RESOLUTION PASSES BY 67 TO 21.

Free Cuba and the Independence of the Island is Now the Shibboleth.

SOVEREIGNTY IS NOT DEMANDED.

President to Use the Army, Navy and Militia to Carry Out the Decrees of Congress.

WASHINGTON, April 18.-The United States senate passed the following

resolutions by a vote of 67 to 21: Whereas, The abhorrent conditions which have existed for more than three years in the island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization, culminating, as they have, in the destruction of a United States battleship with 266 of its officers and crew, while on a friendly visit in the harbor of Havana, and which cannot longer be endured, as has been set fort. by the president of the United States in his message to congress of April 11, 1898, upon which the action of congress was invited; therefore

Resolved, by the senate and house of representatives of the United States

of America, in congress assembled: First—That the people of the island of Cuba are, and of right ought to be, free and independent, and that the government of the United States hereby recognize the republic of Cuba as the true and lawful government of

the people of that island.

Second—That is is the duty of the
United States to demand, and the government of the United States does hereby demand, that the government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban wat-

Third-That the president of the United States be, and he hereby is, directed and empowered to use the entire land and naval forces of the United States, and to call into actual service of the united States the militia of the several states, to such extent as may be necessary to carrry these res-

olutions into effect.

Fourth—That the United State: hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island, except for the pacification thereof; and esserts its determination, when that is accomplished, to leave the govern-ment and control of the island to its

people.
"Free Cuba and the independence of the island republic," was the shibbo-leth of the senate throughout the four days of debate, which ended Saturday

While the verdict returned was decisive, it is just to say that it was not final. Notes of discord, almost foreboding in their tone, were sounded. This foreboding was not due in any sense to anxiety about the result of the impending conflict. It was prompted for a fear lest, if the action taken by the senate should ultimately be accepted as final, this government might become involved in complications that in future years would prove

At 9 o'clock Saturday night the Dayis resolutions-those reported from the committee on foreign relations amended so as to include the recognition of the republic of Cuba-were passed by a vote of 67 to 21, as a substitute for the resolution adopted by the house of reresentatives.

an earnestness, energy, ability and elo-quence seldom equaled, even in the senate of the United States. From 10 o'clock this morning until the moment of the final vote the intensity of the interest did not abate for an instant.

Under the agreement limiting the duration of the speeches, except in cpecific instances, to fifteen minutes every senator who so desired had a. opportunity to express his views.

Before the voting had actually begun, after 7 o'clock tonight, the great speech of the day had been made by Mr. White of Canfornia, who has been constantly and conscientiously oppos, ed to action of any kind upon the Cuban question. Within six months these same powers will be urging the United States to agree to arbitration in order that our liability for Spanish-Cuban bonds maay be determined.

ACTION OF THE SENATE.

It Was the Absorbing Topic in Washington on Sunday.

WASHINGTON, April 18 .- Yesterday was exceptionally quiet in official circles, and on the surface at least there was no new developments in the Spanisa situation. The reports of Saturday's action by the senate were an absorbing subject of discussion, and the probability of what the house will do was uppermost in everyone's mind. For the first time in several weeks the president was able to devote Sun-day almost entirely to his family, and to resume his church going, which had been interrupted by important Sunday, conferences with the members of the

cabinet. In company with Mrs. McKinley and ome friends the president this afternoon went for a long drive thoroughly enjoying the country scenery, which, because of the spring-like weather, has

begun to put on its summer dress. Assistant Secretary Day was at the White House for a short time in the morning and saw the president. Vice President Hobart and Postmaster General Gary also called while the president was at church.

In the war and navy departments there was also lacking that evidence of activity and rush which characterized them for so many Sundays past. In the war department Adjutant General Corbin was at his desk for a short time in the morning. He said there had been no changes in the details for moblization of troops announced some days ago, nor any important assignments of officers. The proposals from railroads for transporting the troops from the various places where they are now located will be opened tomorrow, and the expectation is that soldiers in many instances will begin their journey south on the same day.

Assistant Secretary Roosevelt was at navy department for some time during the morning transacting matters requiring his attention. He had a visit from Commander Wilard H. Brownson, who has just returned to the United States from his visit abroad where he was sent to purchase men-of-war and munitions for the United States navy.

