing that man?"
"Cause he said if this country and Rorsch got in a fight we might have hard work licking her, blame him!"

She Didn't Care.
Maple Hill, Iowa, Aug. 10.—"I felt as though I didn't care whether I lived or died. I was so miserable all the time." In these words does Miss Nellie Barfoot of this place describe her condition. Every woman who is, or has been sick and suffering will understand and appreciate just how Miss Barfoot felt, and there are no doubt many thousands of similar cases.

It is truly an awful thing when a woman gets so low that she can say "I don't care whether I live or die." But Miss Barfoot tells a different story to-day, and her words should guide every suffering woman to the path of health and happiness.

"I used Doan's Kidney Pills, and I am cured. I feel like a new person and I would say to every woman suffering as I did, give Doan's Kidney Pills a trial and you will not be disappointed. They are worthy of the highest praise."

Water-Heating Device.

The subjoined diagram, taken from Orange Judd Farmer, illustrated how easily water can be warmed in a small way where both house and barn are furnished with running water and moderate plumbing arrangements. The pipe marked E F, running through the house cellar, furnishes water to the house and barn. By means of two short pipes, C D, the pipe from the hot water boiler in the house is connected with the pipe E F, which, as before stated, supplies the barn with cold water.

Then all that is necessary to fill the barn tub with warm water is to open the valve B and shut valve A, thus letting the warm water from the house boiler into the pipe which goes to the barn and shutting off the flow of cold.

Two kinds of ordinary whitewash may be used to advantage, prepared in the following manner: For inside work, take a bucketful of ready limewash and one pint of soft-boiled rice and a quarter of a pound of white glue, dissolved thoroughly and mixed through the mess. For outside substitute in place of rice and glue two each part of white wash a pound of common rock salt, dissolved in boiling water. Thus mixed and applied upon a bright, sunny day, the whitening will remain permanent in color and will not rub off readily, while the application to the interior will destroy the lice that may be secreted in the rough wall and crevices of the inside of the poultry house and stables, if the wash be generously distributed.

A Desirable Door Lock.
Large barn doors are often fastened to a perpendicular bar, one end of which enters a mortise in a beam or block overhead and the other a mortise in the floor. The strength of a man is usually required to take out the bar, or put it up. The illustration shows a more convenient way to manage the crossbar. A round iron bolt holds the bar to the middle rail, SECURE CROSS BAR LOCK.

King of Angoras.
America has developed an Angora jack of the highest quality, which is a great victory for those who claim that we can breed as good stock as can be found in Turkey or South Africa. Lazarus was bred by D. C. Taylor of Lake Valley, N. M., and was the champion at the recent Kansas City show. He was sold at auction to Col. C. S. Richardson of Dubuque, Iowa, for \$700, the record price for an American bred Angora.

Relieving a Pulling Horse.
Most farmers are familiar with the horse who puffs and wheezes at its work. The disease is technically known as "roaring," and is said to be similar to asthma in humans. There is really no cure for it but the trouble can be greatly alleviated by treatment and especially by proper feeding. If the disease is not so deeply seated that the animal cannot do farm work the feed should consist of little hay and this wet each time. Feed mainly on grains. Take one dram of iodide of potassium and mix with one-half dram nux vomica. Give this dose twice a day for two or three weeks during each bad attack and during the period let the work of the horse be that which does not require much speed. The care and treatment indicated will relieve the animal greatly, although it is doubtful if it will ever amount to much for steady work.—Indianapolis News.

OLD DAYS IN OKLAHOMA.

Governor Ferguson's Reminiscences of Hunting in Buffalo Country.
"This is the time of year in Oklahoma when a man feels something pulling him into the open country," said Governor Ferguson, who is a frontiersman by preference and a pioneer by instinct. His father went from Iowa to Kansas when game was abundant everywhere, and became one of the most successful hunters in the Southwestern country. When a small boy Governor Ferguson was his father's companion on many expeditions into Oklahoma and Indian Territory.

