A Card of Thanks.
To the people of Harrison we wish to extend our heartfelt thanks for the kind news and sympathy shown us during the sickness and death of our dear little one MR. and MRS. LEONARD LOU.
J. H. Sturdivant's familiar face was seen on our streets yesterday. Joe does not get to Harrison very often as he lives in the south part of the county, and no doubt Mitchell and other towns south desire and appreciate his company as well as Harrison.
NOTICE.
All parties indebted to Chase Newman by note, or otherwise will find all bills, and notes at the Commercial Bank for collection. Please call and settle all open accounts by note, bank check or cash in hand and save costs.
HAS NEWMAN

Rev. Daniels preached a very interesting sermon last Sunday night, and we are glad to say there was a large congregation to hear it too. His text was Matt 22:13. Pien said the King to the servants bind him hand and foot and take him away, and cast him into outer darkness.
Miss Ida Moraviek assisted at the organ last Sunday evening, for both League and church services, and we have heard a verbal compliment paid to her in the manner in which she did her part. If there is anything we like to see in anyone that has talents, is to use them, for in so doing the intellect is cultivated, and broadened and only leads to greater things.
E. A. Biglow and daughter Mabel went to Chadron Monday night. Miss Mabel will attend the Chadron Academy until the Junior Normal at Alliance opens up, and will then enroll there for the term. Our public schools would be very much more benefited, if other teachers would give more of their time to study, and preparation, as does Miss Bigelow.

All schools have more or less trouble in the government of pupils and Lusk is no exception to the rule. Then comes a clash between the school board and parents—that is when the latter want to butt in. There is one thing we have noticed for fifteen years and that is when children are allowed to run a school, the taxpayers' money is worse than burned. Better a thousand times let parents who want their children to run the school send their offspring to Egypt or some other old place to be educated than let them run the district school in the ground, to the detriment of all the other children. Columns could be written on this subject, but enough has been said for serious consideration. Lusk Herald.

How true are the above words, and we are glad that brother Maves makes it so plain. The worst trouble always comes from children that have their own way at home, for teachers find but little trouble in controlling children that are obedient to their parents. Were children brought under proper discipline in the home, and backed up in the school room, our state prisons would have fewer convicts for the first violation begins in the home, and school room, and it is natural for them to become violators of the laws of the land, and are thereby deprived of their liberty.

Died—At his residence of Mrs. Sarah Jordan at 11 o'clock last Thursday morning March 10th, 1904 the infant daughter of Mr. and Mrs. Leonard Dout. The little one came into this world February 29th, but as short life here was full of pain, and suffering and God saw best to call it above where there is no such thing as pain. A short service was held at the home of Mrs. Jordan by Rev. Daniels after which, the remains were taken to the Bodarc cemetery to rest by the side of a little brother that had gone some years ago. There is always a blessed thought in our deepest sadness over the departure of these blessed little ones for Jesus said, For such is the kingdom of Heaven, and we can always know they are little hands beckoning to us to come up. The Press Journal extends sympathy to the bereaved parents and relatives.

Mr. John Plunkett is quite ill at his home in Warbonnet precinct.

We are glad to say that Mrs. E. F. Pontius is much improved.

Earnest Phinney was down from his ranch in South Dakota, after a load of grain.

Mrs. I. C. Lewis was visiting Mrs. Frank Lewis and Mrs. Charles Unit last week. She went to her home at Crawford Monday evening.

Mrs. Werdeman sold her home place on east the creek last week, and Martin Doyle is now the owner of the valuable place. Consideration, \$1000.00.

Ed O'Conner has commenced the erection of a building between Sherrills Hotel and Bigelows confectionary. He will use this building for a barber shop when done.

I will hold services at the Bodarc church next Sunday morning at 11 o'clock A. M. Everybody is cordially invited to attend.

J. B. BURKE.

A man by the name of Miller was found dead down on Snake creek near James Connelly's ranch. The message and he had been shot. Mr. Connelly sent sheriff Lowry a telegram stating that if he was wanted he could be found at Scotts Bluff. It seems that Mr. Connelly and Mr. Miller have had some trouble before this but whether Connelly did the shooting is left for the Coroner's jury to find out. No doubt this case will bring Sioux Co.'s criminal record up again.

A SAD CASE.

