Governor Stone of Missouri has written Governor Holcomb saying he is anxious to co-operate in the courts in arriving at a settlement of any dispute that has arisen or may arise.

The weekly crop report made to General Manager Holdrege of the Burlington shows that the outlook is very good in Nebraska, and unless some unfortunate catastrophe occurs there will be big crops in the state. On the northern division small grain is being seeded and forty acres in sugar beets have just been put in near York in the last week. Some potatoes are being planted and preparation for corn is well advanced. Seed is cheap and farmers are planting more than in previous years. The winter grain is good.

At St. Edward the team of James Northrup became frightened at the train and ran away in spite of all the efforts of Mr. Northrup to hold them. When they reached Beaver street, instead of turning up town, they turned toward the track. Governor Holcomb, president of the Nebraska club, is taking an active personal interest in its work. He has delivered addresses in its behalf on certain occasions and his interest is indi-cated by the following extracts from letters written by him to the secretary and others: "I am glad to note this movement is proceeding so favorably and see no reason why it should not extend to many portions of the state and become a movement for great good in advancing the material welfare of the state. I shall be glad to assist in any manner in which I may to help carry to a successful end this movement and will, in all probability, be able to be present at the meeting you mention.

The editor of the Omaha Ree, in a recent discussion, said the Nebraska club has a great work before it and should meet with the cordial co-operation of all classes. He had seen Nebraska grow from a population of 50,000 to a million, and this was not the first period of depression through which the state had passed. He referred to the depression which followed the building of the Union Pacific railway when th impetus of that movement had died out. This was followed by the panic of 1873, and this almost immediately by the grasshopper plague, but within less than three years after these de-structive visitations Nebraska was the Mecca of immigration from all parts of the country, and on the high road to prosperity.

# THE SENATOR CALLS A CONFER-ENCE OF ILLINOIS FRIENDS.

HIS BOOM NOT HEALTHY

The Feeling of the State Not Strong Enough to Please the Aspirant for Presidential Honors-Retirement From the Bace More Than Likely-Too Much Sen-

timent for McKinley.

WASHINGTON, April 13 .- United States Senator Shelby M. Clulom of Illinois, whose state has not received with enthusiasm his candidacy for the Republican nomination for President, judging from McKinley instructions in various congressional conventions. has called for a conference with leading Republicans of Illinois to consider his continued candidacy. It was reported yesterday that he had written letter withdrawing from the race, but had decided to defer its publication, but later it was declared that he had not prepared the letter and would not do so until after the conference. Cullom's friends in Illinois have in-

formed him that he can have the convention's indorsement, but that it will be by a small majority. Several of them have, within the past week advised him strongly to withdraw, arguing that indorsement by a little over half of the convention would be worse than nothing. The Senator has lis-tened seriously to these advisers, but has postponed final answer until he can meet those leaders of the party in the state on whose original advice he consented to be a candidate.

The convention will not meet until April 29, and the Senator feels that there is no need of haste in acting upon the question of withdrawal. While he personally will not admit that he has reached any decision, and while he probably has not fully de-termined in his own mind what he is going to do, his friends here, espeially members of the Illinois delegation, are satisfied he will in due time announce his withdrawal. They consider it as good as settled that the State convention will not be asked to indorse him for the presidency.

#### ARMOR PLATE PROBLEM.

The Senate Naval Committee in a Quan-

dary as to Private Contracts. WASHINGTON, April 13.-The senate committee on naval affairs had a secret session to-day for the purpose of considering the testimony which had been taken in connection with the armor plate investigation. The only definite (onclusion reached was not to in-terfere with the secretary of the navy in making centracts for the Kentucky and Kearsarge, these vessels being so far advanced in construction that any interference would cause delay in their completion.

The question of future contracts, especially on the war ships authorized by the pending naval appropriation is causing considerabl to the committee. They feel that the price-about \$500 per ton-which the government has been paying armor plate, is too cost of the manufacture of the plate averages about \$300 a ton. manufacturers make the plea, how-ever, that the work furnished is not sufficient to keep their factories constantly employed, and say that, with contracts running constadtly for five or ten years, they could reduce the price, but not otherwise. The comsittee has considered the advisability of building a government plant, but the paval authorities have been opposed to this course. As a consequence, the committee is in somewhat

of a quandary.

The committee will, in all probability, report a bill forbidding naval officers, active or retired, to accept such employment. The opinion of majority of the committee appears to that the custom is prejudicial to the interests of the navy.

Lientenant Menocal Speaks for the Nic-

WASHINGTON, April 13.-Lieutenant A. G. Mencoal, United States navy, chief engineer of the Nicaragua Canal company, appeared to-day before the house committee on commerce, which is investigating the question, and submitted a review of the report of the commission sent to the isibmus last summer. He said: "The company re-gards and has treated the project as a business enterprise, with a view to commercial requirements, technical success and financial results. The board entirely ignores two of these conditions and considers it from the point of unlimited expenditures without any question of financial results and provides beyond commercial requirements of the present for demands

that can be only rarely occasional.

The lieutenant said the board had made a hasty trip through the territory, touching only here and there the route of the canal, when it was con-venient and had an imperfect knowledge of the physical conditions of the problems presented and the work already done. The plans of the company were not for an ideal canal regardless of cost, but for one ampie to satisfy the needs of commerce and larger than any ship canal now in op-eration. None of the changes pro-posed by the board was in the interest of economy or of a better canal.

