

A MISSIONARY MEDICINE.
Cleanliness begins within. If a man isn't clean inside, he is far from Godliness. A contaminated sinner is a stench in the nostrils of the Deity. A man whose food sores in his stomach, and whose liver is laden, can't help looking at the world hatefully with jaundiced eye, and conjuring up evil thoughts in his tortured brain. Cleanliness of person begets cleanliness of thought. Cascarets, Candy Cathartic are the missionary medicine which purifies men's bodies and minds. Pure, fragrant, palatable, mild and positive, they clean out the intestinal canal, stimulate the liver and strengthen the bowels. Then a man enjoys again feeling of charity and brotherly love for his fellows and recommends others to take Cascarets and be as happy as he.

Misunderstood.
Miss Romantic—"I do love birds. Are you not fond of them?"
Mr. Broker—"I should say I am. They make simply an ideal lunch; but we can't afford them any more. Business in the street has been running in a ham-sandwich streak lately."—Smith, Gray & Co's Monthly.

When you visit Omaha you should call at C. S. Raymond Co's jewelry store, corner Fifteenth and Douglas streets, and examine their jewelry and art goods for wedding, birthday and Christmas presents, also steel engraved wedding stationery, invitations and visiting cards. It is the only first class, up-to-date jewelry, art and cut glass store west of Chicago and St. Louis. Engraving and printing 100 visiting cards \$1.50 by mail.

The Lemonade Did It.
Only four men have ever made enough money out of the circus business in this country to be able to retire and live on their income, while hundreds have been financially used up. It is believed that red lemonade at ten cents a glass exercised a baleful influence on the great majority.

Drawing the Line.
A native New Zealander was induced to wear a shirt, a paper collar, shoes and a hat, and he almost concluded to eat with a knife and embrace Christianity. Then they asked him to wear suspenders and he went out and hanged himself. It was pushing civilization too fast.

Try Grain-O.
Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. 1/4 the price of coffee. 15 cents and 25 cents per package. Sold by all grocers. Tastes like coffee. Looks like coffee.

SCIENCE OF HERALDRY.
The Crest Is the True Badge of Chivalry and Nobility.

The real meaning of a crest seems quite obscure to many people. The crest is, in fact, simply the ornament on the top of the helmet worn by a commander, and is to distinguish him in the confusion of battle, says the Philadelphia Times. The mantle is the covering of the helmet, and is as inappropriate as the crest for ladies' use, excepting only persons who use it as a robe of estate. Helmets are of five kinds, varying according to rank. The crest is always, unless specially stated otherwise, placed upon a wreath upon the top of the helmet, and is always painted thus. The crest was in use long before armorial bearings were, and is the true mark of chivalry and nobility. Achievements, shield of arms, escutcheon and coat of arms are one and the same, although achievements are usually applied to "those funeral escutcheons which being placed upon the fronts of houses or elsewhere set forth the rank and circumstance of the deceased." A man's coat of arms is always painted upon a shield, with supporters and crest, if entitled to a crest. A coat of arms was "a habit worn by the ancient knights over their armor, both in battles and tournaments, upon which was applied the armories of the knights, embroidered in gold and silver, and enameled with herten tin, colored black, green, red and blue, whence the rule ever to apply color on color, or metal on metal." The achievements of married women are arranged precisely as their husbands', without the helmet, crest, mantle or motto, the ground always painted black under the wife's and white under the husband's. Spinster's and widows' arms must always be painted upon a lozenge. "The achievements of widows differ from wives' in two respects—the escutcheon is lozenge shaped and the ground is entirely black. The arms should be encircled by a silver coronet." This coronet is the badge of widowhood, and, of course, should never be used by unmarried women, though some outside make the mistake of painting it around the arms of spinsters. "Shells, cherubian heads and knots or bows of ribbon are often placed about the arms of women, whether spinsters, wives or widows." If an unmarried woman is a peeress her "supporters' robe of estate and coronet" may be added to her arms. There are now nine different crowns or coronets used in England, flower-de-luce, strawberry leaves and balls forming their varying ornamentation, according to the varying ranks. Our American duchess of Marlborough is entitled to her coronet, but she may not use a crest.

CHICAGO A ROARING RIVER.
Scientists Predict That State of Affairs For 4897.

