Former Nebraska Woman Killed.

At Denver, Col., in jealous rage Wm. Rose, a carpenter, left his work, purchased a revolver and repaired to the home of Mrs. Phil Kuhn, on South Thirteenth street, determined to compel her to live with him or else die with him. In the presence of her adopted child, upon her refusal to go with him, Rose fired four times as she was attempting to escape from the room, three bullets taking effect in her back. Rose left the house, but his throat and arms, of people were kept picketed out like a domestic animal in an out of the way place during the day and at night kept in a stable with the calves and other live stock. It was also ascertained that he was unprovided with clothing of any kind during the summer months, but was allowed to go in a state of absolute nudity. The unfortunate boy was taken charge of by the authorities and his parents will be prosecuted.

Antelope's Alfalfa Crop.

Among the Nebraska counties which have become interested in the raising of alfalfa is Antelope. For several years more or less of it has been raised, principally in small patches and more as an experiment than as a practical food supply for stock. The results of these experiments were so favorable that the raising of it on a more extensive scale has been entered upon. Last season was a most trying one on grasses and the tame meadows of the ordinary grasses either died entirely during the summer and winter or were so badly damaged that they were of very little use for hay purposes this season. Alfalfa, on the contrary, sustained very little, if any damage, and this year has been a bountiful crop. Notable as showing the possibilities of the grass is the result obtained by Huffman & Rollins on their ranch in the Elkhorn bottoms. From land which was seeded this spring they have already cut one hay crop which averaged a ton, and there is another cutting ready which will yield fully as much more. Others whose land was seeded in previous years have already cut two crops and will get a third before the season is over.

Agent Ordered to Get Out.

Valentine dispatch: Reports from Rosebud agency are that Major Wright, United States Indian agent, together with his white employes, has been ordered from the reservation, the conditions being that they will be allowed twenty days in which to go without molestation.

It appears that Chief Crow Dog, who killed Spotted Tail in 1881, took with him a lot of young men and left the reservation in July without asking the agent's permission. On his return a few days ago Major Wright had him confined.

This incited the Indians and a council with the agent was demanded, looking to his release. The council was refused and Hollow Horn Bear, speaking for the malcontents, demanded that the agent quit the reservation.

Nebraska's Aid is Assured.

W. B. Stosson of Houston, Texas, called on Governor Holcomb in relation to the Galveston deep water project, and the governor stated in substance: "Nebraska is deeply interested in the western states conference to be held at Topeka October 1, and you can rely upon a full representation. I shall endeavor to accompany the delegation and hope that the securing of deep water at Galveston will be appropriately celebrated. It is the natural point of shipment for the products of Nebraska farmers and manufacturers. Practically half the distance from Nebraska to New York is saved, and it means more money for wheat and corn and the products of the packing houses and the mills of the state. The people of Nebraska are fully alive to this subject, and it is safe to predict that it will not be long before Nebraska products will be taken southward instead of eastward to find a market. We confidently look forward to a representation of Nebraska and Nebraska's products at the Inter-American exposition at Galveston in 1907."

Captured by the Conductor.

Hemingford dispatch: Conductor Dan Colvin, who had charge of an extra freight east bound last night, saw two suspicious looking men getting in a box car at Adelia. They proved to be the right men and were taken back to Hot Springs by the sheriff.

SPAIN'S CUBAN PLANS.

SPANISH MINISTER DE LOME TALKS ABOUT THE MATTER.

REBELS WILL BE CRUSHED.

The Government Forces Being Made Ready for a Vigorous Fall Campaign—The Insurgents Are Hard to Defeat on Account of Their Guerilla Methods—Climatic Conditions.

