The little 2 year old son of Mr. and Mrs. Stephen Sweetland died last Friday evening. Its death was very sudden and unexpected. It had been complaining of its stomach during the day and in the evening seemed much worse when Mrs. Sweetland called her husband into the house. Mr. Sweetland took the child in his arms and from that moment the worst was feared. It was evidently dying. He laid the child on the bed and ran to a neighbor for help but ere he returned death had claimed it as its own. The funeral services were held at the farm residence last Sunday. Profound sympathy is extended to the parents in their sad affliction.
The old man Augustine and his son, of Ashton are both in jail again, this time charged with the killing of horses. The charge that was preferred against them alleges that they killed a horse for Cal Schaupt, by cutting his back bone into with an ax. It seems that for some time several horses and cattle belonging to people living in Ashton and vicinity have met with a similar fate, and no trace of the perpetrators could be found until the occurrence above mentioned took place, when it was traced directly to Augustine's door. The animal was found just a few feet from the house where the blow was struck and where evidently the guilty parties had attempted to move it farther away from the house. From what we learn the horse was killed last Monday and the accused were arrested and brought before Justice Jeffery, of Ashton township where they were bound over for trial at the next term of the district court. They were brought to the county seat and placed in jail last Wednesday.

Two days during the month there was no wind, during the foggy days much moisture fell in the shape of rain, sleet and snow. Can safely estimate it at one inch of water fall during the month.
January '96 has passed, it was a month in the calendar, according to Re. Hicks predictions, to be long remembered; one the Professor fore-warned would be the battle ground of the winter, a month that old Boreas would unlimber his ice batteries all along the line, and unmercifully bombard us with ice, snow and blizzards from Alpha to Omega, and like good and loyal disciples, we believed and shuddered at the vast amount of suffering such a chunk of frigidnets dumped upon us would cause, and expected to report to you dear editor ere this. Legions and legions of frosted noses, bushels and bushels of frozen toes, and mountains of impassable drifts of the beautiful snow. And like the well drilled army be prepared and ready for any emergency, be equipped for the inevitable by gathering a few extra loads of surface oil; patching up our old top coats and chinking up the ventilators in the straw sheds. Wheeled into line and with the patience of an Allen audience wait for old Boreas to let her go. All have quietly concluded that there must have been a slight misunderstanding between the weather cock and the Professor. The month of January '96 to be remembered as the battle ground of the winter, will be remembered as a beautiful warm spring day, and now what do you suppose is the matter with IRA.

King Solomon's Notion.
That "There is nothing new under the sun" does not always convey the truth. Especially is this true as regards the new composite cars now operated daily via the Chicago, Union Pacific and Northwestern Line between Salt Lake City and Chicago. These handsome Buffet Smoking and Library Cars are entirely new throughout of latest design, contain all modern improvements, and are well supplied with writing material, the leading daily papers, illustrated periodicals, magazines, etc. The fact that these cars run daily via "The Overland Limited" and that the Union Pacific was the line west of Chicago to inaugurate this service should commend itself to all.
