THE AMBITION OF JAPAN EN-LAEGING.

she Wants Now to Control the Nicaragua Canal-Negotiations Said to Be in Progress With the Greater Republic of Central America-Duty of the United States.

### Japan's Latest Dickering.

NEW YORK, Sept. 3.-A special to the Herald from Washington, says: "Japan, not content with interference with President McKinley's Hawaiian annexation policy, now has designs upon the Nicaraguan canal. According to semi-official advices just received here from Nicaragua, the Japanese government is secretly negotiating with the Diet of the Greater Republic of Central America, which recently met in San Salvador, for the construction of the Nicaraguan canal, independent and in defiance of the interests and influence of the United States or other nations.

"This action of Japan, taken in connection with her recent attitude in regard to Hawaiian annexation, is of the greatest significance, showing, as it does, to the authorities that there is no limit to the ambition of the nation, and her aggressive policy may yet get her into trouble with the United States. That the Administration will resent any interference with the Nicaragua canal project, as it did in the case of the Hawaiian annexation treaty, goes without saying.

JAPAN'S SECRET DICKERING. "If Japan can encompass it, according to the Nicaraguan advices received here, she would like to obtain the abrogation of all treaty rights possessed by the United States in relation to inter-oceanic transit and the forfeiture of the American canal concessions from Nicaragua, and to immediately make a treaty with the Diet of the Greater Republic of Central America, giving her control of the canal route through Nicaragua. In the negotiations Costa Rica has not been consulted, it being well known that she would not assent to a violation of treaty rights.

"It has been suspected in some quarters that England, which has always been anxious to acquire at might be working in collusion with now understood to be in progress, but nothing has yet come to the surface to that if he raised his head or chest agent of the Nicaragua canal here has the State department be apprised of the secret negotiations that are now being carried on between Japan and the Diet. Senor Zelaya, the president of Nicaragua, it is understood, has admitted to close personal friends that Japan is negotiating with the Diet, but in each case he advised the strictest secrecy.

IS NICARAGUA PLAYING FALSE? "A private letter just received in this city from Nicaragua says: 'Among Americans in Central America the belief is general that the Greater Republic of Central America, which is rephealth. He leaves a wife and one Dut composed of three members (one each from Nicaragua, Salvador and Honduras) was organized principally in order that Nicaragua might absolve herself from individual responsibility as a nation, and thereby abrogate her interoceanic transit treaty with the United States The so-called Greater Republic, resenting the failure of the United States to recognize ceiving Senor Rodriguez as minister) and its failing to accredit a United States minister to the Greater Republic, is likely to try and make a treaty with Japan, granting her concessions for the construction of the canal. The United States minister here believes that when this news reaches Washington the State department will send a note to Japan asking if she is seeking to interfere with our treaty rights in the premises. ## KLONDIKE A LOTTERY.

Thousands Find Nothing -- About 200

Out of 4,000 Have Made Strikes. SAN FRANCISCO, Sept. 3 .- A letter dated Dawson City, July 26, from Charles Haines, a well-known newspaper writer, was received here yesterday. It is the first letter written by a trained newspaper man to come out of the Klondike gold regions. He savs:

About me are scores of men who can weigh their gold by the backetful, and who value their claims at millions. Four hundred valuable diggings are stretched along the creeks and in every diggings there is a fabulous mine of gold, yet there are weary men who have gone and returned to Dawson after searching the great country hereabouts, and never a nugget do they show for their toil, their long tramp over the broken ground into a country whose disadvantages are exceeded by no other place on earth. This Alaska Northwest territory is an odd prize drawing proposition that I can liken to nothing that admits of a better comparison than a lottery. A number of spots are selected on the creeks and rivers and for one year the miner labors. The year closes, the water runs, and the season's output barely pays expenses. Not two miles away from the unfortunate one works a man who has taken from an uninviting bit of earth a sackful of gold. The lucky one did not strike the pocket because of his ability as a miner; chance favored him, and that was all. In short, the miner guesses at it and locates any and everywhere. In nineteen cases out of twenty he misses it, and has to wait another year for a new trial. Dawson is merely a collection of log huts, saloons and a mass of tents, about 600 in number. When the long nights come and the glass goes down to 65 degrees below zero, there will be intense suffering here, and I shudder to think of the results.

