CONGRESSIONAL. Sixth District, A. E. CADY. SENATORIAL. Sixteenth district, AARON WALL. COUNTY TICKET. For Representative, W. H. BROWN. For County Attorney, W. H. CONGOR.

If the voters of Sherman county want to be represented in a creditable manner in the next State Legislature they should cast their votes for W. H. Brown, and Judge Wall;

W. H. Congor, republican candidate for county attorney is making it exceedingly interesting for his opponent, J. W. Long. If the canvass is kept up John won't know that he has been running when the votes are counted.

J. M. Snyder is stumping the county in the interest of the republican ticket. That is he is talking popism so strong that it smells bad and consequently is disgusting the voters so that they are turning their attention to McKinley and W. H. Brown.

The tide in Sherman County is turning towards McKinley and sound money and it now looks as though the entire republican ticket would be elected in Sherman county. Hon. A. E. Cady candidate for congress will receive a very large vote, and the ticket is gaining ground every day. Let the good work go on.

A good populist told us the other day that he thought there was a possible chance of electing their man Heapy for senator, but that he doubted if John Long or J. M. Snyder could pull through. When they acknowledge this much it is quite sure that they are not expecting a walk away as represented by the leaders of the Bryanites. We do not hesitate to say that in our judgment Heapy too will be shy several votes.

We heard a leading pop say that he should vote against all of the proposed amendments. We also heard that same pop roasting the state officers for not investing the school funds under a law that is unconstitutional. Is there any sense or reason to such a position. The amendment relating to the school fund will so change the constitution as to make it possible for the state officials to do just that which they have been denouncing them for not doing. The fact is they hold out the impression that because the amendments that they should be voted down and not be considered on their merits. There are other amendments which we believe to be of great importance especially the one relating to the jury system. There are also some which we confess we are not posted sufficient at this time to recommend as being beneficial and that it will take study to determine which is the right way to vote. Every voter should study them carefully and then vote as his best judgement dictates.

Wheat has suddenly taken another rise and last Monday was quoted in the Chicago markets at seventy-nine cents per bushel. The Bryanites say that it is because the government is now coming more silyer. Poor deluded people. They don't know that India and Austr. the two great wheat producing countries had a drought and an utter failure of wheat crop last year. These countries are now buying the American produce, when in past years they have always raised a tremendous large surplus, which surplus they have sold on the markets tributary to this country. Hence it is plain to be seen that it is the great demand for the American crop which enhances the price and not an increased circulation of money.

Just as we go to press and after the above was put in print the elevator men informed us that wheat has again dropped 17 cents in price, we presume because of the large shipments that have recently been made which has supplied the demand for a time. And yet our populists friends go right on saying that the increased circulation of money governs the price of wheat.

It is reported at republican national headquarters today that William J. Bryan is accompanied on his tour through the country by two Pinkerton detectives, and one Mike McSherry, said to be notorious in Chicago on account of his close connection with bolice history. McSherry, who is said to have been mixed up in several shooting affrays, goes along, it is related, as a "spotter," to point out the crooks of all stripes and breeds. The Pinkerton men are for Bryan's personal protection. "The people love Mr. Bryan all right," say the republicans, "but Billy don't care to trust their love too far." Chicago Journal. Four years ago the demopops were cursing the Pinkerton force, now they are employing them.

CONFEDERATE FIAT MONEY. The latest addition of the republican campaign fund, says the Chicago Times-Herald, comes from the old secession state of South Carolina. Frank Hammond or the People's Bank of Greenville is the contributor and his contribution consists of \$100 in \$20 bills of the confederate states of American. In his letter accompanying the contribution Mr Hammond says that if the national committee wants any more of that kind of money he will send all that is desired free of charge. The most interesting thing in connection with Mr. Hammond's contribution is a concise statement of facts, typewritten on the back of each of the \$20 bills. On one bill there is this statement: "Wheat sold for \$100 a bushel in this kind of money. Give us more circulation."

On the back of another is this: "Eggs sold for \$13 a dozen in this kind of money. What we need is more circulation."

Another bill has this on it. "Hod carriers received \$1,000 a day in this kind of money. The laborer is worthy of his hire. Wah! Wah!"

