On Friday of last week D. W. Hamaker and Harry Huggins killed twenty gray wolves seven miles southeast of Glen. There were two dens, one containing eight pups and one containing eleven and a grown wolf. There is a local bounty of \$10 each on pups and \$30 on grown wolves.—Crawford Bulletin.

One of the most serious accidents that has happened to the American navy since the blowing up of the Maine, occurred last Thursday on the battleship Missouri during target practice a short distance from the naval station Pensacola, when a turret twelve inch gun exploded, killing five officers and twenty-nine seamen.

James Wilson has sold his ranch to M. J. O'Connell. Consideration \$900. It now becomes a part of the Knott ranch near Gilest. Mr. Wilson is one of the early settlers of this county and we dislike to see him dispose of his land for that means we are likely to lose a good citizen, but we hope he may conclude to stay with us.

Harry Daugherty was in the city yesterday.

Kinkaid gets his bill through the house providing allotments of 240 acres. This takes thirty eight counties except such land as may be reasonable practicable to irrigate, but owing to the short space of time between now and adjournment it is not likely the measure will receive final action until next winter. Sioux county has 86252 acres sandy and rough timber.

We learn that Herman Konrath of Montrose was buried yesterday in the Montrose cemetery. From what we can learn Mr. Konrath has not been in good health for some time, and went east to consult a physician, but it seems that he was past medical aid and started for his home and died in his own door yard before he could get out of his buggy. Mr. Konrath was an honored citizen of the county being one of the early settlers, he leaves many friends to mourn his loss. The PRESS-JOURNAL extends sympathies to his bereaved family and relatives.

Dr. L. C. Davis gave a lecture, on the anatomy of the eye, to the High School scholars last Friday afternoon. He will give another next Friday afternoon and will probably give several if the scholars are interested and wish to learn of their eyes. The eye is a very important organ of the body and Dr. Davis will help the scholars wonderfully if they will only be interested and follow his explanations. He has a human skull and can show them just how the eye is located therein.

The many friends of Mrs. Emma L. Rice will be pleased to know that the Ladies Missionary Board of this state have called her to take up the work of that organization throughout this state. We hope she will accept the offer for we know of no one that is more interested and capable than she is. We have known her for a number of years and can vouch for her faithfulness in the christian work and will look forward with pleasure to her coming back to the people that she has once served, to take up the Master's work again.

Howard and Mont Burke left Tuesday evening for California, where, if pleased with the country they expect to remain. For over two years Howard has been general manager on the PRESS-JOURNAL and during that time he has made a host of friends. His reason for resigning this position was on account of his eyes, which, for the past few months have been failing. A large crowd of their friends gathered at the depot to bid them good bye and wish them success in the future. The boys will be greatly missed here, as they were pleasant and sociable to all and it is all friends and no enemies that they leave in Sioux county.