## IN BED FOR 21 YEARS.

Case of Joseph M. Lilly, a Missour Farmer, Recalled by His Death.

Сиплисотив, Мо., Sept 3.—Joseph M. Lilly, a wealthy farmer of Jack-son township, died last night, aged about 64 years. He retired, after a hearty supper, at 9 o'clock. An hour later his wife found him dead. In 1868 Mr. Lilly told his friends least a joint control of the canal, that he had heart disease, and in the autumn of that year took to his bed Japan in the 'dickering' with the Diet and lay prone there for twenty-one years, telling his physician and friends indicate that she has encouraged above a slight angle he would instant-Japan in the move. It is said that the ly expire. Nothing could expel this idea from his mind, and his family laid the facts before Mr. Hitchcock, had to make the best of the the president of the canal company, in situation. His general health was New York, with the suggestion that good, but it was not until late in 1889 that he could be induced to get up. Once during that time his dwelling caught fire, but he refused to move and was carried out on his cot. At last he announced that he had worn out his ailment, and ventured to get out of bed, and was assisted to walk across the room. Since then he has been up most of the time managing his business affairs, for he was a shrewd business man, and grew rich even while lying in bed.

A few weeks ago he had a slight shock of paralysis, but rallied, and up daughter about 20 years old.

# PRESIDENT AT A KEUNION.

Mr. McKinley Meets With His Old

Regiment at Fremont, O. FREMONT, Ohio, Sept. 3.-The reunion of the survivors of the Twentythird regiment of Ohio Volunteers infantry was held here to-day and President McKinley, who was a member of this regiment, and other notable survivors were present. The sunrise salute was followed at 10 o'clock by the presidential salute, and from that time on the soldiers were enjoying themselves. Twenty years ago the regiment held its reunion here and the corner stone of the city hall was laid upon the site of Fort Stevens. The late President Hayes presided and President McKinley was orator of the day. The attendance to-day is greater than on that occasion. At noon there was a grand parade and at 2 o'clock the exercises began in Spiegel grove, which adjoins the Hayes mansion.

## THE HAWAII TREATY

THE AUNEXATION MATTER TO BE RUSHED.

Extra Session of the Hawaiian Legisla ture Called for September 6th to Ratify the Treaty-McKinley to Call Congress Together Two Months Earlier.

#### Hawaii for Annexation.

SAN FRANCISCO, Sept. 2.-The steamer Australia, which arrived from Honolulu to-day, reported that Franeis M. Hatch, minister to Washington, arrived August 20 with special inform ation which will require the attention of both government; and senate. A notice has already been issued to the members of the latter body calling upon them to meet in extra session September 6 to ratify the annexation treaty recently signed in Washington, and, as a majority of the members favor annexation, the matter will be

rushed through. A Senator is authority for the statement that Minister Hatch brought word from President McKinley that he had resolved to call Congress two months earlier than usual for the purpose of disposing of the treaty before the regular session, and this theory appears to find favor with other Sen;

Another matter to be considered by the Hawaiian Senate is that of rendering assistance to the executive in unraveling the Japanese muddle, as it is said that Japan's acceptance of the offer of arbitration is so vague that the President and his cabinet are in a quandry. There are rumors of a split in the cabinet over the question, and it is said that the intervention of the Senate is required to prevent an open rupture.

The Hawalian Star declared that call had been issued for a mammoth demonstration September 14 against closer political union with the United States. Senators Morgan and Quay are expected to arrive from the United States that day, and the object of the anti-annexationists is to impress them with the feeling upon the question.

The United States ship Bennington arrived from San Diego August 24 after a run of nine days.