George Bollen one of Douglas's leading merchants, was returning from Germany with his fourteen year old son, where he has been on a visit, and for his health. The father was taken sick aboard the ship, and died and was buried at sea. No doubt this young boy will have a vision of the death, and burial of his father the rest of his life. It is sad enough when our friends pass away, and we are permitted to do something for them, but to die among strangers, and to be buried in the waters of the mighty deep, where the sea fish may feast upon the body of the one that has been loved so. Well it is sad and indeed. It is true that so far as the body is concerned after the life has gone from it, it matters but little to it whether it be cast in the sea, or placed in the depths of mother earth, but there is a sacredness in the mound of earth that always reverence as containing the mortal remains of the one we loved so well.

Hunter Happenings.

We have eleven little chickens.
Ed Schwartz was a Harrison visitor last week.
Mr. and Mrs. J. R. Hunter are visiting in Omaha at present.
Black birds were seen in our city this morning—sure sign of Spring.
The ground was white with snow here Sunday morning, but it soon disappeared.
Mrs. T. Jones and children visited at Mrs. Archibald's of South Hunter Sunday.
Robert Rice is helping Harold Hunter keep bachelor's hall while the folks are away.
T. O. Williams and family and Mr. Sam Williams visited their sister, Mrs. J. A. Rice, and family Sunday.
Joe Varley, of Slab Town, was hunting a horse of his which strayed away. He stayed over night at the G— We hope he found his horse; He reported the folks all well.
Pearla Jones and Clara Christensen visited at Proctorville Sunday afternoon. They accompanied Mrs. Proctor and Eva over to Hughes and enjoyed a fine visit with Mrs. Hughes. They report a fine afternoon.
We forgot last week to mention Mrs. V. A. Hester and little daughter visited Mrs. Christensen several days the week before. Mr. Hester came down Friday evening and they went to Harrison Saturday morning.

Our school is preparing to give a play the evening of the last day of school. We wish them success; Andrews scholars have never made a failure yet, and we feel sure they will make a success of this, altho it is something new.
Mr. Pate Clarke, one time foreman of the bar F ranch, and another gentleman named DeMalt, were in our burg last Friday evening. They were looking for work on the ranch, but Mr. Hunter was not at home, so we understand they went back to Crawford.

Alright Peggy, I suppose you are right. We don't understand everything. You must know we have never been troubled about fences, and therefore don't know, but we do know we have a small herd of stock, a small herd of children, also a

small herd of chickens, so the fences do not benefit us in the least, whether they come down or not. Do you, Peggy, honestly, really and truly think our president would have ordered the fences down of his own accord if some one had not got mad at some one else and complained to the government? And of course an investigation followed which resulted in the fences coming down. (We understand that is the way it came about if wrong some one please correct us.) We know he is a good president, and trust he is every body's friend. The best thing we can see is; it will give our home boys a better chance to get work without going in other states for work, as more help will be needed on the ranches. It is all for the best, let us hope.

U No.

War Bonnet Topics.

Mrs. Zerbst's baby was quite sick last Sunday.
Mary Scott visited Sadie Grimm last Thursday.
Frank Scott and sons are busy shelling and marketing their corn this week.
Miss Nellie Scott is at home, after a two months stay at the Harrison House.
Dan Slattery gave us a call and stayed over night with us one night last week.
George Grimm made a trip to Pleasant Ridge Monday and got a steer he had lost. It was at Richard Lunna's.
Tom Plunkett, Dick and Emmet Jordan visited at Scotts Sunday. Dick and Emmet left for the west on Monday.
Mr. and Mrs. Merrism and children visited with their parents on the divide Saturday, it being the first time Mr. Garretson has been home since Christmas.

Mr. Burke's team pulled the post up that they were tied to Sunday and took a little spin around the pasture, but no change was done as the boys were on their ponies in a moment and soon succeeded in catching them.
Mr. Burke was out and gave us a good sermon Sunday, but sorry to say we never knew he was to be there, so not many were present; But this shows that we should always be ready and partake of small favors, and then if an unexpected treat comes we should all be there to hear it. So come every Sunday as usual at 8:30 P. M.

PROOF

COTTONWOOD ITEMS.

