

Happy Woman.
Mrs. Pare, wife of C. B. Pare, a prominent real estate agent of Chicago, Wis., says: "I was suffering from a complication of kidney troubles. Besides a bad back I had a great deal of trouble with the secretions, which were exceedingly variable, sometimes excessive and at other times scanty. The color was high and passages were accompanied with a scalding sensation. Doan's Kidney Pills soon regulated the kidney secretions, making their color normal and banished the inflammation which caused the scalding sensation. I can rest well, my back is strong and sound and I feel much better in every way."

Cataract Cannot Be Cured
2nd LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Cataract is a blood or constitutional disease, and no amount of eye medicine can cure it. The only safe and reliable method is the use of the best physicians in this country for years, and is a regular prescription. It is one of the best blood purifiers, acting directly on the internal organs. The perfect combination of the two ingredients is what produces such wonderful results in curing cataracts. Horses are so plentiful in Buenos Ayres that even the beggars beg on horseback. Mexico has little trouble in finding soldiers. They are recruited from the prisons. The dissolution of human bodies by medical students has been practiced since B. C. 329.

MAKE YOUR SON INDUSTRIAL
Fathers, bring up your sons to be industrious—to love labor. It is essential for a young man to learn a trade, even though he does not intend to obtain a livelihood by it. He will then have something on which to fall back in case of need. Should misfortune, in the years to come, assail him, he will have something upon which to rely—the skill which will enable him to earn a living. Boys who are allowed to idle their time make the drabness men we so often see, who hate next to absolute starvation everything that bears the name of work, and never accomplish anything, either for themselves or for the world. "Train up a child in the way he should go and when he is old, he will not depart from it."

What the Baby Needed.
I suffered from nervousness and headache until one day about a year ago it suddenly occurred to me what a great coffee drinker I was and I thought may be this might have something to do with my trouble, so I shifted to tea for a while, but was not better. If any thing worse.
"At that time I had a baby four months old that we had to feed on the bottle, until an old lady friend told me to try Postum Food Coffee. Three months ago I commenced using Postum, leaving off the tea and coffee and not only have my headaches and nervous troubles entirely disappeared but since then I have been giving plenty of nurse for my baby and have a large, healthy child now.
"I have no desire to drink anything but Postum and know it has benefited my children, and I hope all who have children will try Postum and find out for themselves what a really wonderful food drink it is." Name given Postum Co., Battle Creek, Mich.
Both tea and coffee contain quantities of a poisonous drug called caffeine that directly affects the brain, kidneys, stomach and nerves. Postum is made from cereals only, scientifically blended to get the coffee flavor. Ten days' trial of Postum in place of tea or coffee will show a health worth more than a gold mine. There is no reason.

General M. Turley, a Lincoln clerk, asks for a divorce from his wife in the ground that her social ambitions are beyond the limit of his income. He claims that his wife admitted that "she married the wrong man."
W. C. Catherwood, an old man who lives alone at Blair, was found helpless in his home by neighbors. It is supposed that he suffered a paralytic stroke. His condition is very serious and it is thought he will die.
Charley Smolinski caught a mammoth turtle in McPherson's lake, near Columbus. It weighs about fifty pounds. He killed the animal and carried it home. On the back of the turtle was the inscription: "W. F. M., 1871"

The local telephone company of Humboldt has completed the work of cutting in a large cable to assist in carrying for the largely increased business during the last few months. The bringing to the city of the rural exchanges adds greatly to the work of the local central and the managers are having a hard time to keep up with the demand for increased service.
Underwood Bros. who recently established a cigar factory in Beatrice employing none but union cigar makers, have notified their employees that in the future they will run an open shop. Following this announcement all the men employed in the factory, numbering seven, quit work at one. Underwood Bros. own a cigar factory at Dixon, Ill., and it is understood that they propose to adopt the same method at that place. The birthday celebration and distribution given by the Women's Relief fund of Beatrice was one of the most enjoyable affairs of the kind held by the corps for a long time. Many members of the Grand Army post and relief corps of Wymore being in attendance. Dinner was served in the hall and the afternoon was spent in recalling memories of the past and renewing old acquaintances. The occasion was given in honor of the veterans whose birthdays come during the last six months of the year and about twenty-five were honored and were in attendance at the meeting.
George Knobel of Seward who was so seriously injured by the explosion of a gasoline heating furnace for heating soldering iron, will arrive, although he will carry the scars to his grave. The man was engaged in building a new roof on an American Order of United Workers hall at the time of the explosion. Loads of potatoes are being shipped daily from Johnson county Kansas.