Prof. Spencer's address before the members of the American Association for the advancement of science at Detroit last week attracted great comment at that assembly. He made a prediction, based on figures which he presented, that the course of the lakes was being changed, and that in time Detroit would be good fishing where the city hall now stands, and shortly after the waters of the lakes would be pouring over Chicago toward the Mississippi, and Niagara Falls would cease to exist. Prof. Spencer said that he agreed with Prof. Gilbert that there was a gradual upward tilting of the earth's crust at the northwest, and this discovery showed it was the cause of the closing of the Ontario basin. By data showing that the shore line of the lakes was changing and the waters were gradually rising at the rate of about an inch in ten years to the southwest, he demonstrated that the whole lake region was being tilted in that direction. He said this would seem of trifling importance, but it was really a serious matter for Chicago, because that city stands on a low plain. The work of cutting the Chicago drainage canal, he said, was a mere anticipation of nature, for the tilting of the lake basin would have produced the same result in less than a thousand years. Prof. Spencer demonstrated by figures that at one time the Erie basin emptied, not by the Niagara river, but by a buried valley, directly into the head of Lake Ontario, and that Niagara river and falls were modern features. He also showed that the gorge near the falls was eating its way backward at a rate of over a foot a year, and that in the course of a few lifetimes it would wipe itself out. He and Prof. Gilbert agree that the calamity which will bury all lower Michigan and make a broad river through Illinois will not occur until 4897.

Simple Directions.

Visitor—I would like to get you to teach me to sail a boat. Boatman—Sail a boat! Why, it's easy as swimmin'. Jest grasp the main sheet with one hand an' the tiller with the other, an' if a flaw strikes ease up or bring 'er to an' loose the balyards, but look out for the gaff an' boom or the hull thing'll be in the water an' ye'll be upset; but if the wind is steady ye'r all right. "Ainss ye'r too slow in luffin', cause then ye'll be upset sure. Jump in an' try it; but, remember, whatever ye do don't jibe!"

JAPAN'S GREAT ENTERPRISE IN AMERICA.

LARGE APPROPRIATION BY IMPERIAL DIET.

TO INFORM AMERICANS HOW TO MAKE TEA.

Several months ago, the Japanese Tea Guild sent to this country a special commission, composed of Mr. S. Mitsuhashi, president of Shizuoka Prefectural Assembly, and Mr. J. Ohara, member of Japanese parliament, to investigate the condition of the Japanese tea trade in the United States and Canada, and to co-operate with Mr. T. Furuya and Mr. T. Mizutany, the American representatives of the Japanese Tea Guild, in giving publicity to the merits of Japanese teas and the method of preparing them for drinking which would insure the best results.

Mr. Furuya and Mr. Mizutany are planning to open tea bazars in many of the principal cities in the United States and Canada, where ladies can enjoy a cup of fine Japanese tea made by experts, and at the same time receive instructions which will enable them to make it equally well at home. More than half the tea consumed in the United States and Canada is of Japanese growth, yet the majority of Americans apparently do not understand how to prepare it so as to develop the delicious qualities which it contains. It is believed by these gentlemen that when Americans are in possession of the secret of making good tea, the consumption in this country will fully equal that of Europe in proportion. The Japanese government has appropriated a large fund to aid the Japanese tea growers and tea merchants in prosecuting this educational work, and it is hoped that American ladies will be apt students. The main bureau of the Japanese Tea Guild has issued an official recipe for making Japanese tea, the translation of which is as follows:

- First—Use a small, dry and thoroughly clean porcelain teapot.
- Second—Put in one teaspoonful of tea leaves for each cup of tea desired.
- Third—When using Japanese teas, pour on the required quantity of fresh boiled water, and let stand with closed lid from 2 to 3 minutes. Never boil the leaves. In order to retain the natural flavor, Japanese tea leaves should be kept in tight can or jar, free from moisture.
- Note—To thoroughly enjoy the natural, delicate, and sweet flavor of Japanese teas, neither sugar nor cream should be used.

No Through Cars Wanted.

This old darkey was wandering about among the trains in the depot with a carpet sack in his hand. He was accosted by an employe with:
"Where you goin' uncle?"
"Ter Pittsburgh, sah."
"Want a through car, I s'pose?"
"No, sah, don't! Las' kyar I rid in went froo, an' cum nigh killin' me. Los' my hat."
"How's that?"
"Trussle warn't strong 'nuf. No, sah, I've huntin' de kyar dat don't go froo; I want de kyar dat'll git there wid me."
He was shown the right car, the old man got aboard and was soon on his way to the smoky City.—Louisville Times.

Danger in the Ballroom.

"What a beastly cold you've got, Sam! Where did you get it?"
"It's not a cold, it's hay fever. I got it dancing with that grass widow the other night!"

It Will Stick.

Here is a recipe for a paste which will stick anything: Take two ounces of clear gum arabic, one and a half ounces of fine starch and one-half ounce of white sugar. Dissolve the gum arabic in as much water as the laundress would use for the quantity of starch indicated. Mix the sugar and starch with the mucilage. Then cook the mixture in a vessel suspended in boiling water until the starch becomes clear. The cement should be thick as tar and should be kept so. It can be prevented from spoiling by the addition of camphor or a little of cloves.

Almost Inside Out.

The stomach that is not turned thus by a shaking up on the "briny wave" must be a well fortified one. The gastric apparatus can be rendered proof against sea sickness with that stomachic so popular among travelers by sea and land—Hostetter's Stomach Bitters. It defends the system against malaria and rheumatism, and subdues liver complaint, constipation and dyspepsia.
