

### Rear Admiral Hichborn Recommends Pe-ru-ni

Philip Hichborn, Rear Admiral United States Navy, writes from Washington, D. C., as follows:

"After the use of Peruna for a short period, I can now cheerfully recommend your valuable remedy to any one who is in need of an invigorating tonic."—Philip Hichborn.

No remedy ever yet devised has received such unstinted eulogy from so many renowned statesmen and military men as Peruna.

Our army and navy are the natural protectors of our country. Peruna is the natural protector of the army and navy in the vicissitudes of climate and exposure.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

### FLORAL NOTES

Petunias will do well in the house if rooted from strong cuttings made now.

Chrysanthemums which have been bedded out may be potted and given an occasional dose of liquid manure.

The hollyhock is a stately beauty and seeds sown this month or next will make plants which will blossom next summer.

A conical collection of ables was lately seen at a fair in San Francisco. They were all Chinese infants, and the males had their heads shaved, and the females had their hair ornamented with fringes of beads and paper flowers. The drab expressions on the faces of the simonayed cherubs would make even a sick man laugh.

When the fowls get too fat an exclusive feed of oats will reduce them.

### MISSOURI TRUST COMPANY

The annual report of the Western Union Telegraph Co. shows \$9,000,000 messages transmitted, \$29,000,000 earned; net revenue, \$8,000,000, and a surplus of \$13,000,000.

### MEXICAN Mustang Liniment

cures Cuts, Burns, Bruises.

In Russia altogether there are about 85,000 elementary schools, the total cost of their maintenance being 59,000,000 rubles, or about \$27,000,000.

Highly scented soaps are often in vogue, as the scent is added to conceal racial ingredients.

Plato's Cure for Consumption always gives immediate relief in all throat troubles.—F. B. Bierman, Leipsic, Ohio, Aug. 31, 1901.

A glass of warm or hot milk taken just before or immediately after arising will prove a flesh producer.

Ripans Tablets are the best dyspepsia medicine ever made. A hundred millions of them have been sold in the United States in a single year. Constipation, heartburn, sick headache, dizziness, bad breath, sore throat and every ailment arising from a disordered stomach is relieved by Ripans Tablets. One will generally give relief within twenty minutes. The free copy will be sent to you on receipt of a stamped envelope and return postage.

Agriculture is comparatively easy work in China. The soil is so rich that a square mile of it is capable of supporting a population of 4,000.

Liberal-minded women can't keep secrets.

Thompson's Eye Water

### USES FOR OLD PAPER.

Some is Made Over—Utilized by the Different Trades.

"New uses for old paper are being found almost daily by the different trades and by people who have a little ingenious turn of mind," said a local junk dealer in the Washington Star. "You don't see much waste paper thrown away nowadays and when you consider the great amount that is daily accumulating it seems remarkable. The newspapers are reading off tons of paper every day. All this great quantity of paper must be destroyed or used. There are eager scavengers of the city after every stray paper and bundle of wrapping paper. If it were not so the street-cleaning department would have to organize a special corps of men just to collect newspapers and burn them."

"Most of the newspapers are gathered up and converted into marketable paper again and some go in with the rags to make various kinds of commercial material; but outside of these two lines of industry the paper is made into different useful articles of a wonderful nature. The newspapers are made of the spruce pulp, and by a steaming process they can be converted into a smaller pulp again. This pulp is not so good as in the first instance and so one has yet found a way to make it possible to use it over again for newspaper work. However, it is chewed and steamed up and is used for many other purposes. Wood pulp, needles, lead pencil holders, paper weights and ash receivers are manufactured from this waste paper."

"Of course, there are experienced workers in waste paper and some of them are working on problems which appear very easy of solution, but which in reality are most difficult. For instance, what seems easier than to use the paper over again for printing? Why not boil and steam your waste paper and roll it through machinery into new sheets for the daily press? Nothing appears at first sight easier, but there is nothing that seems to give back to the paper the life which the process of printing takes from it. It is dead paper. It lacks vitality, strength, finish, and it is mixed with inks and chemicals. If any man can rejuvenate the paper and make it fit for the process over and over again he will make a fortune and revolutionize the printing business. What a boon it would be to the newspaper to run its waste paper back again and buy in old copies of the early editions for use in the Sunday edition! Yet I firmly believe that some day we will come to that. Then the price of news paper will go down. No paper company can control the market of spruce trees then to force up the price of cheap-grade paper. It will be a benefit to the publishers and the reading public as well. To-day papers are printed and sold at a penny a copy simply because papermaking has cheapened the process to such a wonderful extent, but we have not yet reached the limit. There are more improvements ahead which the present generation has far from anticipated."

Russia is represented at the World's Fair by a kossak in the Palace of Transportation, where tea is served to visitors. It was built near Moscow.

