### THE NEW HOMESTEAD LAW

provides: (a) That the homestead right shall embrace 640 acres of land; (b) that those who had taken a homestead may take another to complete said area; (c) that those now holding and residing upon a homestead have first right to their share of vacant land joining.

Geo. Grimm moved his family last week to the upper 33 where he will reside and look after the interests of Brewster and Co. for the next year. We did our first days work in Nebraska on this old ranch over 18 years ago when women were a scarce article in that part of the country, but things have changed since then. We remember one day of Otto Tietze coming to the ranch with a young lady and the young men were peeping around the corners of the buildings as if they had never seen a woman before.

But these young men are all benevolent now, even Otto, that the boys seemed so envious of.

We would like to say to our school board in selecting our teachers for the next year, why not consider our home talent. We have advocated our people patronizing home industries, &c. and we think it just as reasonable to recognize our home girls and boys where they labor for an education, and are as competent in every way as teachers that are imported and we know what they are.

It would seem unreasonable to our school board were one of our own home graduates without any experience to apply for a position in our school, but strange to say we have had strangers that have had no experience teach in our school, and why not treat our own as you would strangers. Recommendations don't count for anything these days for anything can get a recommendation as our board full well knows from past experience, and why not help sons of our own teachers get started in ungraded schools as well as strangers. What say you to this, gentlemen?

### A WONDERFUL INVENTION.

It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to benefit the people and meet popular conditions, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, 1900. These wonderful combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days' time. Thousands of these electric combs have been sold in various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich selling these combs. They positively sell on sight. Send for sample. Men's size 35c. ladies' 50c. (half price while we are introducing them.) The Dr. White Electric Comb Co., Decatur, Ill.

### THE TENTH GRADE COMMENCEMENT.

The exercises of the Tenth Grade which was held at the M. E. Church last Friday night eclipsed anything that has ever taken place in Harrison. By 8 o'clock there was not a vacant chair in the church. The program was carried out except the open air concert which had to be left out on account of the heavy rain at that time. We were all somewhat disappointed for we were anxious to hear the band boys give their first concert to the public. At 8:15 the class marched into the church while the orchestra played an overture after which prayer was offered by J. B. Burke. After a song by the choir, Miss Virginia C. Parsons rendered the Salutatory, "Life is Real," and we must say she acquitted herself with credit. "Class Prophesy" by Miss Gertrude Converse was well rendered and we hope that her many prophesies may come true. The Class address, "Hammer and Nails," given by Rev. J. H. Andres of Chadron, was a masterful talk, and was highly appreciated by all. Mr. Andres spoke for one hour and fifteen minutes and many said they could have listened to him all night. If the class will only remember one half the good things that he said and will put them into practice they will be much benefited. We have heard Mr. Andres speak several times, and we are glad to say that there was no disappointment, and those that missed hearing the address missed the best lecture that has ever been given in Harrison. We feel sure that the class made a lucky hit when they got the services of this gentleman, and should he ever come to Harrison again he will be greeted by a full house.

Archie Davis gave the Valedictory, "Napoleon." Rev. V. C. Daniels, after a few well chosen remarks presented the Diplomas to the class after which the Flower Fairies; Lucy Gerlach, Helen Clarke, Edna Davis and Olive Morris presented the glass with beautiful flowers.

Principal Morris with a few very appropriate remarks presented Otto Pape with a scholarship certificate, he standing the highest in the class. This young man deserves a great deal of credit for his manly bearing and studious habits since he has been among us. Some years ago God saw best to call this young man's mother from this world leaving him without a home, and the dearest friend a young man can have, a mother. But while these have been taken from him, he by his manliness has had a home given him by A. McGinley who has given him the advantages of our school for the past three years, and Mr. Morris, his teacher, in presenting him with his scholarship, said that he had never given him one moments worry, and that his attitude toward him as a pupil was always manly and obedient. May he, when his life's work is ended here, be such that when the great record above is read it may be the same as given by his teacher as on the night of his graduation.

Archie Davis stood next in his class and he has by his earnest efforts and devotion to his work, brought him the honors that were bestowed upon him on this eventful evening and we hope that he may ever remember the many sacrifices that have been made by those interested in him, that he might attain the honor that was bestowed upon him by his teacher, and the class by choosing him as Valedictorian.

Misses Virginia C. Parsons, Edna Rohrer and Elsa Rohwer have been reared in Sioux county and are estimable young ladies, and have by their earnest efforts and lady like manners won the honors bestowed upon them Friday night by their teachers, classmates and school board, and we hope that the lives of these young ladies may be brightened from day to day by the remembrance of this epoch of their life.

Miss Gertrude Converse came to Harrison about two years ago and by her diligent and careful work, she earned the honors bestowed and as she goes out from this school we hope that the many excellent things that she has learned may be used to make the world brighter and better. We wish the class as did their many friends on the eveing of their graduation. Success, and may their lives be spent in helping others for there has been many a sacrifice made by father and mother that these children could be what they are today.

The singing was very good considering that two voices, that of Mrs. Wilberndorfer and Mrs. V. C. Daniels were on account of sickness unable to present.

We will look forward to next year for such another memorable event hoping that there may be as many or more to receive the honors for their many years work, for we know the patrons appreciated the exercises of the evening as well as the honors bestowed upon these young people, and there were many visitors from the country present notwithstanding the down pour of rain at the hour the exercises began.
