Miss Barbara Stradal left for Wilburn, Ill. Monday night, where she expects to spend the winter. She ordered the PRESS JOURNAL before leaving, so she will keep posted on what is happening in Sioux Co. while away.

We are in receipt of a letter from Geo. O'Keefe of Livingston St. New York city where he made the Editor and Miss devil glad. George sent for a Sioux County map as he expects to return to the wild and woolly west next spring.

County clerk Postles had a narrow escape the other night. As he was going to the court house with a handful of ballots some miscreant had placed a wire across the side walk and all that saved him from a fall was that he was going slow. Some one will get hurt and then some lady will be sorry.

We acknowledge a fraternal call from Tom O'Keefe, Editor of the Alliance Herald.

If the republicans of Sioux County are not enlightened on the many mean things the democrats have ever done it won't be because there has been a scarcity of papers circulars and etc, scattered around and put into your hands.

Robert Graham candidate for the Legislature was in town last Monday and went from here to Montross. We predict for Mr. Graham a good vote in Sioux county, and all that believe in an efficient man to represent them should vote for him.

NOTICE.
The Board of County Commissioners of Sioux county are hereby called to meet in special session, in the office of the County Clerk at Harrison Nebraska on Thursday November 17th-1904 for the purpose of acting upon Election and Road Claims, also and other business that may regularly come before the Board.
E. F. PORTIS, County clerk.

Some say that Coffee has money enough therefore they want vote for him. This is just the man we want for he can get rid of some of his money, for the salary of state senator wont begin to pay his expenses, but some people think that all public officers have great big fat salaries but in our experience it has been more work than salary, stand by C. F. Coffee and he will stand by you.

County Commissioner Dan Jordan returned from his eastern trip last Saturday. He is almost the same as one returning from the dead considering the narrow escape he had at the time Mr. Jandt was killed. We hope Dan will stay more close to home in the future for he is too good a citizen to be taking such chances. Glad to welcome you Dan.

Frank Currie was in town Monday and dropped in our sanctum, Frank is a pretty good fellow but we have a better man in Robert Graham and as his election is sure our heart goes out to poor Frank for we feel that he did his best and as that was found wanting we will give him more time to look after his private affairs and see that those pesky prairie dogs die.

There are some boys around town a d immediate vicinity that a little more parental discipline would tend to make better citizens out of them, and we think when boys 14 or 15 years are staggering around and lying dead drunk it were time the proper authorities were running them in and hold them until they tell where they got their whisky.

We have been asked if we knew what this constitutional amendment was that is to be voted on at the next election, we frankly said no but we do know that the dear people have to pay dearly for its publication. It is the game you scratch my back and I will scratch yours.

Teacher—What! Fighting again Tommy?
Tommy—Johnny Jones started it.
Teacher—But you know the Good Book says if an enemy smites you on one cheek you should turn the other?
Tommy—Yes, ma'ma; but he belted me on the nose, and I ain't got but one, so I had to pitch in and lick him.—Chicago News.

Some boys in this town are going to get into serious trouble if they don't mend their ways. Their seems to be a general gathering of these smart slicks at the train every evening, and each one tries to be the center of the annoyance of the passengers who have the right to the train they are riding on, and that without the annoyance of a lot of boys who had better be at home doing something that will tend to make good citizens out of them. If the rail road officials dont mft this master, they may count them elves lucky. Look out boys its a long haul that has to turn.

The wily Judge Kinkaid was doing the hand shaking act last week and telling us what a great future there was for Nebraska. The late bill he engineered through in our estimation would help him much among the old settlers and the new ones will swear at him when it is too late for duping them with such a bill, for no man can make a living on 640 acres of the land that was open for settlement.

We learn that some of our young bloods came very near the doors of our city last Monday night. We are glad that our city marshal is alert to the saving of property, but if we have been rightly informed some adults as well as girls were very prominent actors in the halloween sports, and we say that age should cut no figure, nor even peccotats for where they join in such sports they may expect to get their skirts besmirched. Pull all violators of the law Mr. Marshall and we are with you, office devil and all.
