While driving up the valley a short distance last Wednesday we were quite impressed with the sight of the freight train on the B. & M. line as she went at a rapid rate steaming up the valley to the northwest. Perhaps the sight was more impressive because we realled the fact that we, with many other pioneer settlers, spent so many years in this beautiful valley without a railroad. And then our mind wandered back to more recent date, when our citizens held the great brabece in honor of the adventin to our vi lley, of the iron horse. It was the largest crowd that ever has gathered, before or since, at the county seat.

Attorney-General Smythe seems to have a hard time of it getting the the Bartley-Moore cases into court. He has tried it several times and invariably has had to back up and ant than experience. "unnitch for dinner" and take a long enough nooning to enable his private secretary to amend the papers, which, after several trials are still wrong. The last heard of the case, Smythe had "unhitched" again. If he ever gets into court we predict that he will do about as well as our local county attorney and deputy did in the Nichols case, which, after an expenditure of several thousand dollars of the people's money, dismissed the case for want of evidence to convict. But such is the extravigance of popdom.

One of the smoothest political combinations that has ever been worked was successfully put through in Burt county during the recent campaign. A young lady was nomnated by the populists for county
