Those who were hoping and wishing for a mild winter are now just as earnestly wishing it would snow.—So it goes, we are never satisfied.

J. B. Burke held services at the Bodarc church Sunday and a goodly number turned out to hear him. There would doubtless have been more had the announcement been made a little earlier.

John Coffey says he is sick, sick of the country we presume, there are others and we can sympathize with him to this respect especially when those gentle winds that are wafted across the Rocky mountains and sweep along the plains of Sioux Co. picking up the houses and other structures that seem to lie in their way and are not at all particular where they drop them again.

M. A. CO.

Dr. Spindio the Crawford dentist:

### Hunter Happenings.

Mrs. Christensen was a Harrison visitor Monday.

Mail clerk Smoke visited home between trains Monday.

Mrs. Hayden of Section 87 visited at Mrs. Rice's Sunday.

Mr. Hader took the passenger for Belmont Monday evening.

Tom Jones came over from Saw Dust Saturday and went back Sunday.

Mr. Hull's car is in our burg. They are going to build some new bridges east.

Some of his men were passengers on Monday morning's passenger; returning in the evening.

A number of the neighbors met at Mrs. Rice's Sunday evening and enjoyed some fine music, both vocal and instrumental.

Dick and Grandma Howe went over to Saw Dust Sunday. Grandmas will visit her daughter Mrs. Hagerman and family a couple of weeks.

Rumor has it that we will soon have a new Depot. It will be nicer than we have although we shall always retain sweet memories of our little cabin.

We heard Monday morning that we shall soon hear the merry chimes of wedding bells but we think it is like the story of the empty house (nothing in it.)

Mr. Bert Hamlin, an old friend of Mr. Rice stopped off of Monday morning's passenger, and stayed over until Tuesday morning. We trust he is well pleased with our little city.

Mr. Christensen says if the person who kindly took his ax will come back, he will give him a saw and saw buck, and if he cannot get along then, he will furnish a man to help use them.

Panz Jones and her mamma visited school Monday and found the work very good. Three pupils were absent. We would like to see every one there; being so few none ought to be absent. Parents can not encourage their children too much in their school work.

Rohr, Keel roped a coyote and killed it last week.

Mrs. Belle Dunn and children visited with Mrs. Jack Finley Monday.

John Anderson and hounds and Henry Willis were at the S. E. Monday.

Born—To Mr. and Mrs. Horace Dunlap, a baby girl, on Thursday, Feb. 4.

Will Griman came Saturday and stayed over Sunday, returning to his school Monday.

Mrs. Gustave Noreisch and daughters Jessie and Emma and Mrs. Sam Knorr and children called on Mrs. Scott Monday.

Mrs. Keel received a letter from Miss Lillie Harris, our former teacher, who is now teaching in Wyoming. She has a S. S. started already. "Hurrrah for her" she surely has energy, spunk and determination.

I read that little items last week about the W. C. T. U. ladies of Gordon, and I can't understand why that should be considered any more honorable way of raising school funds than by a licensed saloon. It is just merely begging, and many a one will subscribe to such and at the same time be robbing their own families, rather than see some neighbor give and you not. I know I have had a little experience in that line—when if you have a licensed saloon the money is just as honest as any other money required by law for running business, and as a general rule, if a town won't license a saloon, there will some one sell it without license, which is simply stealing, in my estimation. A saloon keeper can be just as honest (and often are) as any other business man; but a druggist who sells liquor in every and any shape to any and everybody are not honest in my way of thinking. Then why not license a saloon and let the school have the benefit as to have it without license, and no one receive any profit, and just as much drinking done. For my part I blame the man who drinks and not the one who keeps the saloon.

### PEGGY.

We are sorry Peggy can't see the difference in paying in a direct and honorable way of educating our children and in licensing a saloon to raise the money. I will say here that such a mode of raising money is not begging; it simply means: how much are you interested in the education of your children? This giving because some one else has given is not giving that is in a true sense. The object in view determines a great deal, whether our contributions are gifts or not. If a man would rather give 15 cents for a drink of rotgut whiskey and take chances on the saloon man educating his children by licensing him to sell this stuff to him why the saloon man is more to him than the education of his children. I will not condemn the man altogether that runs the saloon, but I will say that the greater part of the money that he takes in comes from homes where it could be better used to feed and clothe little innocent children, who have no voice in the matter. We don't believe you fully understand the difference between a licensed saloon and a drug store selling whiskey without a license. The man that sells whiskey without a license is a violator of the law and knows that he has to be careful; but the man that has a license has the people (or the law) to back him up, and we can't figure it out that God ever intended that man should have the right to legalize an institution to rob innocent children of the necessities of life. History will prove the fact that the man who drinks whiskey will pay for it, even if his wife has to sacrifice her clothing and food and also that of his and her children. We know whereof we speak, and we may be called upon to speak plainer, but so long as God gives me strength to provide for my little ones I will educate them from the sweat of my own face, and not in legalizing by my vote or voice a man to rob the helpless and popular young lady in town.

The second cake was won by Miss Mabel Zerbe; she receiving 505 votes while Miss Eddie Gerlach received 450. Professor Morris made a statement before the voting began that the man receiving the largest number of votes would not necessarily make him the ugliest man, nor would it make the young lady the most handsome and popular that received the most votes; but we feel that it will be a hard matter for him to make the young men that voted for Miss Zerbe believe that she is not the most handsome and popular young lady in town.

The proceeds of this social go to defray the expenses of Deputy State Superintendent of Public Instruction, Mr. J. L. McBrien, who will be present at the commencement exercises of the high school room, which date has been set for May 21.

The citizens showed their appreciation of the interest manifested by the pupils of this room, and we trust that these exercises may be an impetus to the educational work in this place.

### FROM OUR EXCHANGES.

If a man has a fifty-dollar bull pup he would look after it carefully and not let it run all over town at night. But if he has a boy it is different. The boy is turned loose at a tender age to go to the bad, and people wonder where the big army of dead beats, bums, tramps and gamblers come from. They germinate from pure seed gathered at home, sown broadcast on the street and alleys. The boys ought to be given at least a show equal with that of a bull pup.

A schoolboy in Jewell City, Mo., was assigned to prepare an essay on the subject of "Ducks," and this is what he wrote: "The duck is a low heavy set bird, composed mostly of meat and feathers. Its strings of any party to that extent that he can't see any good in anyone that may

having a hoarse voice caused by getting too many frogs in his neck. He likes the water and carries a toy balloon in his stomach to keep him from sinking. The duck has only two legs and they are set so far back on his running gears by nature that she came very near missing his body. Some ducks when they get big have curls on their tails and are called drakes. Drakes don't have to set and hatch, but just loaf, go in swimming and eat. If I was to be a duck I'd rather be a drake any time.

An Irishman and his wife were left a sum of money and they decided to see the world. They went to Jerusalem and the Sea of Galilee. The
