We hope our readers will excuse us in not being on time for the past three weeks. Our ready prints did not come on time the two previous weeks and last week we had to get out the ballots and that made us one day late.

The Ladies Aid supper given here last night was well attended and a good supper was prepared, which always is by the Ladies Aid Society. It is wonderful how many kept mum, during the mum part of the social, but we noticed some had to be their mouths shut. We all had a fine time.

An extra large crowd attended the E. L. social last Saturday night—Larger than expected, but all got their fill; If they didn't it was 't the pickles fault. Several games were played before and after supper. During a march before supper a number of ghosts appeared and made things merry for a while. Everybody had a good time—or at least we have heard nothing different.

### Stepped Against a Hot Stove.

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and in less than two weeks was well. Mrs. Benson is a well known resident of Kellar, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by All Druggists.

### SORE FOOTBALL PLAYER.

He leaves the University of Nebraska Team.

Lincoln, Oct. 23.—Piqued by his transfer from the 'varsity to the scrubs, Floyd M. Clark, a member of the football squad at the University of Nebraska, has turned in his suit at the gymnasium, and besides not appearing for practice, he has quit his recitations in school.

Clark is credited with the intention of going to Madison to join Coach Curtis' squad at Wisconsin university. His roommate in Lincoln declares that transportation has been promised Clark by the athletic authorities at Madison if he goes there to play football.—Omaha Daily News.

### The Best Remedy for Croup.

[From the Atchison, Kan., Daily Globe.]  
This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglar. There used to be an old-fashioned remedy for croup, known as hive syrup and tulu, but some modern mothers that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by All Druggists.

The printer has his ins and outs with the other professions, as was the case last week. After having printed the ballots and having them all sacked up for delivery the editor sat down to rest his weary limbs and brain, and on picking up the World Herald he discovered that the ballots that he had printed were unlawful, as the Legislature said last winter the blanket ballot could not be used any more. So all the printer had to do was to go to work and do the thing over, and thanks to L. C. Wright, editor of the Sun, and W. H. Davis who so kindly laid aside their coats—And by midnight, with two or three pasting and cutting paper, we were able to start the ballots forth once more to fulfill the wishes of the voter. There was not much kicking by the office force other than if representative Currie voted for this law, that he didn't have all the ballots to paste together.

### Bodarc Cleanings.

We learn that Mrs. J. H. Montgomery was being quite sick for the past few days.

Miss Christian, the Bodarc teacher, has decided to make her home for the winter at Mrs. John Thayer's.

John Mack took the new teacher, Miss Egan, to Harrison Saturday. Now boys don't interfere, this is Johnnie's chance.

Mr. and Mrs. H. Zimmerman visited with Earnest Bunge and family on the divide the first of the week.

News is scarce. If we could write about the election we might tell of broken faith, blighted hopes and sad hearts as the result, but unfortunately we are debared from visiting the polls, so it must be left to the imagination of the reader.

### Corkwood Casks the Best.

Last Saturday Paazy Jones was on a horse and rode out in the river; she let go of the reins and they got around the horse's head. The horse got one foot through the reins and started to back. Pearl jumped from her horse and caught Paazy by the arm. Paazy ran behind a tree. They got the bridle off of the horse and then they went home without further trouble.

There was a dance at Glen last Saturday night. Some of our people went down and report a good time.

## PHILIPPINES DESCRIBED.

Schoolteacher Takes a Few Falls Out of the Pacific Archipelago—The Instructor is a Regular Artemus Ward, but is a Better Speller.

The following article in the Manila Leader, from the pen of a former resident of Denver, is interesting reading:

Manila, P. I., June 14, 1902.—The Philippines are a bunch of trouble, gathered together on the western coast of civilization. They are bounded on the west by hoodooism and smugglers, and on the north by rocks and destruction, on the east by typhoons and moonshines and on the south by cannibals and earthquakes. The climate is a combination of electrical changes especially adapted to raising can. The soil is extraordinarily fertile in producing large crops of insurrection and trickery. The inhabitants are very industrious, the chief occupation being trench building, the making of holes and knives and reloading of Remington cartridges.

