NOTICE.

E. F. PORTER, *
County Clerk.

On a visit to Bodarc last Sunday we found every thing going along nicely. The Sabbath school under the superintendency of Mrs. Minnie Miller going nicely and with good interest. A large number of people were present and the singing was excellent. We found fathers and mothers with their whole families there and such examples and influences is bound to count in the making up of the multitudes of people that inhabit our land. May the good work go on and your children will rise up some day and call you Blessed.

We see from the Mitchell Index that the principal of the school at that place has been arrested for punishing a child with the rod. Sometimes if the rod or some kind of moral persuasion was used in the home the teachers would not have to resort to such measures to control their pupils. Solomon said spare the rod and spoil the child; and the world has never known a wiser man than him. But for all this the rod is spared too often, and it is either use it in the school room at times or turn the child out and let him or her go without an education.

We received a request from some one in Omaha last Friday, to use some of our valuable space to notify the voter that in voting a straight ticket they must make their X in the square opposite the Constitutional Amendment, either for or against, or it would not be counted. The poor fellow must have made some mistake, or else had his gall, for we don't care a snap whether it carries or not. We were passed by when the contract was let for the publication of this seemingly important amendment, and why not let the ones that got the make off furnish the free space, or fully enlighten the voter as to what his duty is?

We have been busy this week with the ballots, which are the most out-rageous shape of anything we have seen. If parties continue to multiply, it will not be long before the ballots will be 3 yards long. The present ballot law ought to be amended to permit of a more handy sheet going into the hands of the voters. Rushville Recorder.

We say so too Bro. Cooper and while they are changing it just cut out the straight party ticket at the top. Any man that can't make an X opposite the name of the candidate that he wants to vote for is not intelligent enough to vote. The Australian Ballot system lost all its superiority when this political scheme was tacked on at the head of it.

We have looked with disgust for some time on the privies of our town school and we think it is about time that some thing decent were being built, and pay somebody to look after them and see that they are kept clean and decent. Children should be taught that water closets should be treated with the same care for the purpose they were built, for as the school room, or even the parlor in their homes. Such filthy places have a tendency to pull down the morals of our children, and the writing on the walls would bring a blush to the face of any one that has any shame or respect about them; so we say as a patron and taxpayer, let us have decent buildings, not a little cigar box building, but the same as you would erect for your own family and let every parent encourage their children to have respect for the same.

We understand that a certain man drove into town one day last week, and unhooked his team and tied them to his wagon, and not only left them there during the whole day without food and water but they were left there all night. Are we living in a civilized country, or are we beyond the pale of civilization? When men become so greedy, or so heartless to dumb animals, we think it time for the public to take it into their own hands and organize for the protection of them. We would suggest that everyone make it his business to report all such cases to the city marshal, and let him see that all stock must and will be cared for on our streets. Silence is all right, but when something is suffering that can't help itself then silence ceases to be a virtue. This town has a good livery barn and there is no need of such inhuman treatment, and we may not refrain from giving names of such heartless men in the future.

Mr. E. Catlin, a friend of Miss Warner, of Hot Springs, came up on the morning passenger Thursday. He visited the school, and his visit was very appreciated very much by the pupils, (to say nothing of the teacher.) He spoke very lightly of the pupils studying; he said he never visited a cussier school—Good for Andrews school. We hope he will come again soon. Pupils work good where they love their teacher. U. Political Equality.

Who makes the drunkard? The saloon.
Who makes the saloon? The law.
Who makes the law? The legislature.
Who makes the legislature? The voters.
The saloon keeper is as good as his business; his business is as good as the law that sanctions it; the law is as good as the legislature that passes it; and the legislature is as good as the voter who made it.
Our country never sinks below its homes and never rises above them.