Another dance is reported at Adelia for March 17th, St. Patrick's day.
Miss Rilla Kratz was visiting her aunt, Mrs. Stewart, one day this week.
C. E. Stewart and Frank Carlson made a business trip to Crawford today.
Frank Spese was at this end of Cottonwood Sunday visiting the bachelors.
Anton Meckem and family were visiting in Hatorsek valley over Sunday.
The Meckem boys are having dry weather this season so have gone into the cord wood business.
Walter Meyer was made happy Sunday by getting his broncho home that was given him for Christmas by his aunt.
Blaine Booth expects to go to Grand Island Normal college the first of April. The young folks will miss him very much.
We are glad to learn that little Willie Meckem, son of Mr. and Mrs. J. Meckem who has been sick for a year or so, is getting better and able to walk again.
We understand the dance at Howard's Friday night wasn't very well attended. It's a shame on the boys for not taking the girls and then growl because there are no girls to dance with.
News is not plentiful this week, but as we saw our last item in print we promised to come again. Why don't Timothy wake up and write more news as we always enjoy reading Carey items.
Charley Howe, who arrived last week from Minneapolis, Minnesota, had quite an experience Sunday in riding a western broncho. After getting on he went up in the air and came down like a rubber ball. We hear the boys still laughing, but try again Charley, you can only tumble off on the other side.

HAYMED

MORTGAGE OUT OF PLACE.

Pastor's Witty Explanation Deserved to Be Well Rewarded.
There is a story of a pastor who, at the opening of a new church, favored his congregation with a minute account of the structural features of the sacred edifice in which for the first time they were met. "It is in the Ionic style," he remarked, "with a composite vestry and Corinthian fittings. Over the portico," he added, "is a pediment tower, over that a cupola, and on the top of all a mortgage, which last, my brethren," he concluded, "being clean contrary to the rules of architectural proportion as laid down by Prof. Vitruvius, I hope promptly to remove by a liberal collection."

MIDLAND BREEDING FARM.

55 HEREFORDS 55

AT AUCTION SALE.

Plainview, Pierce County, Nebraska,

March 25th, 1904.

Thirty (30) Bulls 1 1/2 to 2 years old; Fifteen (15) 2 year-old bred Heifers, and a number of choice young cows with calves at side—all richly bred, a majority of the pedigrees running back to ANXIETY 4TH 9904, through the blood lines of the "Archibalds," "Lord Brandon," "Beau Red," and others. The "Earl of Shadeland" and "The Grove 3d" are strongly represented. This is not a dispersion sale, but is made up of the Very Tops of the young stock of my herd, being of a very uniform type and color, with plenty of quality. They are a very choice and desirable lot of cattle. They have not been pampered and are not fat, but are in good thrifty breeding condition, are just about right; have been raised in pasture and open yards, and they will certainly prove profitable and satisfactory to the buyer and make him money. This will be an excellent chance for farmers and ranchmen in North Nebraska and South Dakota to buy good breeding cattle at their own prices, delivered at their own doors.

HOLT BROS., OF LAUREL, NEBRASKA.

Proprietors of one of the best pure bred Hereford herds in Northeastern Nebraska, will contribute 7 head in this sale—3 Bulls and 4 Cows, all choicely bred. PLAINVIEW is located in Northeast Nebr., about 75 miles West of Sioux City, on the Great Northern and F. E. & M. V. Railroads.

Write at once for Catalogues, giving full particulars.

AUCTIONEERS

POISON FOR PRAIRIE DOGS.

The following prescription is recommended as a "sure shot" to rid the farm of prairie dogs and other rodents:

4 1/2 oz powdered strychnine sulphate.
3 oz cyanide of potassium,
3 oz green coffee berries,
6 oz alcohol.

White of 4 eggs.
4 Gallon thick syrup made of light sugar and water.

140 lbs. of clean wheat.
14 lbs. of corn meal.

Mix the compounds as follows:
First—Coffee and white of eggs are mixed, and the mixture allowed to stand about 14 hours.

Second—Strychnine and alcohol are mixed and the mixture allowed to stand 5 or 6 hours.

Third—The cyanide of potassium is dissolved in a quart of hot water and allowed to cool.

Fourth—The mixture of coffee and eggs is added to the cyanide and water, and stirred, and then stirred through a coarse sieve.

Fifth—The syrup is added to the last mixture.

Sixth—The strychnine and alcohol mixture is added to the other ingredients and the whole well stirred, and if not wanted for immediate use, must be kept in a closely corked vessel.

DIRECTIONS FOR USE.

After thoroughly stirring or shaking the mixture, pour it over the wheat in a large tub, and again thoroughly mix; then stir in the corn meal to take up the extra moisture and to hold the poison to the wheat grains. Allow the poisoned wheat to stand closely covered over night, and put it out early the following morning if the weather is fine. Place a tablespoonful or less at the outside of each burrow occupied by prairie dogs, placing it in two or three little bunches. This poison is also recommended for destroying prairie squirrels, rats, mice, pocket gophers and other rodents.
