AT THE COUNTY SEAT.
GEO. E. BENSCHOTER,
Editor and Publisher.

TERMS—\$1.50 per Year, if Paid in Advance

Mailed at the Loup City Postoffice for transmission through the mails as second-class matter.

So many beautiful calendars and entertaining novelties have been issued by the proprietors of Hood's Sarsaparilla, that we are hardly surprised to receive this season not only one of the very prettiest designs in calendars but with it copons which entitle the recipient to attractive novelties.

If more men planted sugar beets it is reasonable to suppose that more sugar beets would be raised. If there were more acres of sugar beets planted, less acres would be planted to corn, that is certain. If there were less acres planted to corn, less corn would be raised. If less corn was raised, what was raised would command higher price. So you see sugar beet culture means not only profit from the beets, but profit from the increased value of other products. Can't you see the point?—York Republican.

The annual meeting of the Beet Sugar Association will be held in the city of Hastings, Nebraska, on February 2 and 3, 1897 commencing at 2 o'clock P. M. Tuesday. Among the object of this meeting is to device ways and means for securing additional sugar factories so that farmers disposed to diversify their products by the means of sugar beet culture, will have a market for them. Officers of the State University, the State Board of Agriculture, the State Horticultural Societies, Irrigation Associations or Companies, the State Dairymen's Association, the state Federation of labor County or local Agriculture or Horticultural Societies, Boards of Trade, Commercial Clubs, the State Normal School, Private Denominational Colleges, Labor Organizations and Farmers Institutes are invited.

The new county board of supervisors, namely: M. Rowolinski, of the 1st district; J. P. Leinenger, of the 2nd; S. N. Sweetland, of the 3rd; L. Bechthold of the 4th; Henry Dunker, of the 5th, Peter McKeon, of the 6th, and I. W. Barnes, of the 7th, met last Tuesday, Wednesday and Thursday of this week and organized by re-electing Mr. Leinenger to the chair and transacted a large amount of business. In fact they did more business in the three days than the thirteen supervisors used to do in five. In the matter of county printing, the NORTHWESTERN, as is the usual custom under the pop management, got a black eye although our bid was clearly \$10.00 lower than that of the Times. Under the pretence of economy, and at the dictation of county clerk, both bids were rejected. This gave the publishers an opportunity to bid again, and as the Times made a big cut on the one item of bar dockets, its bid was of course lower than ours, and was awarded the contract, getting full legal rates for everything else. It seems to make a difference whose bid is the lowest when it comes to the letting of the contract.

Something for Nothing.

In addition to giving two papers each week the Semi-Weekly State Journal now gives to each person sending \$1.00 a free premium. You can have your choice of the Toledo Blade or New York Tribune. Or you can have two of these papers free: Poultry News, News Breeder Farm News and Woman's World. Hundreds of other free premiums such as a splendid Atlas, State Journal Almanac, United States History etc. Send Postal card request for premium list. You should read the Journal during the legislature no matter what other paper you read at other times. You must send your money direct to the State Journal, Lincoln Nebraska to get any of these free premiums.

Do Expositions pay.

Will the Transmississippi Exposition be a paying investment? This question is being asked by almost everybody, and especially by members of our legislature. The tidal wave of migration which began to turn westward in the 70's was not an accident nor was it a natural overflow of people out of thickly settled states. Those who are familiar with the facts know that it was the result of organized effort on the part of the great railroads which had become possessed of millions of acres of land, worthless unless it could be brought under cultivation by thrifty settlers. Millions of dollars were expended in advertising homes for the homeless in Kansas and Nebraska, and later on in the Dakota. Special Excursion trains were run, agents were sent abroad to advertise the transmississippi country far and wide as "the future great," and it proved to be a very judicious investment.

The Transmississippi Exposition is the greatest advertisement that has ever been attempted for Nebraska, as well as for the States beyond the Rockies. It is not a visionary sky rocket scheme but a well planned and well matured effort to give the widest possible publicity to the advantages offered in this section to capitalists and homeseekers who have money with which to buy land and engage in industrial enterprises.

A moderate estimate, places the number of people who will visit the fair at from 2,000,000 to 3,000,000. The lowest amount which these people will spend at the exposition is \$10 per capita. That means from twenty to thirty millions of dollars of money passing into Nebraska through the gates of the exposition. But \$10 each is a very low estimate. Thousands will remain throughout the fair, each of whom will spend from \$2 to \$5 per day and thousands upon thousands will pass beyond Omaha to the Rockies and the Pacific coast. It is safe to compute the fair will bring about the circulation of 100,000,000 in the transmississippi country which will be expended for transportation, in the purchase of supplies and in permanent investments. Thousands of people who visit the exposition will not stop at Omaha, but, having traveled that far, will venture beyond and take in such parts of the country as afford the most attractive field measured by the exhibits at the fair.