The commander is looking well bronzed and says he had an enjoyable trip, having spent practically all his time in Italy, France and England. He made a number of recommenda-

tions and reports to Secretary Long during his inspections abroad and will submit the final one to the secretary tomorrow. He asked to be excused from discussing the results of his trip pending his report to the secretary. Commander Brownson during his visit was able to guage the feeling which the European nations have for this country in its issue with Spain. Concerning the Englisamen, he remarked that their sympathy is for us and they are with us to a man. A great many Frenchmen sided with Spain, although the commander said his observations regaring them were based on reports only. Italy being one of the Latin countries, there is an element which sympathizes with Spain, although many of the commer-All day long the contest waged with cial classes, realizing that much of the trade of the peninsula is with the United states, look upon our contention with favor.

Commander Brownson says that owing to the uncertain state of affairs in Europe, growing out of the eastern question, in which most of the great nations are interested, very few really satisfactory war ships are to be found on the market, while in six months from now, when possibly no one will want to purchase any, no doubt some will be available. Unfinished ships and those of inferior quality were to be obtained if desired, but the government preferred not to purchase vessels

The commander will leave the city tomorrow for New York, where he is to assume command of the Yankee, to which he has been assigned.

St. Paul Goes to the Navy Yard. PHILADELPHIA. April 18.-The American line steamer St. Paul, which sailed from New York today for this city, passed in the Delaware capes this evening. It will reach Cramps' shipyard tomorrow and on Tuesday morn-ing the work of trasforming it into an auxiliary cruiser will be begun. It is estimated that this work will require about fifteen days. The stateroom will be pulled down and will either be enlarged to accommodate twenty or twenty-five men in each or being made into one large apartment similar to the berth deck on a man-ofwar. A large portion of its bulwarks will be removed, as well as the superdeck structures, in order to place the batteries.

Germany Shouts for Neutrality. BERLIN, April 18.-it is learned from an authentic source that Germany took the lead in urging the continental owners to maintain neutrality in case of war between the United States and Spain. The greatest resistence offered to Germany's proposals was from France and Austria, who ac quiesced only with the provision that Europe is to have something to say toward the end, or later, in settling the peace conditions.

Influence to Be Exerted on the United States for a Peaceful Conclusion.

Germany and Russia Indifferent to the Movement -- France and Austria More Active.

WASHINGTON, April 15 .- It was learned last night from high diplomatic quarters that an exchange of notes had begun between the European capitals with a view of making strong representations on the Spanish-American situation. In the same connection an informal meeting of the ambassadors and ministers in this city of the six great powers was held to day.

Several of the establishments re-ceived cable advices from theif gov-ernments last night as to the opening of the exchange of notes. This had been anticipated in view of the sentiment in all foreign quarters here that action thus far taken in congress made war inevitable. This common opinion had been officially reported to the several European capitals, and it was doubtless instrumental in starting the active exchange between the great powers today.

The same exchange occurred a week ago as a preliminary to the joint note of the great powers presented to President McKinley mildly urging a peaceful settlement with Spain.

It is understood, however, that the present movement is not of the same mild character as the former one.

Simultaneous with the opening of the exchange word came from Madrid the concerted action of the powers, and there is apparent agreement in advice that the appeal will receive favorable consideration.

It is said that Spain's appeal Will recite its grievances against the Uni-ted States, stating in detail the many concessions it has made, and pointing out that it was in response to the urpowers that the last concession of an armistice was granted.

If the powers determine to act their influence probably will be particularly directed toward inducing the United States to grant Spain sufficient time within which to try the armistice recently proclaimed. The influence of the powers was mainly exerted at Madrid; the only action at Washington was the courteous hope for peace.

But the present action was rather be exerted at Washington than at Madrid, and the common belief is that the Madrid authorities have reached the limit of concessions and should now be given adequate to try what they and the powers have offered as a means of restoring peace in Cuba. There is no suggestion, however,

that this influence at present will be of material character, but it is exepected to be an assertion of all the moral influence of the powers in checking tendencies which it is believed inevitably will lead to war.

abroad. It is not so certain that all the powers are ready for a step of this kind. Germany has of late shown a disposition against exerting strong influence on the United States. Russia is thought to be somewhat indifferent. France and Austria are most active in the present note, as they were in the former one. Not all of the great powers are ready to join in the concert. and it is felt that the force of such influence would be lost

The Spanish minister has not been officially advised up to a late hour tonight that the meeting of the Spanish Cortes had been advanced from April 25 to April 20. The press cables from Madrid were not doubted, as it was thought to be quite probable that present gave condition of affairs would lead to the assembling of the Cortes at the earliest possible date.