## MR. VEST EXPLAINS. Writes a Letter in Reply to that of

Comptroller Eckels. SEDALIA, Mo., Sept. 2.-United States Senator George G. Vest has addressed the following letter, under date of August 26, to Congressman James Cooney, of the Seventh Missouri district, in reply to the recent letter from James H. Eckels, comptroller of the currency, stating that Senator Vest had requested that the proposed examination of the Sedalia First National bank, in March or April of 1894, be deferred until certain of the bank's assets could be realized upon. The letter is as follows:

"In March, or April, 1894, Messr. Cyrus Newkirk, president of the bank and J. C. Thompson, the cashier, wrote me that an examination of the bank was about to be made before the time fixed by the established rule of the comptroller, and that, on account of a false report put in circulation by failed, and the additional fact that, on account of the stringency prevailing. they were unable to collect, there was danger of a run on the bank if an examination was made before the regular time. They stated that they would realize a large sum from the assets of the bank in a few days, and that the institution was entirely solvent. They requested me to lay these facts before the comptroller of the currency.

"Believing them to be honest men and that their statemenis were true. I went to the treasury department and placed their communication before the comptroller or his deputy, I do not now remember which. I made no request, but simply said the failure of the bank would be a great calamity to Central Missouri, and that I hoped it could be prevented; that I knew nothing personally about the matter and had no connection nor interest with nor in the bank or its officers.

"I never had any dealings with the bank, and was active in organizing the Citizens' National bank of Sedalia, against the persistent opposition of the First National. While Mr. Thompson was connected with my family by marriage, we were never friends nor in any way connected in business. My conduct in this transaction was dictated by a sense of public duty, and I would have done the same thing for any constituent. I have no apology to make, and hope there will be the fullest investigation.

## DEBS' SPEECH.

It Took the St. Louis Labor Conference

by Storm-Radical Sentiments. Sr. Louis, Mo., Sept. 2.—The conference of labor leaders of the country finished its work last evening. The meeting was productive of several sensational speeches and many resolutions, yet no decisive action was taken in the principal matter for which the gathering was summoned the abolishment of "government by

injunction." The convention, which had been announced as the last one of its kind to be held, while adjourning sine die, has merely postponed action on the matters before it for three weeks, as a effect that Enrique Mathus, the wellcall for a similar conference, to be held in Chicago, Monday, September 27. was issued.

Mr. Debs and Social Democracy dominated the convention, and the famous leader carried the gathering off its feet in one of his characteristic speeches. He said in part:

"Never in my life have I been more hopeful than now. I am not gifted with great vissionary powers, but I can see the beginning of the end. (Cheers.) This meeting is an inspiration. It will lead to great results. This movement has attained tremendous impetus and will go ahead with a rush. When the people are ready, and that day is not far off, my friends, there will be a spontaneous uprising, the supreme court will be abolished, congress dispersed and the sacred rights of American citizens and Amercan freedmen will be enthroned.

(Great applause.)

'I plead guilty to the charge of being radical. I only wish you would allow me to be more radical still. Support us, gentlemen of the convention, and I promise you we will sup-port the attempt to abolish government by injunction and the judges

who issue them.
"On bearing arms: I hope in this march of common intelligence we will reach a point where we will be able to settle these questions without appeal-ing to the sword or bullet. I can not tell. Certain it is there are thousands of our fellow-citizens suffering, and certain it is this can not last. The time will come to incite the populace. When this time comes you can depend on me. (Cheers.) I will not stand in the rear and ask you to go ahead. I will be in front and say to you, 'Come on.' (Renewed cheering.)
"I shrink from that bloodshed, "and

Mr. Debs paused impressively, but if this is necessary to preserve liberty and our rights—in that event I will shed the last drop of my blood that courses through my veins. (Outbreak

of cheering.) "The people are ripe for a great change. All they lack is direction and leadership. Let this conference supply it. Let this conference set the pace. Announce to the world that it will temporarily adjourn for three

weeks to renew preparations. Ask every man to pledge himself to be there; come if you have to walk; no man has a right to plead poverty. Mr. Debs went over the conditions existing in Pennsylvania, and when he finished with that state took up West Virginia. West Virginia, he said, had more government to the square inch than any state in the union, and that meant less liberty. The less govern-ment, the more liberty—the only perfect government was no government at all. In conclusion, Mr. Debs said: "My friends, assert yourselves; en-force your cause. Let every man who can be as good as his word stand