There was a long examination of Mr. Menocal by members of the committee. The company, he said, had paid to the Nicaraguan government \$100,000 for its concessions and \$50,000 for its right of way and nothing to the Costa Rican government.

#### TWO CONVENTIONS.

Kansas City Democrats Split on the Gold and Silver Question.

KANSAS CITY, Mo., April 13 .- The Jackson county Democratic convention for the selection of delegates to the Sedalia convention split wide open to-day on the financial question. The Stone-Brown silver faction and the antis clashed on question of contested city delegates, and immediately two chairmen were presiding. This caused pandemonium to break loose, and for a time unparalled disorder prevailed. The convention turned itself into a yelling mob that had no equal in the record of Kansas City's politics. After it had tired itself out it finally adjourned to allow the leaders to confer on a compromise. The antis offered to let the Brown-Stone men name the delegates if Marcy K. Brown and Fred Fleming, Governor stone's Kansas City managers, were not on the delegation, but the Brown leaders spurned the ofter. The two factions then split and two conven-tions were in full force in the same hall, with the wildest kind of pandemonium reigning.

# DON'T WANT M'KINLEY

THE ATTITUDE OF THE A. P. A. TOWARD HIM.

They Start a Boom for Linton of Michigan-Judge Stevens of the National Advisory Board Declares that the Order Holds the Republican Balance of Power and Will Use It Effectively.

Say He Must Not Be Nominated. Sr. Louis, Mo., April 9 .- A scheme was sprung in this city yesterday which its promoters declare will de-feat Major William McKinley for the nomination for President of the United States. It was the launching of the boom of Congressman William S. Linton of Michigan for President by Judge J. H. D. Stephens, chairman of the National Advisory board of the

American Protective Association. The A. P. A. has established head-quarters in St. Louis at 6:3 Pine street, from whence Linton literature will be sent broadcast throughout the will be sent broadcast throughout the country. Linton himself is expected in St. Louis in four days, when his boom will formally be launched at a demonstration to be held in the Exposition building. He will also speak in Omaha, Kansas City, Louisville and other places and Linton clubs will be organized in every large city in the union within the next ten days.

The national advisory board met in Washington about two weeks ago and sent a letter to the managers of Mc-Kinley, Reed, Morton and Allison, asking that they appear before the board and state their positions in regard to the order. The managers of all the candidates except McKinley obeyed the summons and appeared before the committee. They argued before the committee. They argued for their candidates and made promises of all kinds. Mark Hanna, Mc-Kinley's manager, did not put in an appearance. A second letter was sent him, and it brought a response, not to the liking of the board. It simply said that Mr. McKinley declined to treat with any faction, association or society within the party. society within the party.

This caused the board to place a ban

The House Cuts Off All Private Charities.

WASHINGTON, April 9 .- The Disrict of Columbia appropriation bill which was recommitted House because of the aid carried by it to charitable institutions was to-day considered by that committee and remodeled so far as it applied to private institutions, all of the items for private and semi-private institutions which had heretofore depended largely upon the government for support being stricken out and a lump sum of \$94,700, equal to the total of the various items added for the relief and care of the poor and such charitable and reformatory work as have hereto-fore been provided for by direct ap-propriations, to be expended by the district commissioners, either under contract or by employing the public institutions of the district. Contracts are limited to June 30, 1897, and the commissioners are required to render an account of their disbursements and strict limitations are placed upon the powers. The amendment ends with this clause: "That no part of the money here appropriated shall be paid for the purpose of maintaining or ading, by payment for services or expenses, or otherwise any church or religious denomination, or any insti-tution or society which is under sec-tarian or ecclesiastic control."

Gov. Holcomb Enjoins Citizens to Continue the Custom.

LINCOLN, April 7 .- Governor Holcomb has issued the following proclamation for the usual observance of Arbor day in Nebraska:

By legislative enactment, the 22nd day of April of each year is designated as a holiday to be known as Arbor day. In conformity with this provision I would earnestly recommend to all citizens of the state that Wednesday, April 22, 1896, be devoted to the planting of trees, shrubs and vines on the highways, public grounds and private property, to the end that the landscape may be rendered more attractive, the climate ameliorated and the cultivation of timber for the beneficial use, comfort and convenience of the present and future generations encouraged. No greater service to his state can be at this time performed by a Nebraska citizen than by devoting at least one day of every year to the planting and cultivation of trees upon the broad prairies and fertile valley lands. The observance of a day especially devoted to arboriculture which had its

birth in Nebraska has now grown to be national in its character and it is to be hoped that the commendable spirit which prompted Nebraska to take the initiative in this salutary movement will ever continue to characterize the

observance of the day.

By common consent, the cultivation of a sentiment favorable to the planting in our state has been entrusted to the public schools, and nobly have both teachers and scholars performed this important duty. In the early history of our country, pioneers settled in the forests and cleared away the timber in order to make room for fields of grain. order to make room for fields of grain. The work of devastating the forests has gone steadily on for years, until there is now urgent need for united efforts in all sections of the country for the planting of trees. It is well and fitting that this necessity for tree preserva-tion to take place of tree destruction be instilled in the minds of the youth, and to that end I would urge the importance of a continuation of the appropriate exercises which have hereto-fore characterized this observance of the day in the public schools of the