There is no doubt that the Cortes will prepare a budget adequate to the existing condition of affairs, which budget will equal the \$50,000,000 dewhich fense fund recently appropriated by congress. It is understood that the Spanish war budget is not likely to be less than 250,000,000 pesetas.

The address of the queen regent upon the opening of the Cortes is looked forward to as an important feature of Spanish-American affairs, as it is definitely known that the queen regent will deal with the existing

War Resolutions Present a Good Time for Oratory.

Mr. Hale (Me.) presented a memorial from the National Civic club of Brooklyn, calling attention to the necessity in the event of war with Spain, of repealing some of the present navigation laws. The laws as they are at present, it is said, will prevent our merchant vessels from sailing under a foreign flag, while every Spanish merchantman would be under the French flag.

A message was received from the house transmitting to the senate the Cuban resolution passed by the house. By unanimous consent, at the request of Mr. Davis, chairman of the foreign relations committee, the resolution yesterday reported by the for-

> Mr. Turner maintained that congress could not delegate to the president the power to make war. "The con-gress of the United States is the organized conscience of the country," he said, "and it is the only power which can take the dread step of war."

After vehemently attacking the president for the delays which had occurred in the sending of the message to congress, Mr. Turner charged that the delay last week was not due to the request of General Lee, but to the fact that Archbishop Ireland had cabled to the vatican in the hope that the pope might be able to bring about a peaceful solution of the difficulty. The president was waiting upon the pope and action taken to secure that which American diplomacy had failed to obtain. Mr. Turner ridiculed the diplomatic negotiations of the ad-ministration and demanded to know why congress wanted more of it. He declared that the state department, even with the support of the department of justice, was weak and una-vailing. At the Spanish end of our diplomatic line we had as minister a man whose desire for peace was so strong that he refused to obey the that the Spanish government was about to issue another appeal to the great powers of Europe. It is understood that the appeal is initatory to rid government might, eventually, for a suitable indemnity, absolve this country for blocking the harbor of Havana with the shattered hull of the Maine. He read several telegrams from prominent citizens of Washington in order to indicate the sentiment in that state. One from the governor declared that intervention without recognition of independence would be utterly unsatisfactory. Another from the colonel of the First regiment, Uniformed rank Knights of Pythias, which had tendered to the president its services in case of war, directed him to withdraw the offer, as it had been made under the impression that they would be called upon to fight Spaniards, not Cubans

Mr. Hoar followed Mr. Turner. He thought that it was not the time for impassioned rhetoric, loud declamation, the clapping of hands, and the stamping of feet, but rather it was the position of absolute deliberation that should command such a scene and such an occasion.

He then argued that the report of cruelty and oppression in the land of Up to a late hour tonight word had Cuba undoubtedly warranted some measures which would bring peace. but he doubted the wisdom of rushing about an honorable cessation of hos-

> Then, with a voice trembling with emotion, his head slowly shaking as the words came forth, he told how a captain of a company of infantry organized in the same town in which he was born, went forth in the morning of the revolution to hold the bridge at Concord, and said that he was in the same position as that captain.

Realizing the tremendous responsibilities of his high office he thought that whatever was done shoud be done with an eye single to the situation. He said he was born in a cold latitude, and consequently might look upon things in a somewhat different light; and then, with hand raised and a pro-found stillnes in the senate chamber, he made this significant remark: this country is to do a great act of international justice let us do it calmly and defiberately."

After several other senators had spoken the house resolution was re-ported to me senate, and on motion of Mr. Davis was laid on the table:

A vote was about to be taken on the motion to adjourn when Mr. Aliison called upon Senator Davis to arrange for an amicable adjournment if it could be orougat about, but the chairman, seeing adjournment was out o. the question, asked Mr. Wellington to agree to an amendmen, to adjoura to a specified time, which the Maryland senator accepted and a roll call demanded by Mr. Chandler. The sena e thereupon adjourned.