WASHINGTON, Sept. 16.—Senator Dupuy de Lome, Spanish minister to the United States, to-day expressed the opinion that the rebellion in Cuba was sure to be crushed, but it was impossible to say just when, because of the conditions that exist. He characterized the methods employed by the rebels as guerilla warfare, and declared that it would be impossible to have a decisive battle under such conditions. A great deal of misinformation, he said, had been sent out by the rebels, and he said that the efforts now employed by the government to defeat the rebels were of a very peculiar nature. July, August and September are the three great general offensives against the rebels. These months include the rainy season in Cuba and the most unhealthy for the Spanish troops. It is impossible to carry on successful warfare amidst pouring rains. But the Spanish government has been preparing for an active campaign. The second corps of 25,000 men have been landed in Cuba. It is probable that active movements will not begin, however, until the 1st of October or some time during that month, according to the conditions of the weather. It is sometimes asked why troops are not landed in Cuba, when they are not to be called into active service for some time. The answer is plain. From the 20th of September until the 20th of November is the cyclone season in the West Indies, and there is great difficulty in transporting troops, as well as great danger of loss of life. Before the 20th of September all the troops necessary to crush the rebellion will be landed, and as soon as the rainy season is over an active and vigorous campaign will be begun. There can be no doubt as to the outcome. The small force under the insurgents will be scattered and the rebellion ended.

HILL SCORES ONE POINT.

No Injunction Against Great Northern and Northern Pacific Consolidation.

ST. PAUL, Minn., Sept. 16.—The Great Northern Railway company and J. J. Hill, its president, have won the first preliminary skirmish in the contest precipitated by Thomas W. Fearsall in his application for a preliminary injunction against the proposed consolidation of the Northern Pacific and Great Northern railroads, made to Judge Sanborn of the United States circuit court, the judge denying the motion.

The next step will be to hear the case on its merits. Evidence will be introduced on behalf of each state and another decision by the court will be the end of that issue.

While this proceeding is a preliminary one, the victory is none the less an important step toward the consummation sought by President Hill. The thorough investigation of the subject given by Judge Sanborn and his deductions seem to point to a clear right to continue the plan that has for so long occupied the attention of the business world.

SHIPMENTS OF GOLD.

ANOTHER LARGE EXPORTATION FOR EUROPE.

One of the syndicate Houses Makes a Big Consignment—In all \$4,500,000 are Withdrawn—J. Pierpont Morgan Says the syndicate is still standing by the Government and Will Make Good the Withdrawal.

New York, Sept. 14.—The engagement of \$2,500,000 in gold by Lazard & Freres for export to-day created a profound sensation in Wall street. The fact that Messrs. Lazard and Freres are important members of the government bond syndicate increases the already great surprise in the matter of shipment. A member of the firm made the following statement to a reporter: "We believed that during the first half of September a sufficient amount of grain and cotton and other bills would have been offering, and that the necessity of exporting this gold would thus be averted. Our shipment of gold is an imperative necessity in order to fulfill our business obligations with Europe. We believe that it will be a temporary expedient and that within the next few weeks plenty of bills will be offering and that everything will come around all right." The firm recite the low prices ruling for breadstuffs, the slow movement of cotton and the fair supply of that staple already in European hands as causes for the lack of bills of exchange and the necessity of gold shipment.

Other syndicate houses for shipment tomorrow will be the \$1,500,000 from the sub-treasury this morning. The Hanover National bank deposited \$500,000 in gold at the sub-treasury in exchange for greenbacks. The National Park bank later deposited \$1,500,000, and smaller sums aggregating nearly \$1,000,000 were deposited. There were rumors that the bond syndicate would deposit a large sum this afternoon.

A reporter of the Associated Press called upon Mr. J. Pierpont Morgan, the head of the government bond syndicate, and asked as to the truth of the rumors of the dissolution of the syndicate. Mr. Morgan replied: "The bond syndicate is still in the field. There has been no rupture. The syndicate will continue to do all it can to help maintain the treasury gold reserve at \$100,000,000. The obligation of the syndicate expired, however, some time ago.

Sub-treasury officials express confidence that the impairment of the treasury reserve by the gold exporters will be made good by the syndicate.

At the same meeting the queen was pardoned also, and the others will be liberated as soon as the pardons are made out.
