A rousing county meeting was held at Lexington for the purpose of naming the dates of the Nebraska State Irrigation convention. Wednesday, Thursday and Friday, October 7, 8 and 9, were the dates named for the state meeting, thus making it easy for all who desire to attend the North Platte irrigation fair October 12.

Overybody was bubbling over with irrigation enthusiasm and every assurance was expressed that the next convention would in every respect exceed anything of the kind ever held in the state. Mr. Clarkson said that the Platte was the most magnificent valley he ever saw and with irrigation a veri-

table garden of Eden.
Senator Akers said that since 1887 Nebraska's progressive farmers had built over 2,000 miles of irrigation ditches, over 1,000,000 acres of land were reclaimed, with over \$10,000,000 in increase of land values. The next three years Nebraska would have 3, 000,000 acres under irrigation. Mr. Edmisten did not have time to talk, but assured every one that Lexington would equal any city in Nebraska in looking after state irrigation meetings.

An Important Decision. Lincoln dispatch: A number of opinions were handed down by the supreme sourt today, one being of special interest to the residents on the borders of streams of this state where fish have been planted. This was the Cuming county case of the West Point Water Power, etc., company against the state ex rel, Moodie, in which the judgment of the lower court is affirmed and the court holds there is an implied obligaion on the part of those who erect mill dams to provide adequate runways for the passage of fish, and that the preservation of fish is a proper function of government; that the reserved powers of the state are inalienable and can not be bartered away or surrendered by the legislature.

The Next State Fair.

Chairman Densmore, Secretary Furnas and Messrs. Barnes, Vance, Bassett, Doolittle and Dunham of the board of state fair managers held a meeting in Omaha last week. New Process for Beet Sugar. Fremont dispatch: Messrs. J. W. Schadt and William Peterson of this city have applied for a patent on a new method of manufacturing crude sugar and syrup from sugar beets. These two gentlemen have succeeded in making raw sugar which is much superior to that first made by Mr. Peterson about two months ago. They estimate that from one acre of beets of average yield sixty-five gallons of syrup can be made. The sugar they have made, even in its raw state, can be used for culinary purposes, and has very little vege-table taste or flavor. The cost of extracting the sugar from the beets is only about a fourth of the cost of the present method. Mr. Schadt is well posted on the chemistry of sugar making, and feels confident that the proused by himself and Mr. Peterson will be a grand thing for the farmers.

Enthusiastic Sugar Beet Producers. Neligh dispatch: A large enthusiastic delegation from here will attend the beet sugar convention, commencing at Fremont tomorrow. A great deal of interest is being manifested in the subject and negotiations are in prog-ress with several parties for the establishment of a factory. A disposition is apparent among eastern capitalists to put in factories if it can be demonstrated they would prove profitable and the soil and climate suitable for the raising of beets.

William Tate tiets Four Years. Tecumseh dispatch: William Tete. was brought before Judge C. R. Letton in the district court this morning and sentenced for killing Archibald Crahcart. The jury was actuated in bringing in a verdict of mansiaughter by the fact that the defendant is but 19 years of age, and was struck the first blow. He will have to serve four years in the penitentiary at hard labor. The ver-dict is considered by all decidedly light, considering the crime. It is understood the defense will appeal the case to the

Michigan Miners Refused to Take Arms Against the Boer Government.

IRONWOOD, Mich., Feb. 10.-Captain W. H. Knight and his party, who left here last spring for the gold fields of South Africa, have returned home unexpectedly. Two weeks before Jameson's raid into the Transvaal the officers of the mining companies were smuggling rifles and ammunition into the country in the bottom of coke cars Tuesday. December 31, the mines were shut down and the men were ordered to take guns and ammunition and be prepared to march to Johannesburg by

The Michigan men refused to obey the order and they were informed that they must take up arms against the Boer government or leave the mines. Captain Knight and party left at once and were just over the line in the Orange Free state when the battle between the Boers and Dr. Jameson occurred. Many miners, says Captain Knight, were forced into taking up arms by the officials, who shut up al the boarding houses and bought all the available provisions and literally starved the men into accepting their terms

CRISIS IN CUBA.

ecisive Results Anticipated on the Is-

land Before the End of March. HANANA, Feb. 10-The public apprehension and the gravity of the situation on this island can hardly be overstated. There is a concensus of opinion that a crisis is at hand. Gen. Weyler has left Porto Rico for Havana.