A swimming glove made of rubber, has been invented by a German, instead of keeping the fingers closed when giving the stroke away from the head, the swimmer will spread them out, and the interlocking web will aid him in making a more powerful stroke.

There are 227 lead pencil factories in Germany, which employ 2,813 persons and export each year 1,614 tons of pencils, worth \$2,000,000.

An eight inch oil pipe line from the Bakersfield region to San Francisco was to be heated at intervals so that the oil will flow.

Last year the British mercantile marine sustained, 183 casualties, of which 348 were complete wrecks. The loss of life was 6,318.

A unique exhibit at the World's Fair is a locomotive 15 feet long made entirely of glass tube of different sizes. It is a tenwheeler and is perfect in every detail.

It is the bight of wisdom to discover that we are fools, and it is the satisfaction or wisdom to discover that there are some who are bigger fools than we are.

You can inherit property and disinherit from your ancestors, young man, but you can't inherit either brains or virtue.

Every body thinks that he is of vital importance in this world, and this is a happy thought for him, for nobody else thinks so.

A brilliant blunder is often worth more to a man than a merely respecting hit.

"The perfumery business never was better," said the perfume dealer the other day. "I sell more perfume than I ever did before, and I think my heavy sales are due in a large part to the automobile craze."

"You know the odor emanating from those gasoline autos are not pleasant. Lovely woman does her best to overcome it by using lots of perfume. Just take notice the next time an auto whizzes by you and see if you don't get a good, strong whiff of perfums with the gasoline if there is a smartly attired woman in the machine."

"Women may be going in for athletics more than ever, but they are going in for perfumes, too, and the most expensive kind."

"It would surprise you, though, to know how many men have the perfumery habit as well. I think the few fancy silk handkerchiefs may have something to do with that."

French Thrift.

The people of France, both young and old, have always been noted for their capacity to make a little go a good way, whether in the matter of food, or raiment, or their equivalent money. Indeed, it has been claimed, without dispute, that a French family could readily live upon what the average American family throws away.

In the matter of savings, French children are early instructed. They are taught the economic necessity of laying up money for the almost inevitable "rainy day" of the future. The teachers in the public schools are made the transient depositaries of the pupils' funds—from a cent upward, and the savings banks agents gather in the aggregates monthly for permanent care. The total of these small savings of the children make an imposing figure yearly.

 NEW YORK.

At 60 months old  
**35 DROPS — 35 CENTS**

EXACT COPY OF WRAPPER.

WHERE SHE ISN'T  
 Mrs. Oldstyle—"Is Mrs. Newgate at home?"

Servant—"Mrs. Newgate is an uneducated woman, ma'am. She is never at home."

When a couple of women go to a restaurant together they always see how much it is going to cost before they order anything; but when they go with a man they don't appear to notice that the prices are on the bill of fare.

THE DOCTOR PRESCRIBES  
 Jimson—"Doctor, I am getting too stout for comfort, and I want your advice."

Doctor—"Nothing reduces flesh like worry. Spend two hours a day thinking of the unpaid bill you owe me."

WANTED NO EXTREMES  
 Daughter—"Papa, I wish you wouldn't look so fierce when young men call to see me. It frightens them."

Father—"How shall I look—meek?"

Daughter—"Um—not to meek; that might scare them off, too."

An unfortunate husband in Ohio, whose wife occasionally forgets womanly dignity, and gets fuddled sent the following advertisement to other paper of his town: "I hereby give notice to my friends, and not my friends, that my wife ran away and stole money from the house last Thursday. If she don't return in twenty-four hours I call us parted."

### Around the World

"I have seen your Fish Baiting Machine for years at the Hawaiian Islands and found them the only article that would, I am now in this country (Africa) and think a great deal of you."

A bully is a fellow who allows measures his courage but the other fellow's timidity.

### MISSOURI TRUST COMPANY

Capital \$1,000,000. St. Louis, Mo., May 28, 1902.

This notice is given that the World's Fair Contest Company, Incorporated, has this day deposited with this company \$10,000,000 in gold, for the purpose of the same, to be in control on the total paid amount of the same, and that said deposit is to be paid to the prize winners as they are ascertained by the committee on awards as they are made.

Remember you are to estimate the number of people who will pay admission to a group during the entire Fair. The one who estimates the fewest people who will pay admission to a group during the entire Fair will win the grand prize of \$100,000.00. To win this grand prize you must estimate the number of people who will pay admission to a group during the entire Fair.

### DUMPS HAS A THEORY

Mrs. Dumpps—"The paper says the female members of the Colorado Legislature are to sit with their hats off. I wonder why that is?"

Mr. Dumpps—"I presume it is because there is nothing in a legislature for those behind to see."

VERY HOME LIKE  
 Mrs. Quiverful—"Was that place where you boarded during my absence at all homelike?"

Mr. Q—"Very. The children made so much noise I couldn't hear myself think."

