C. B. HOLLINGSWORTH.

Good weather the past week for grass and crops.

The school children intend to enjoy a picnic in the canyons tomorrow.

Call in and get our prices on job work. You will receive prompt attention and satisfaction.

We understand that Mrs. Converse and her two daughters expect to move to Douglas in the near future. They have many friends here that will regret their departure.

Cigarette smoking is invading the high schools to an alarming extent in this state. Educators are aware that cigarette fiends do not make the favorable progress of those not addicted to the habit. The game warden is raising particular hell in this state trying to save grouse and quail, but it seems that the W. C. T. U. is about all who are left that are trying to save the boys from the cigarette degradation. Are the law makers and people of this great state willing to sit down and let about half of the boys be stunted in sucking poison via of the cigarette.—Gordon Journal.

We are sorry that some of our subscribers have felt somewhat hurt by us sending them a statement. We are sure we had to send out these statements about as bad as the ones that have received them, but we feel sure if some of our delinquents could see our statements from the people we get our ready prints from, they might feel that they were not treated so bad after all. We must pay our bills every 30 days or go out of business; while we carry people on our books from one to six years; although some of our patrons don't like it when we allow their accounts to run so long without sending them a bill, so there you are. The poor printer gets it both ways.

Glen Zerbe, who has been visiting his parents for a few days, left Monday for the Philippines. He goes there to teach the young Philippino, and is paid \$1000 a year for his services by Uncle Sam. This is quite a recognition for Glen and to make it more welcome by him and his many friends is the fact that by his own perseverance and studious habits, has gained him this recognition. Some have a pull but what we like to see is every young man fully recognized for being and making men out of themselves. We said some time ago that with the interest that Glen had showed in educational work that he would yet rank with the leading educators of our Nation, and we are sure that this trip will be of lasting benefit to him and will teach him a lesson that cannot be gotten from books. There is a lesson here for our young men that think there is nothing in an education and being a clean young man. Cigarette smokers and broncho busters never reach a very lofty pinnacle but they get just what they aim at. Sioux county can well feel proud of two of her young men, Glen Zerbe and Emery Zimmerman, and we wish we had more of such, for we would then have less use for our prisons and lunatic asylums. Success to these young men and to all others that are trying to make something out of themselves. Mr. Zerbe will remain in the Philippines for the next two years.

Expert Parrot Cyclist.

In Berlin a parrot cyclist is drawing great crowds of admirers. The bird conducts itself like an experienced rider, working with its feet the pedals of a diminutive machine whose grooved tire runs along a tight-rope. With its beak it manages the handle bar. It carries along another parrot hanging on a trapeze beneath, and thus maintains perfect equilibrium.

From the Files of The Journal
Fourteen Years Ago.

An addition is being built on the rear of the Harrison House, the increasing business in the hotel line makes more room necessary.

J. H. Cook is expected home on Saturday, accompanied by Mrs. Cook, who has been quite sick for some time.

Laedford Rohwer, of the Harrison House, has been suffering with rheumatism for the past week.

T. O. Williams and family visited their farm in the valley the first of the week.

Atchison Globe Sights.

There is a man in Atchison who still "backs" his letters.

No woman over sixteen ought to try to "move" her relatives by tears.

To be absolutely loyal, a wife should hate those her husband dislikes.

No wonder women don't go on sprees. Their heads begin to ache when they get ready to go to a church picnic.

How we all dislike the child that has its own way, and is impudent! All of us need a great deal of training.

A WONDERFUL INVENTION.

It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to benefit the people and meet popular conditions, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, 99. These wonderful Combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days' time. Thousands of these electric combs have been sold in various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich selling these combs. They positively sell on sight. Send for sample. Men's size 35c, ladies' 50c—(half price while we are introducing them.) The Dr. White Electric Comb Co., Decatur, Ill.
