Effect of Tobacco.
The effect of the use of pure and adulterated tobacco will be the study taken up by Dr. Wiley of the agricultural department, after having concluded experiments in the effects of adulterated foods he is now conducting. It is his intention to take men who are regular smokers and to ascertain their physical condition as to heart action, breathing and digestion, while continuing the use of tobacco under normal conditions, and then to have them suddenly cease the use of tobacco entirely.

Freck Turkey.
One of the oddest freaks of nature that Missouri ever produced was taken to Pleasant Hill a few days ago by Miss Amie Lee Hays. It was a young turkey having two heads, three bills, six legs, six wings and four feet. As it died soon after being hatched, it was placed in alcohol, and is now on exhibition in the window of a drug store in Pleasant Hill.

A Gallant Governor.
In 1900 the Southern Music Teachers' association held a convention at Atlanta. Gov. Chauler of Georgia enjoyed the recitals and lectures, and did all in his power to encourage the movement. The governor also held a brilliant reception, and at the conclusion of a musical number the governor exclaimed with much enthusiasm, "What is heaven's loss is our gain." "Just the reverse, governor," corrected a young lady, "you mean our loss is heaven's gain." "No," said the governor, bowing gallantly, "it is heaven's loss until you are all dead, then it is our loss."—Detroit Free Press

The Force of a Cyclone.
Careful estimates of the force of a cyclone and the energy required to keep the full-fledged hurricane in active operation reveal the presence of a power that makes the mightiest efforts of man appear as nothing in comparison. A force fully equal to over 100,000,000 horse power was estimated as developed in a West Indian cyclone. This is about fifteen times the power that can be developed by all the men within the range of man's capabilities during the same time.