Sure Cure at Last.  
 Monticello, Miss., Oct. 3.—(Special.)—Lawrence County is almost daily in receipt of fresh evidence that a sure cure for all Kidney Troubles has at last been found, and that cure is DODD'S KIDNEY PILLS.

Among those who have reason to bless the Great American Kidney Remedy is Mrs. L. K. Baggott of this place. Mrs. Baggott had Dropsy, DODD'S KIDNEY PILLS cured her.

"I was troubled with my kidneys," Mrs. Baggott says in recommending DODD'S KIDNEY PILLS to her friends, "my urine would hardly pass. The doctors said I had Dropsy. I have taken DODD'S KIDNEY PILLS as directed and am now a well woman."

DODD'S KIDNEY PILLS cure the kidneys. Cured Kidneys strain all the impurities out of the blood. That means pure blood and a sound, energetic body. DODD'S KIDNEY PILLS are the greatest tonic the world has ever known.

A wag is a kind of second rate droolier, who deals in kassoff jokes; he is on the level of the clown, and only one remove above the loafer.

A dogmatist is one who believes too much, while a skeptic is one who doesn't believe enough.

There is nothing that we love to talk so much about as ourselves, and nothing that others love so little to listen to.

CUCUMBER STICKS  
 Pare some chilled cucumbers and cut them their full length into sticks about as thick as a pencil. Serve them on a dish of chipped ice. The cucumber sticks are to be eaten with salt as celery is.

The afternoon nap is beneficial to those who would gain flesh.

In Italy, thirty persons out of ten thousand die by the assassin's knife. About four-fifths of the male population carry stilettos.

### METROPOLITAN METHODS.

Mr. Cutter had spent a week in the city, and he came home with much food for thought. For a long time afterward he had periods of meditation from which he would arouse himself to enlighten Mrs. Cutter, who had not shared his visit.

"One of the most curious things is about the way the storekeepers down below make their money on specialties," he said one day, after a long period of silence. "Now they poke fun at a country store that has everything in it, but tell me, how do they manage things?"

Mrs. Cutter knew better than to attempt an answer where none was desired, so she smiled and looked intelligent.

"Well, I'll tell ye," said the returned traveler. "A man keeps a picture-shop, sounds well and looks well, but it's liable to dull seasons; so he gets his wife's sister-in-law or an orphan cousin or some such to fat a few of these tarrar strips for the neck, and string a number of colored beads into chains, and he puts 'em in one corner of the window with a card saying orders must be given five weeks in advance, and then his business begins to look up."

"If he keeps a cutlery shop he sells a few hats from Manly that come through a friend, and are high, as they are scarce. If his business is stationary he has a counter of hand-sewed pocketies and pinquishins; if his trade is supposed to be selling embroidered pillows and tablecloths, he has a counter of German silver goods; if his sign says 'jewelry and crockery,' you will find a little glass case that'll have painted boxes of chocolate and peanut candy in it; and if he gives out that he's selling drugs, you'll find the drawing card in his establishment is bed-dippers and head-purses. Don't talk o me 'bout specialties! I've seen 'em and I know!"—Youth's Companion.

VOICE STRANGE TO OWNER.  
 That a man does not hear his own voice as all the rest of the world hears it is shown by an interesting experiment described by Dr. L. Laloy in La Nature, of Paris. Says this writer:

"If a person records on a phonograph a few sentences pronounced by himself, together with others by his friends, and causes the machine to reproduce these at the end of a brief period, it generally happens that he easily recognizes his friends' voices, but not his own. On the other hand, the friends recognize his voice perfectly. This singular fact proves that everyone hears his own voice differently from others."

"As is remarked by Prof. Exner, the difference must lie in the quality of the tone. It must be remembered that one hears his own voice not only through the air, as do his auditors, but across the solid parts situated between the organs of speech and those of hearing. The sound thus produced has a different timbre from that conducted to the ear by the air alone."

"We may show this as follows: Take the end of a wooden rod between the teeth and pronounce a vowel continuously. Let the other end be alternately taken between the teeth and released by another person, who at the same time stops his ears. The latter will find that every time he seizes the rod in his teeth the sound becomes stronger than when it reaches his ear through air alone, and has a different quality. The experiment may be varied by applying a wooden rod to the larynx of the person observed and touching it from time to time to the observer's own larynx. As in the preceding case, it will be found that its passage through a solid body augments the intensity of the sound and modifies its quality."—Literary Digest.

As a Deodorizer.  
 "The perfumery business never was better," said the perfume dealer the other day. "I sell more perfume than I ever did before, and I think my heavy sales are due in a large part to the automobile craze."

"You know the odor emanating from those gasoline autos are not pleasant. Lovely woman does her best to overcome it by using lots of perfume. Just take notice the next time an auto whizzes by you and see if you don't get a good, strong whiff of perfums with the gasoline if there is a smartly attired woman in the machine."
