Thanksgiving in Nebraska. Governor Holcomb has issued the fol-

In harmony with a custom as old as our government and conforming to the proclamation of the president of the United States, I, Silas A. Holcomb, governor of the state of Nebraska, by virtue of the authority in me vested by Thursday, the 28th day of November, A. D., 1895, as a day of solemn and pub-lic thanksgiving to Almighty God for lis blessings to us as a people, a state and a nation, and I earnestly request that on that day all manner of secular work may be laid aside and our people assemble together in the usual places of public worship, and in their homes, and in such manner as may be approved by their conscience, render thanks to our Heavenly Father for the manifold blessings enjoyed under the beneficent influences of the enlightened Christian

civilization of the present day.

Murdered by an Unknown Man. A Wilsonville, Neb., dispatch to the Omaha Bee says: Albert Majors of Devizes, eight miles south of here, came to town this morning and told a tale of a coolly planned and executed murder that occurred at that place at about sunrise in the morning. The facts in the case, as related, are these:

Last evening a man unknown in the neighborhood of Devizes called at the home of John Nelson and inquired for Albert Applegate, saying he was an old friend of his and that he had known him on the range in Colorado. He stayed with Nelson over night, but did not give his name. In the morning early he started for the field near by, where Applegate was husking corn. The supposition of those who found the body are that the murderer sneaked upon his victim in a draw which ran very near where he was husking and commenced firing when he had reached shooting distance. Applegate, after the first shot, is supposed to have de-cided to clinch the man and started for him, pulling his coat as he ran. Four shots were fired, but that one struck him—the fatal shot—just as he reached the murderer is known from the fact that his face was burned with powder. The shot struck him just above the cheek bone, causing instant death.

No one knows who the murderer was or the cause for the crime, but he is supposed to be a man with whom Ap-Colorado. He told Majors last summer that he had caused the separation of a man and his wife in Colorado, and the husband had sworn to follow him and kill him if it took twenty years. The man who committed the deed is probably the one who had vowed vengeance. He has never been seen since the murder was committed. Applegate is well known here as a sober, industrious man.

All State Fair Bills Paid.

The board of managers of the state board of agriculture, at a meeting held in Omaha, completed checking up ac counts of the late state fair and after the last of the bills had been paid found a good four figure balance on the right side of the cash book. All the members of the board expressed themselves as well pleased with the result and as confident that the fair next year will be larger and a still greater suc

cess. Chairman Dinsmore and Secretary Furnas were appointed delegates to attend the meeting of the western and eastern fair associations and the Amer ican Shorthorn Breeders' annual con-vention in Chicago. S. C. Basset was delegated to prepare an exhaustive article on sugar beet cultivation to be read before the annual meeting of the state fair board in Lincoln next Janaary. During the annual meeting of the board, the annual corn show, which promises to exceed all previous shows of the kind, and the annual meeting of the State Farmers' institute will also be held in Lincoln.

Another Cause for Trouble.

Lincoln dispatch: There is a new cause for disagreement between Warden Leidigh of the penitentiary and the state board of public lands and buildings. The new cause of disagree-ment between these contending par-ties arises from the reported sale by the warden of some of the hogs, a caroad, which were raised on the penitentiary grounds and are the property of the state. The members of the board say that this selling of state property by the head of a state insti-tution without the consent of the board is without precedent, and in direct violation of the rule which governs such matters. The board is supposed to be responsible for all pur-chases and sales of property, and it says it is supposed that the members shall know of such transactions.

The Kharput Trouble Confirmed. WASHINGTON, Nov. 18 .- A message from Minister Terrell to-day confirms the report of the Kharput massacre. The place is far inland and beyond the reach of a man of war, which would be obliged to pass the Darda-Near Guran-The Powers nelles and enter the Black sea to approach even the neighboring coast. There is reason to believe that Mr. Terrell, in addition to strongly insisting to the Porte upon the protection of the Americans there, has urged them to come to the coast where they can be more readily assisted by the American men-of-war. As the mis-sionaries themselves have escaped the massacre unharmed, it is probable that the amends required from the Turkish government by the United States will be confined to a demand for payment on account of the property destroyed. It was at Khar-put that the State department sought to establish a consulate, in which purpose it has been defeated so far by the refusal of the Turkish government to issue an exequateur to Mr. Hunter, sent there as the first consul.

U. would be glad if the Knights could indorse the movement for "Sunday closing." "equal standard of morals," "equal pay for equal work, regardless of sex' and 'the enfranchisement of women.' General Master Workman Sovereign replied in part as follows: "This order spends more of its time and money and talents to the upbuilding of the men of this country than any other organization. While we are not pledged to the prohibition of the liquor traffic, we draw the line at the saloon-keeper and the gambler and all the influences that corrupt the mass

UNCLE SAM MUST NEEDS BE-STIR HIMSELF.