"I do not suppose that I shall ever overcome the keen regret that is felt in thinking of the old days that are gone forever," said Governor Ferguson. "Oklahoma seems lonesome to me now when I travel over it and pass constantly in sight of towns and farm houses where once I saw nothing but the prairies, the hills, and the timbered streams. It was my delight to ride as the crow flies—straight across the country, unobstructed by wire fences and section-line highways. Spring was a glorious season. The air was fresh and pure, the earth mantling with green and brilliant with flowers, and the sun just far enough north to thaw the winter sluggishness from a man's blood and set every nerve tingling with happiness. The plaintive note of a meadow lark all ways makes me homesick and brings back to me a vision of the prairies. It was no less enjoyable to ride in the big timber in the river bottoms, musical with the songs of countless birds. The song of what we called the "sugar writer" bird, probably the tobeo, had a melancholy sweetness that makes a man's heart thump even now.

"I went with my father on many hunting trips from Chautauque county, Kansas, into Oklahoma. The regions between the South Canadian river and the Smoky Hill was the best buffalo country in the West. Along the Salt Fork in Northern Oklahoma I have seen buffalo as far as the eye could reach. We came often in the fall, with ox teams, and returned with our big wagons loaded with winter meat. We camped one afternoon at Buffalo Springs, just north of Hennessey, and turned our oxen out to graze, without unyoking them. They began snorting, and fearing a stampede, we chained them to our wagons. We looked everywhere for the cause of alarm, but could see nothing. In about ten minutes a low, rumbling sound, like deep, far-off thunder, came from the west, where clouds of dust were rolling high in the air. We knew that a herd of buffalo was coming. Almost before we could realize it, the herd was upon us, rushing headlong for the springs, where they crowded upon each other in a mad frenzy for water. Their tongues protruded as if they had been pursued by hunters, which was probably true. We killed nine, all we needed, in a short time.

"It may be unwise to destroy traditions, but the story that Pat Hennessey is buried in the town of Hennessey is untrue. Hennessey was buried near Buffalo Springs, and I saw his grave within a year after he was killed, and many times afterward in driving cattle up the trail. The grave was marked by a stone on which was 'P. H., 1874.' If I remember correctly, the year of his death—Guthrie (Ok.) Correspondence Kansas City Star.

UNIQUE BIRD EXHIBIT.
St. Louis Fair Now Has One of the Most Instructive in Existence.
Frank M. Chapman, the bird man of the American Museum of Natural History, has made a remarkable picture for the bird exhibit at the St. Louis World's Fair.

There is a glistening stretch of real beach sand arrayed with a background of painted beach and painted sea so natural that you can almost hear the waves ripple. Tufts of beach grass and stray clumps of beach goldenrod actually growing in the sand and many shells are supplemented by pictured grass and bushes so that the two blend and produce a most realistic scene.

But even more natural than the setting are the groups of birds, the habits, growth and appearance of which the whole thing is intended to show. The exhibit has just been opened and is the most striking in the museum.

His Trouble.
"Literature may be a great thing," said the sad looking man, "but if I hadn't been a man of letters I would have had less trouble."
"Indeed?" queried the casual acquaintance.
"Yes, I wouldn't have been mixed up in a breach of promise suit."—Philadelphia Ledger.

Mountains of gold could not purchase such testimony—or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to Mrs. Hayes.

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; tumors; inflammations; ulceration; falling and displacement of the womb; backache; irregular, suppressed or painful menstruation. Surely the volume and character of the testimonial letters we are daily printing in the newspapers can leave no room for doubt in the minds of fair people.

Somehow a man always has a lingering doubt or two when a woman says, "I want you to understand that I am a lady!"
There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. There are people in this world who insist on thinking that the self-made man who has the gout is merely trying to show off.

Don't get the idea into your head that woman is more economical than man just because her waist is smaller.

Fibroid Tumors Cured

Note the result of Mrs. Pinkham's advice and medicine.
"Some time ago I wrote to you describing my symptoms and asked your advice. You replied, and I followed all your directions carefully, and today I am a well woman."
"The use of Lydia E. Pinkham's Vegetable Compound entirely expelled the tumor and strengthened my whole system. I can walk miles now."
"Lydia E. Pinkham's Vegetable Compound is worth five dollars a drop. I advise all women who are afflicted with tumors or female trouble of any kind to give it a faithful trial."—(Signed) Mrs. E. F.
