"Leave me how much?" anxiously he says, referring to climate: caked the bride, who was-well, let ins say 29 years and 11 months old.

10 Still Had a Chance.

She-I understand you are a joke writer

He-I may be guilty, but I never talk about the stuff I turn out. She-That's good. There's always some hope of reformation when there's

## a sense of shame.

On the Wrong Trail. "It is no more than right that the strong should aid the weak." said the landlady.

"And yet," rejoined the sarcastic in the States, boarder, "I fail to see how dropping a hunk of butter in the coffee would benefit it any."

### Sarcasm.

Noozey-Hello, Snappe, what ar you going to do with the camera? Snappe-Going to bore an artesian

well in our sitting room; you didn't suppose I was going to take pictures with it, did you ?- Philadelphia Ledger

### OPINION OF THE EDITOR OF THE "NEBRABKA FARMER."

He Expresses His Approval of Ameri-can Emigration to Canada.

During the winter months the head of the family consults with the other members as to the prospects for the future, and doubtiess one of the most interesting topics discussed is that of moving to some district where it is possible to more easily secure what is uccessary for a comfortable existence. where it is an easy matter to become possessed of sufficient farm land to assure a competence for the future. This not only interests the head of the family but every individual mem-

ber of it. Having before me the knowledge where he can secure a home with the expenditure of but little money, it is possible regarding the productiveness of the land in the country that he may select. For several years past a large number of Americans have removed to Western Canada, and as searly as it can be ascertained almost all of these have expressed themselves satisfied with the conditions that exist there. During the past summer a number of

the editors of farm papers throughout the United States made a personal visit on a tour of inspection, and the reports of these gentlemen prove intering reading. Mr. H. E. Heath, editor of the Nebraska Farmer, a paper enthe confidence of its subscribers, after giving some ides of the extent of this wonderful country, says:

"Western Canada is the last unoccupied and unimproved good agricultural land in America available to-day."

He then discusses its possibilities for raising live stock and the advantages it possesses for dairying, farming and wheat growing, and says, "What has been said about the country as to the ability of the soil, the yield of wonand leave you, darling?' asked the derful crops of wheat, is quite justi-Sed."

To quote further from Mr. Heath,

"These people (skeptical ones) de not know or realize that altitude more than latitude makes climates; that large bodies of water, both fresh and sait, that never freese over, exert a wonderful influence on climate. An other influence on climate, more potent than those named above, which applies more to the Alberta district, is the warm Chinook breeze from the Pacific Ocean, which is 600 or 700 miles mearer than Colorado or Wyo

ming, besides the Rocky Mountain range is not nearly so high nor half Officer Has Interesting Adventur so far from the ocean as it is down

### SALE OF THE "DUDE" RANCH Place in Dakota for Extertaining

The recent sale of the Eaton ranch at Medora, N. D., at the crossing of the Little Missouri River, known as the "Custer trail." because General Cuser's Big Horn expedition in 1878 rossed at that point, marks the transfer of probably the only "dude ranch" in the country. The name was given to the place by the pioneer settlers and

cowboys because of the large number of more or less illustrious scions of wealthy families who flocked there annually for a taste of the run1 wild West The Eatons were formerly Pitts ourgers, who settled at Medora in the

palmy days when Marquis de Mores stablished his big packing plant, when well for him to obtain all information the finger of the cowboy was continunly on the trigger and the gin bottle was always open to all who might apply. For some years they engaged in the stock business. Buying wild animalis, such as bear, elk, deer au duillar species for eastern parks provid a profitable occupation and they en gaged for a time in that business. At me time they had an immense corral full of live elk awaiting shipment to eastern parks. They also drove som traffic in buffalo, when one could b

bought and sold. Subsequently the Eatons discovered the possibilities of the "dude" traffic joying a wide circulation, as well as Many wealthy families of the East had sons of more or less comfort t them, and a summer in the wild West appealed to them as a good thing for the boys. Accordingly they went out in singles and in pairs and droves to rough it for a season and see the West as it was. The Eatons boarded them furnished them with horses, guns an the accouterhents necessary, and blanned expeditions during the summer for hunting and other bits of west-

em experience. Upon the ranch grounds they erected long building, separated by numberless partitions into small rooms, in each of which was a bunk and what furniture was necessary. This was known as the "dude pen," and here the visitors slept and had their being during their stay. The dudes were conspicnous by their fondness for immense hats, revolvers, high-heeled boots, rattlesnake belts and leather "chaps. It is understood the ranch has been sold for \$30,000 to a wealthy New Yorker.-Minneapolis Tribune.

### To Develop Leg Muscles

It is very necessary to posse sufficient development of the muscle to secure a certificate entitling him of the legs. One of the best exercises looking to this end is accomplished as opportunity of visiting any portion of follows: Stand erect, with the feet spread apart and arms hanging limply at the sides. Bend downward to a squatting position, allowing the hands to touch the floor, if possible. The

squatting position should be one in which the student as nearly as possible sits upon the heels, but head and trunk should be erect or nearly so. Whe this position has been taken, bring th arms up horizontally forward, clasping the hands for a moment only. Next throw the arms as far backward as possible and as nearly horizontal as you can, performing this last movement slowly. Now slowly resume the hand-class, and, keeping the bands in this position, return gradually to a standing position. Three of these exercises are enough for the beginner, and in Jupan the veteran of Jin-Jitsu rarely performs more than ten of them. -St Nie Polas.

DOCTOR DID IT.

Put on 36 1bs. by Food. Feed a physician back to health and he gains an experience that he can use to benefit others. For this reason Grape-Nuts food is daily recommended to patients by hundreds of physicians who have cured themselves of stomack trouble. One doctor says:

"Aithough a physician and trying to aid and assist my fellow beings to enjoy good health it must be admitted 1 formerly did not enjoy the best of health myself. In January, 1809. I only weighed 119 pounds. At this time I was living in the Ohio valley and began to think I had about seen my best days. One day about 3 years age I had an opportunity to try Grape Nuts food for my breakfast. I liked if so well that I ate three teaspoonfuls three times a day and have regularly used it up to the present time, and I now weigh 155, a gain of 36 pounds, and enjoy the best of health.

"Not only has Grape Nuts made this wonderful change in me, but through it I have 'wiped my friends, relatives and patient ) The sustaining power of this food is Amply wonderful.

"I have one patient who is a section hand on the C. & O. R. R., who eats sothing in the morning but four table spoonfuls of Grape-Nuts and yet does his very hard work up to lunch time and enjoys the best of health and strength.

"I could name a great many cases like this and I still prescribe Grape Nuts in my practice every day." Name given by Postum Co., Battle Creek Mich.

Ask any physician about the scien tife principles on which Grape-Nuts feed is made. He'll tell you the princiles are perfect.

Then a 10 days' trial proves that th les are carried out in the fe ("all the good of the grains so treats that anyone can digest it all"). Shown in renewed physical strength and brain
