 The Loup City base ball team has gained quite a reputation since their last game with the Austinites. The Greely Center folks have advertised a game on celebration day between the club of their own town and Loup City team, seemingly without authority. Arcadia has matched a game with Loup City for the third which will be played at that place to-morrow, and last but not least Litchfield come to the front with a challenge to meet us on the Loup City diamond on Monday July 5th. It seems that our boys have made other engagements for that day, but they are making an effort to have them meet the Austin nine here at 10 A. M. Loup City and Litchfield will probably cross bats later in the season.
 The Deering people started two train loads of binding twine out of Chicago last week. The contents of these trains are now being distributed over the southern portion of Nebraska and two more will follow to supply the demand in the northern part.

The supporters of the move to cut down all the rest of the teachers wages and leave the principal's wages at the highest notch met with a just rebuke at last Monday's school election. It is known that the principal, only had an average attendance of about fourteen pupils while the rest of the teachers had from thirty to forty-five and consequently twice as much work to do and were on their feet from morning till night while the principal had two easy chairs to support him, one stationed at one end of the room and one at the other, and in order to make his work still lighter abandoned the use of that all important book, Arithmetic, from his room entirely. The next move the new board should make is to readjust these matters. Will they do it.

 A correspondent to the State Journal has the following to say: "An old Irish woman came to me one day with a story. She had agreed to loan her team to a neighbor so that he could haul his corn to market if he in return would perform the chores about her place. She was a widow and had no children to keep her. The man took a shine to the lady, but she would have none of his attention. Love changed to hate and they had a fight. The woman had the man arrested for assault and he then sued for the amount due him for work. The trial was before a county justice whose knowledge of law was somewhat limited. I put a counter claim for damages over which the justice had no jurisdiction. He did not see it in that light however and gave me judgement. I collected \$70 from the man after his claim for work was taken out. Some one could write an interesting story on practice before county justices.
 For the meeting of the National Educational Association at Buffalo in 1896 the excellent service given by the Union Pacific was commented on by all those who had the pleasure of using that line. This year our educational friends meet in Milwaukee, Wis. July 6th to 9th, and members of the association and others from points west of the Missouri River, should by all means take the Union Pacific.
 The service of the Union Pacific via Omaha or Kansas City is the very best. The equipment consists of handsome day coaches, chair cars, pullman buffet and drawing room sleepers, dining cars and buffet smoking and library cars. Fewer changes than via any other line. One fare, plus \$2.50 for the round trip will be the rate from all points west of the Missouri River for this meeting.
 For illustrated matter, folders, etc., call on or write.
 Wm. D. CLIFTON, Agent.