And on the back of another is this. "Tillman always paid his niggers in this kind of money. He didn't count it, but just handed it out by the pitchfork full."

Mr. Hammond's unique contribution will be treasured by Chairman Hanna as an interesting souvenir of the campaign.

There are just thirty states in the Union where populists and demorats have fused. In these states the electoral tickets have been so divided as to give the demorats 217 electoral votes and the populists only 87. The rest of the states in the union have declared for no fusion. So badly has Watson, the populist candidate for vice president been sold out in this fusion deal that he himself and all of the middle-of-the-road populists have become thoroughly disgusted.

WANTED—100,000 chickens, hens, geese, turkeys, ducks, in fact fowls of all kinds, also fat cattle. Will pay the highest price at the city meat market.

W. C. Edwards, secretary of the state of Kansas received a letter October 19 from Tom Watson. "I withdraw as a candidate for vice president on the ticket nominated at Abilene and decline to have my name on the official ballot upon that ticket, it being placed there to deceive populist voters to vote for democratic electors."

Secretary Edwards decided to obey Mr. Watson's request and so notified Chairman Briedenthal of the populist state central committee. Mr. Briedenthal immediately caused an application to be made to the supreme court for a writ of mandamus to compel the secretary of state to place Watson's name on the ticket. An alternative writ was granted this afternoon and the case set for hearing on its merits on Wednesday afternoon. If the court sustains the action of secretary Edwards Bryan's name alone will appear on the electoral ticket of the middle-of-the-road populists.

In Kansas the populists were allowed some of the state officers on the fusion deal but all of the ten electors were given to Sewall, and Watson in that state was completely sold out.

### INTERESTS YOU.

Offer of Cheap Reading Matter You Can't Afford to Miss. During this great campaign people want newspapers and want them while they are fresh and new. The Semi-Weekly State Journal, Lincoln, Neb., supplies the demand, as it will be mailed twice a week from now until January 1, 1898, for one dollar. A dollar for the great twice-a-week paper from now until January 1, 1898, is the biggest offer ever made to readers. All Nebraska legislature, the congresses and the inauguration of a new president. Never since the war has so many incidents of vital interest to the masses been crowded into sixteen months, as there will be during this period. The Semi-Weekly Journal is almost as good as a daily. Send your order direct or give it to your postmaster.

### The Populists Sold Out.

THOMSON, Ga., Oct. 14.—Ulcerated throat will prevent my keeping appointments, I greatly regret this. The middle-of-the-road populists all over the union have my sympathy and admiration. They have been sold out and their party make a footnote for democratic politicians to wipe their feet on under hypocritical defiance of patriotism. The fusionists have abandoned principle and gone into the scramble for the pie counter. If Bryan is defeated it will be the fault of the traders in his party and ours, who have ignored the St. Louis compromise and tried to force the populists to vote for Sewall, the bondholders national banker, corporation plutocrat and "gold clause millionaire."—THOMAS E. WATSON.

The McKinley club meeting last Saturday night was a grand success. Having secured Judge Morris of Crete as speaker the opera house was secured for the occasion and notwithstanding the fact that the Bryanites tried to hold the forces at their club headquarters every chair in the large hall was occupied and many had to stand up. The singing by the ladies McKinley club was splendid as was that of the male quartettes and brought fourth rounds of applause. One of the most impressive part of the programme took place just before the speaker was introduced and was that of the presentation by Mrs. Smith, a very aged lady and mother of G. W. Hunter, a large and beautiful flag. The flag was presented in behalf of the Republican ladies of Loup City to the McKinley club. The presentation speech was followed by a short speech of acceptance from Mr. D. D. Grow, who, when he had finished was heartily applauded. Judge Wall, acting chairman of the meeting then introduced the speaker

and for two hours he addressed the people and poured hot shot after shot into the populist hard. He went deep into the money question and furnished absolute proof of all his statements. It was a master speech and caused the ranting blather skites who would distort the fundamental principles of our government to wince. It showed up the fallacies that they have been teaching and exposed their false statements regarding the so called "crime of '73."
