GIVING AWAY A PIANO. The Daily State Journal gives every

Some Merchants

FLOUR!

angle for trade just as boys catch fish. They have showy bait (prizes), but underneath are sharp barbs (cheap goods) which in the long run costs the unsuspecting customer dearly. This is not our method. When you call on us we do not try to make you think that you are getting something for nothing but we sell you the best goods we can buy, at the LOWEST possible price.

We are still handling the world-renowned Washburn Crosby Company flour (which by the way,is ground in Minnespolis, Minnesota) which has given our customers excellent satisfaction every time. Read what Washburn Crosby Company say in regard to it: "There's as much difference in the flour of some mills, as there is between an old windmill and the most modern milling plant in the world. Such are the famous mills of Washburn Crosby Company. 10 Minneapolis, Minnesota, U. S. A., having a capasity of 13,500 barrels daily. Equipped with the very latest improved machinery for grinding the celebrated, "No. 1 Hard" wheat of Minnesota and Dakota, their well known "Superlative" and "Gold Medal" brands, are recognized as the standard of high grade flours where ever they are used."

"This flour contains a large percentage of the gluten of wheat, and a very small proportion of starch. and for this reason bread made from it, does not become dry and tastless. but retains the sweet flavor of the flour, and will keep moised for several days."

"See that the firm name, Washburn Crosby Conpany is on every barrel, or sack of flour you buy, to insure your having the genuine article."

We also handle the Urete, Neb, flour, which as every-one knows, is the best made in this state.

SHOES!

Leather took the lead of sugar in making an advance, but we will sell shoes at the old prices for some time, though they will probably advance slightly before long. We handle Bradley & Metcalt's famous shoes which are guarenteed to be as represented or your money refunded.