WAR DOGS CALLED AWAY
PRECIOUS NEAR A FIGHT, BUT ALL AGAIN SEEN.
Agreement Entered Into and Promptly Ratified—Battle Fleet in Meantime Will Be Tied Up at Vigo, Spain.
ST. PETERSBURG.—The North sea incident will be settled by an international commission. This is absolutely assured. The British proposal submitted to Russia was to refer the question to a commission under articles nine and fourteen of the Hague convention and a certain number of officers of the Russian squadron competent to give testimony were to be left behind. Russia's proposal submitted to Great Britain through Ambassador Benckendorff declares that the emperor being desirous of shedding the fullest light on the North sea incident proposes that the whole question be submitted to scrupulous investigation by an international tribunal.
Foreign Minister Lamortoff after his audience with the emperor at Tsarskoe Selo, officially informed Ambassador Harding of the character of the Russian proposal, on direct reply being given to Great Britain's proposition.
It is simply a question now of which government will have the honor of offering a solution, the principle of which both have decided upon, the outcome of this appearing unimportant. The British proposal also provided for the representation of their powers besides Russia and Great Britain on the commission.
LONDON.—The Associated press is authorized to state that a satisfactory settlement of the Anglo-Russian dispute has been reached. Several details and formalities remain to be arranged, but the proposal to refer the matter to a court of inquiry has been accepted.
LONDON.—Orders have been issued and acknowledged by Vice Admiral Rojensky that the Russian squadron remain at Vigo until the conclusion of the present Russian-British negotiations. This eliminates what was regarded here as one of the most dangerous features of the situation, namely the possibility of a premature clash between the British and Russian squadrons.
The cabinet considered the Russian proposition to submit the question of individual responsibility to a commission. The details of the constitution of this commission have not yet been quite determined upon but Russia has expressed her willingness to detach the commander of the second Pacific squadron and such other individual officers as may be found to have been directly concerned in the firing for the examination by the commission.

Pig Lead as Contraband
WASHINGTON.—The United States supreme court has been asked to decide whether pig lead is contraband of war, and the question was argued before that tribunal. The controversy arose in 1894 during the war between Japan and China and the parties to it are the Northern Pacific Railroad company and the American Trading company. The case grows out of a delay of about six weeks caused by revenue officers who refused to issue clearance papers to a vessel, with the lead on board, on the grounds that it was contraband. Delay ensued and when the lead reached its destination the war had closed. Consequently Japan, to whom the lead was consigned refused to receive the consignment at more than \$11,000 instead of \$25,000, the price first agreed on. The company asks an award of damages equal to the difference.
Rich Banker Suicide
HAVELOCK, Wis.—James F. Latimer, vice president of the Latimer bank, shot and killed himself in his bank. He was seventy-one years old and was considered to be worth about \$200,000.
Shot At A Point
DEWITT, Neb.—Two shots were fired at the night man at the B. & M. depot. By that time he had gotten his own gun in play, but the known miscreant had made his escape without receiving any injury or doing any further harm than by making the widow glass. One of the rollers struck close to the agent, the other barely grazing his arm. It is supposed that robbery was the motive.

General Attack on Port Arthur
CHEFOO.—The third general attack on Port Arthur began October 24, according to unimpeachable authority. On October 26 Japanese shells set fire to the only smokeless powder magazine in Port Arthur. Portions of the town caught fire, the conflagration continuing the whole day. October 26 the Japanese captured the Russian trenches on the slope of Rihlung mountain, also a fortified position protecting that fortress. The Japanese consider the progress of the siege to be highly satisfactory.
Hostage is Running High
TOPEKA, Kan.—Governor Bailey gave out a long report from State accountant Rowett showing additional shortages in the state treasury amounting about \$31,000 and covering school fund transactions concerning Pratt, Cowley, Nemaha and other counties. Accountant Rowett draws conclusions from his findings. He simply records the fact that certain blocks of bonds were purchased.

Shadowed by a Britisher
GIBRALTAR.—Four Russian torpedo boat destroyers passed through the straits, eastward bound, this forenoon, shadowed by a British torpedo boat. The British Mediterranean squadron has been stationed twenty miles distant. The British mobilization maneuvers at Gibraltar were brought to a close. This is regarded as indicating that no apprehension is entertained of further communication with Russia.