Their amusements are cock fighting, monte, theft and cheating. Their diet consists of boiled rice, stewed rice, dried rice and rice. The Filipino marriage service is very impressive, especially the cause wherein the wife is given the privilege of working as much as her husband requires. The animal of burden is the carabao. On a three-mile journey only ten days' rations may be carried, but if the journey is for 100 miles the driver usually dies of old age before reaching his destination. The rivers are serpentine in their course, the waters running in a manner contrary to all known laws of nature.

Manila, the capital and principal city, is situated on Manila bay in a large landlocked body of water full of filth, sharks and Spanish submarine boats. Cavite, the next in importance, is noted for its natural facilities, for a naval station and its large number of saloons and dens. The principal exports of the islands are rice, hemp, sick soldiers, and war bulletins. The principal imports are American soldiers, arms, ammunition, beer and tobacco. Malaria is so prevalent that on numerous occasions the islands have been taken with a chill. Luzon, the largest island of the group, resembles one of old Green's cast off boots.

Communication has been established between the numerous islands by substituting the mosquito being much larger and better adapted to stand the fatigue of the journey. The native costume consists of a flour sack tied around the waist and everything under 12 years of age waits until next year for his clothes. The towns are an aggregation of shacks full of filth, fleas, cur dogs and disorder. The dogs, bugs, lice and family all sleep together, on terms of equality. The Philippines are appropriate to present to a deadly enemy.

The native a friend at the point of a gun. The climate pleasant and healthy for reaches, tarantulas, scorpions, centipedes, snakes and alligators. The island—A God forsaken, cannibalized, Agumalad infested blot on the face of God's Green earth.

A. W. PARKS, Teacher.

Miss Lillie Harris is going to board at Robert Keel's the remainder of the term as it was quite too far from Mr. Zerbst's, the days are getting so short.

Mrs. Belle Dunn was the lucky winner of the talking machine at Bourret & Davis's. She is going to take a rest. A few more of us women need one.

Mr. Pencer and wife and little grandson from Lincoln, were visiting at Robert Keels Thursday and took in a few sights including the devil's den. They also visited Mrs. Belle Dunn on the divide returning to their home Saturday. They took with them a sample of Robt. Keel's potatoes, of which they say there are none like in the state.

### FIGHT WITH INDIANS.

The following is a dispatch clipped from the State Journal.

Douglas, Wyo., Nov. 1—Sheriff A. McDerrott tonight received word of a battle fought last evening between Sheriff Miller of Weston county, and posse, and a band of Indians. The sheriff was fatally shot and Deputy Sheriff Faulkenburg was killed. Three Indians were killed. A number of cowboys armed with rifles, left this morning, and another posse headed by Deputy Sheriff Cook left this afternoon for the scene of trouble. Another large posse left Lusk tonight and there is great excitement here and all sorts of rumors are current.

Sheriff Miller and his deputies left New Castle twelve days ago to arrest the Indians, who were in one band to the number of twenty-five or thirty. Ranch men had reported that in addition to slaughtering large numbers of deer and antelope the Indians were killing cattle and sheep, stealing horses and committing other depredations.

The Indians were trailed to near the head of Beaver Creek, where they had camped. All of the men, save a few old bucks were out on the plains hunting game, and the camp was in charge of those who were preparing the skins and meat for future use. Sheriff Miller took possession of the camp, loaded the equipage on five wagons and sent the outfit back to New Castle in charge of Lieutenant Hilton.

In company with deputies James Davis D. O. Johnson, R. B. Hackney and Fred Howell, the sheriff next day set out on the trail of the Indians. It is not known where the chase led, but the Indians had evidently received warning of the approach of the officers and attempted to get out of the country.

It is not known whether an ambush was laid for the officers on Lightning

Rich Women in Feud.  
Mrs. Jeanette P. Goin is one of New York's richest women, but is never seen in society, for which she expresses vast contempt. Mrs. Goin owns an immense deal of valuable real estate. Adjoining her home on Fifth avenue is that of Mrs. Perry Belmont, who built an extension some time ago, thereby cutting off Mrs. Goin's light and air. The latter thereupon quietly purchased a lot around the corner, on which she built a high stone fence. Mrs. Belmont's extension has been much darkened in consequence, but Mrs. Goin declares her fence will remain until Mrs. Belmont's extension shall have been taken down.