It is not alone the approach of the new commander-in-chief that causes anxiety and intensifies feeling, but the general consciousness that the military, political and financial strain

is too severe to last long.

The Spanish opinion is that real war is about to be made, and that in a brief campaign it will be shown that the march of the insurgents through the island could not have happened if the regular army had been actively handled

The Cubans claim that they grow stronger in the field and that the rebel forces are being strengthened by bands from the east that will balance the additional troops from Spain. It would be vain to assert in-dividual views as to the value of these claims. One thing is certain, the con-centration of the armies in the Province of Havana promises combats of increasing importance and decisive re-sults before the end of March.

The excitability of the sympathizers with the insurgents about General Weyler is almost incredible. His coming is a nightmare to the Cuban autonomists, who anticipate relentless persecution and are largely, according to their ability, taking refuge in the

SLID DOWN SIX STORIES.

McKeesport Printers Have a Narrow Es cape From Death-One Dead.

PITTSBURG, Pa., Feb. 10.-An early morning fire at McKeesport, Pa., resulted in the loss of one life and the destruction of property worth \$200,000.

The fire started on the fifth floor of the Altmeyer building, and is supposed to have been caused by defective electric light wiring. The flames were discovered by the printers of the McKeesport Herald as the fire began to eat its way through the sixth floor. The night's work had just been finished and the paper was about to go to press. When been finished and the paper was about to go to press. When the flames were seen a rush was made for the usual point of egress. but the stairways were impassable The only resources left were the windows and the rope in the elevator shaft. All except G. M. Barton, the foreman of the composing room, succeeded in sliding down the rope. His escape was cut off and he was burned

The flames spread to the adjoining buildings before they were extin-guished. The loss to the Altmeyer building and the Herald plant is esti-mated at \$175,000, and on the other buildings, \$25,000.

The Explorer Says British Public Opinion

Is Coming Round to Arbitration. NEW YORK, Feb. 6 .- Henry M. Stanwritten a letter to Major J. B. Pond of this city, on the Venezuelan question. In the letter Mr. Stanley says: "I am entirely on the side of America, but I must admit that I am not surprised that the English papers backed up Salisbury Taught by the virulent remarks of your journals, I had of course devoted much time to un-derstand it, whereas English editors were exceedingly ill informed. Then there are two or three inju-dictions remarks in Olney's dispatch which puts British backs up, but after reflecting it is wonderful how many have come round to my opinion that whatever the transgressions of Oiney, there is a great deal of justice in the American demand. I feel quite sure now that it will not be long before the opinion becomes general that we were in the wrong in refusing arbitration, while the more I think of Olney's dispatch the more impressed I am that Olney could scarcely have written otherwise than he did."

A CHARITY WRANGLE

The House Strikes Out Appropriations for Catholic Institutions.

WASHINGTON, Feb. 8.-The House was the scene of another wrangle yesterday over appropriations for charitable institutions of the District of Columbia while the District bill was under consideration, and among other things the A. P. A. came in for a strong denunciation. General Henderson of Iowa made a fiery speech, attacking amendments offered by Mr. Hamer of Nebraska, taking appropriations away from the sectarian insti-tutions of the District and giving them to the Public Charity Board for distribution. Democrats and Republicans chimed in on both sides and considerable feeling was aroused.

The appropriation for six religious charitable institutions, one Episcopal and five Catholics, for the care of orphans and helpless aged, were stricken out, but the amendments to strike out the appropriations for other private institutions, including the Young Wo-men's Christian Home, the Hope and Help Mission, etc., were defeated.