What will Nebraska get out of it? First and foremost it will bring millions of dollars into the metropolis that will be paid out to supply food and drink for man and beast. Who will feed the multitude? The people of Nebraska. The erection of great buildings and the public improvements in Omaha will afford employment to thousands of workmen, and they in turn will become profitable consumers of the products of the farm, orchard and garden. By far the greatest and most lasting benefit will be the investment of capital in factories and mills and the advance in property values that will precede the holding of the exposition and continue permanently with the tide of prosperity which will flow in the wake of the exposition. The increase in property values in Omaha will lift the burden of taxation off the balance of the state and make more valuable the property of a large portion of the region tributary to the city. In this way alone the total outlay incident to the exposition will be returned to the people of Nebraska within a few years.

It is a matter of history that the Centennial exposition of 1876 increased the population of Philadelphia by from two to three hundred thousand. The New Orleans exposition of 1884 was like a trumpet of Gabriel to the dead. It resurrected New Orleans which had for years been going downward, aroused its citizens to make marked improvements in its streets, buildings, parks and suburbs.

From that time to this New Orleans has continued to prosper and grow.

The Columbian exposition increased the population of Chicago by fully half a million and it added not less than two hundred millions to permanent property values in Chicago. Within five years the colossal buildings in the world have been erected in Chicago. There is no parallel to the wonderful advancement made by Chicago since preparation for the Worlds fair began. No other City in the World has experienced such a marvelous transformation within a similar brief period. The crash of 1893 did not seem to affect Chicago because the flood tide of money was pouring in from all the adjacent states and from remote parts of the world.

The San Francisco Mid-Winter fair followed closely upon the heels of the Columbian Exposition, and, although it was practically confined to California it proved to be financially and economically a great success. It panned out as well as any other investment on the Pacific coast. With these facts before us there can be no question that the great west with its limitless energy and its resistless push, will in 1898 present an exposition to the world the success of which will more than justify the most liberal appropriations this and the other western states may make.—Omaha Bee.

The Nebraska Legislature.

It is a recognized fact among Nebraskans that no matter what other daily paper they read at other times, during the legislative sessions they must get the Lincoln State Journal if they want all the news. The Journal is right on the ground can get the latest doings of the law makers and frequently gives the news one day earlier than the Omaha papers. The Journal's Washington Correspondent, Mr. Anna keeps the Journal readers thoroughly posted on matters of interest to Nebraskans that are happening at the national capital. The Journal is mailed at 50 cents per month without Sunday or 65 cents per month with Sunday. It is a great payer.

Comfort To California.

Every Tuesday evening, a tourist sleeping car for Salt Lake City, San Francisco and Los Angeles leaves Omaha and Lincoln via the Burlington Route.

It is carpeted; upholstered in rattan; has spring seats and backs and is provided with curtains, bedding, towels, soap etc. An experienced excursion conductor and a uniformed Pullman porter accompany it through to the Pacific coast.

While neither as expensively finished nor as fine to look at as a sleeper, it is just as good to ride in. Second class tickets are honored and the price of a berth, wide enough and big enough for two, is very reasonable.

For further information see
A. F. WERTS, B & M Agent.

To cure all sores, to heal an indolent ulcer, or to speedily cure piles, you need simply apply DeWitt's Witch Hazel Salve according to directions. Its magic-like action will surprise you. Odendahl Bros.

The old lady was right when she said the child might die if they waited for the doctor. She saved the little one's life with a few doses of One Minute Cough Cure. She had used it for croup before.—Odendahl Bros.

Absolutely pure, perfectly harmless and invariably reliable are the qualities of One Minute Cough Cure. It cures colds, croup and lung troubles. Children like it because it is pleasant to take and it helps them.—Odendahl Bros.

Awarded Highest Honors,
World's Fair.

DR. PRICE'S
CREAM BAKING POWDER
MOST PERFECT MADE.
A pure Grape Cream of Tartar Powder, Free from Arsenic, Alum or any other adulterant.
40 YEARS THE STANDARD.

THE BEST SPRING MEDICINE

Is SIMMONS LIVER REGULATOR—don't forget to take it. The Liver gets sluggish during the Winter, just like all nature, and the system becomes choked up by the accumulated waste, which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your Liver now, but be sure you take SIMMONS LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated. You get THE BEST BLOOD when your system is in A1 condition, and that will only be when the Liver is kept active. Try a Liver Remedy once and note the difference. But take only SIMMONS LIVER REGULATOR—it is SIMMONS LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder, but take SIMMONS LIVER REGULATOR. You'll find the RED Z on every package. Look for it.
J. H. Zeifin & Co., Philadelphia, Pa.