Admiral Walker Corroborates All that is Set Forth by General Miles-This Country Declared to be at the Mercy of Foreign Foes-Urgent Need of War Ships as Well as Coast Fortifications.

In Time of Peace Prepare for War. WASHINGTON, Nov. 16 .- Admiral Walker adds his testimony to that of General Miles concerning the weakness of the government coast defenses. "I am a good American," said he, "but I cannot shut my eyes to cold facts. We are not prepared to-day to engage in war with any first class power. We are in the position that China occupied in her recent struggle with Japan. We have a vast population, great wealth, boundless resources and endless patriotism, but we cannot maintain an offensive or defensive attitude against any one of a half dozen foreign countries. What General Miles says about the defenseless condition of our coast cities is entirely correct. It is true that New York and San Francisco are better protected than our other commercial cities, but even they would be helpless against the assaults of a dozen powerful iron clads. So far as the remaining cities are concerned they have no protection whatever. Congress ought to make liberal Congress ought to make liberal appropriations for coast defenses, and for additional ships of war. More than anything else we need a strong navy. If we had a dozen battleships of the Indiana class on the Atlantic coast we could defy as powerful a maritime country as Great Britain. We have now four battleships build. ing and two others have been appropriated for. We need at least seven more. With anything like a fair system of coast defenses we would be be-yond the probabilities of war. There would be no more Corinto incidents; no more talk of foreign aggressions on American soil. The United States would be pre-eminent on the American continent. The greatest preventive against war is to be fully prepared for it."

THE BIBLE IN SCHOOLS.

A Strong Movement Toward This End in Chleago.

CHICAGO, Nov. 16 .- A petition bearing 60,000 signatures, and asking that the reading of the Bible be restored to the public schools will be presented soon to the board of education. It was circulated by the Woman's Educational Union of Chicago. The union held a meeting last night to consider the outlook for the movement. Reports from the committee having charge of the petition were encouraging, and it was announced that mat ters were in such a shape that the document could be presented to the board

Invitations will be sent to all the county and municipal bodies in the state, irrigation associations, and all newspapers. Colordo and Wyoming will send emi-nent speakers, Nebraska's orators will be fully represented, and a flood of excellent thoughts will be brought out, showing the value of united action upon this important enterprise. Thousands of dollars will be expended in western Nebraska the coming year upon wind mill and pump irrigation. The large canal companies are already reaping the benefits of their work and the valleys are producing vast amounts of the necessaries of life.

It is a revelation to visit an irrigated farm and see what nature can unfold when supplied with water. The water wasted every year in the Platte valley would irrigate 5,000,000 acres of land. The coming convention will be a thorough educator and will demon-

strate to the people how to utilize this vast body of water, which at the present time benefits no one.

With only a small effort the farmer can be educated and taught how to handle the water. There will be

plenty of hotel accommodations. The ladies of Cheyenne county are also enlisted in the cause and will endeaver to entertain with a lavish hand.

ANNUAL REPORTS COMING.

Both Secretaries Smith and Morton Will Discuss Matters of Interest.

WASHINGTON, Nov. 16 .- The report of Secretary Smith will be one of the most interesting made by a Secretary of the Interior for several years. More interest centers about the recommendations the Secretary will make for the settlement of the Pacific railroad debts than anything else. It is known that he believes in a con-tinuous line of Pacific roads from Omaha to the Pacific ocean, and that he thinks such a line can be operated to advantage. Some time ago he held up all patents of lands to the Pacific railroads which were bond aided amounting to 7,000,000 acres. Whether this is an indication that he intends to make some radical recommendations to Congress is not known, but it is a fact that he has been securing statistics relative to the earnings of the roads and their capacity to earn enough to pay a moderate interest upon the present indebtedness. It is expected that Congress will undertake to legislate upon the subject of the Pacific railroads' indebtedness during the coming session, and the Secretary will no doubt recommend a plan of settlement.

Secretary Morton will complete his annual report early next week. He makes a feature of the system of government inspection of meats and will point out some of the defects in it as it now exists.

A FORGER FROM CHOICE

Elliot S. Reynolds of Fort Scott Waster

Fame and Fortune Through Crimes. FORT SCOTT, Kan., Nov. 18.-Attorney Elliott S. Reynolds, who was put in the Bates county, Mo., jail yesterday at Rich Hill, is a member of the Bourbon county bar, a member of a fine family, a handsome, dressy young man of dignified mien, and well educated. He is a criminal of singular tendencies, which many attribute to a mania. The affluence of his famly has palliated more than a dozen felonious offenses, which date as far back as his boyhood, and the fortune left by his late father has been spent for his liberty. Six years ago he was sentenced to three years in the Missouri penitentiary for forging a note on W. T. Smith, a merchant at Springfield, but the case was appealed and for some reason he was allowed to for-feit a bond of \$2,000 and go free. He is now being prosecuted by the Kan-sas City, Fort Scott and Memphis Railroad Company for another forgery.
