The cure of Rheumatism has often taxed medical skill, but it's prevention has been very easy by an occasional use of Simmons Liver Regulator. It keeps the liver well regulated, and the system free from poison. Therein is the secret of health. We learn through one of our subscribers, Detlef Peterson, that Bob Johnson, of Valley county, who is well known to the people of this vicinity, had considerable property destroyed by fire last Sunday afternoon while away from home. The fire caught in the straw near the sheds and the sheds, a team of horses, harness, corn crib and about 600 bushels of corn was consumed.
Wednesday night about eleven o'clock, the citizens living in the vicinity of the Landers building were startled by a peculiar rushing sound, and upon investigation in the morning it was found that the floor of the rear portion of the building had given away letting down onto the ground a thousand bushels of oats belonging to C. Landers. The weight of the oats was too much for the floor. Mr. Landers had a force of men at work yesterday moving the oats into the room in front. No great quantity of the oats will be wasted.—Arcadia Champion.
A very serious and painful accident happened to Judge Wall last Wednesday evening while out to his farm one-half mile south of town. Mr. Wall has a large number of fine horses and as it was a pretty cold night he was assisting his hired man to get them all in the barn when the horse he was riding slipped and fell with its whole weight on his right leg, breaking it just above the ankle. When the horse arose Mr. Wall attempted to rise also but could not. The hired man was at once sent to town after assistance and the city express wagon was there as soon as possible and he was taken to his residence. While waiting for help he suffered much from exposure as the wind was blowing intensely cold. Dr. Jones was summoned to set the limb, and on examination found that the front bone was broken entirely off just above the ankle and his knee and ankle badly wrenched. He was also bruised about the head and shoulders. The accident will doubtless cause him many days suffering and will greatly retard his business as he has many important cases in district court which is soon to sit and which doubts will have to be postponed until such time as he can be able to attend to them.

From Litchfield Monitor.
While the Heslop family were driving home from church at the Gray school house last Sunday, their team became frightened near J. W. Heapy's place and ran away. The buggy was upset and Mrs. Heslop was seriously hurt about the head and back, but the four children escaped uninjured. Dr. Goff who was called, pronounced the wounds both serious and painful, and it will be several weeks before she can fully recover from the accident.
Last night (Thursday) was a gala time for the Litchfield Camp M. W. A. Twelve of the Loup City Neighbors were in attendance and took charge of the work of initiating four candidates. About 11 o'clock the Camp was invited to partake of a sumptuous supper which had been prepared by the Woodmen ladies in the Gowen building, after which they returned to their "log rolling." Those present from Loup City camp were G. H. Gibson, W. J. Fisher, W. French, J. Johansen, C. Smith, H. Wookey, J. I. Depew, S. McFadden, J. McCoy, J. L. Hopper, A. L. Zimmerman and D. Richardson. The Loup City Neighbors are strictly all right, and they were profuse in their praise of the good treatment at the hands of Litchfieldites, especially the ladies. The pleasures usually attending such occasions were mutually enjoyed, and after the work was finished the remainder of the wee hours were devoted to social entertainment, when all left with the feeling that all is well.

King Solomon's Notion.
That "There is nothing new under the sun" does not always convey the truth. Especially is this true as regards the new composite cars now operated daily via the Chicago, Union Pacific and Northwestern Line between Salt Lake City and Chicago. These handsome Buffet Smoking and Library Cars are entirely new throughout of latest design, contain all modern improvements, and are well supplied with writing material, the leading daily papers, illustrated periodicals, magazines, etc. The fact that these cars run daily via "The Overland Limited" and that the Union Pacific was the line west of Chicago to inaugurate this service should commend itself to all. See that your tickets read via "The Overland Route."
