Official Paper Sherman County

REPUBLICAN STATE CONVENTION.

The Republican electors of the state of Nebraska, are requested to send delegates from their respective counties to meet in convention in the city of Lincoln, on Wednesday, August 10, 1898, at 10 o'clock a. m., for the purpose of placing in nomination candidates for the following officers:

1. Governor.
2. Lieutenant governor.
3. Secretary of state.
4. Auditor of public accounts.
5. Treasurer.
6. Superintendent of public instructions.
7. Attorney-general.
8. Commissioner of public lands, and buildings.

And to transact such other business as may properly come before the convention.

Sherman county, is entitled to four delegates, the apportionment being based upon the vote cast for Hon. Albert J. Burnham, for presidential elector in 1896, giving each county one delegate at large and one for each 125 votes and major fraction thereof.

It is recommended that no proxies be admitted to the convention and that the delegations present be authorized to cast the entire vote of the delegation of the county which they represent.

It is requested that the county conventions select their committeemen and perfect their county organization at the first convention in counties in which two conventions are held.

DAVID H. MERCEB, Chairman.
ED. R. SIZER, Sec.

Free silver is a thing of the past. Annexation is the boog-a-boo that troubles the reformers now.

After the campaign of 1896, W. J. Bryan, wrote a book and called it "The First Battle. The question is will his second battle be with the Spaniards.

If the German Admiral, Von Deidrichs provokes an open rupture at Manila, he is altogether liable to be in the same position the Dutchman was that caught the bear asleep on a log and slipping up behind him caught him by the hind legs, flopped him over and held him fast for a spell. He will be calling pretty soon for some one to help let him go. Dewey is a bad man to fool with.

The Saturday Review (London) seems to be considerably surprised that the green Yankee soldiers could stand before the trained hosts of Spain and vanquish them as they did, and also seems to think that the United States should not presume to jump from a third class power to a first, all at one single hop. "Keep your shirt on" "Cousin Jack", the Yankees have surprised you twice before.

The Kansas papers say that the pops have levied a ten per cent assessment on all commissioned officers in the volunteer service of the United States, that were appointed as such by governor Leedy, that means ten per cent of their salary while in the war. It may be so but we know one commissioned officer among the Kansas troops at Manila, that they can't levy tribute on and collect it.

Two presidents asking the United States to annex their countries and thereby throwing them out of a job is rather a peculiar phenomena. President Dole, of the Sandwich Islands has labored for some years to that end, and for the past four years he has been the chief executive of those islands, yet he never ceased his agitation until he accomplished it. Now the president of the Porto Rican Junta, although never able to assume the reigns of government of his country, when he sees Spanish rule flitting, made the request that he be allowed to go with Miles to Porto Rico, to talk to his people and tell them to affiliate with our troops. He says if a popular vote could be taken today that nine tenths of the Porto Ricans would vote for annexation.

Tibbles, the literary "genius" of the pop party in Nebraska, is worrying himself into night sweats over the boggy of annexation, and has it figured out that by annexing Cuba, Porto Rico, and the Philippines we add 15 million people to our inhabitants and thereby reduce our money per capita 25 per cent. This is a very fine populist proposition and fully equal to the "Referendum" which sounds lofty for a pop stump

orator to dwell upon while the common herd don't comprehend the meaning of it, but like the little Jerusalem overtaker, it catches them going and coming. The people does not stop to figure that each of those countries will have a system of their own based upon the commercial interests of their province neither does he tell them that nine tenths of the inhabitants of these islands would subsist in first class shape on one tenth of the per capita that it takes for a man in the United States to live on. All of these countries are self supporting in times of peace besides furnishing annually a surplus revenue to support the domineering government of Spain. It is very doubtful if the great majority of the people of these islands possess \$25.00 in money per year. The United States will continue on the same lines she has heretofore, and our per capita will not be reduced one cent and the pop-doodles know it and the people who foolishly elected them to office won't be long finding it out either.

EXHIBIT OF LIVE STOCK

Cattle, Hogs, Sheep, Horses and Poultry at the Trans-Mississippi Exposition.

The exhibition of live stock at the Trans-Mississippi Exposition will be held from September 19 to October 20, and everything points to a large display. J. B. Dinsmore, commissioner of live stock, states that the correspondence received from intending exhibitors is far larger in advance of the date for the closing of entries than it was at the Columbian Exposition at Chicago. If Mr. Dinsmore's Expectation are fulfilled the exhibition of live stock at Omaha will be one of the finest ever given in the country.

A sum of \$35,000 was set aside by the directors of the Exposition to be awarded as cash prizes to live-stock exhibitors. The Union Stock Yards Company of South Omaha and a number of the breeders associations and other live stock organizations offered as premiums to live stock exhibitors being not far short of \$50,000.

The live stock exhibit is divided into six classes. Of these the poultry exhibits will be given first from September 19 to September 30. On Monday, October 3, the exhibits of cattle, horses (in which class are included jack, jennets and mules), sheep and swine will open to continue until October 20; and the fat stock will be shown from October 13 to 20 inclusive. Entries close for fat stock on August 15, and in all other classes on August 10.

Probably all of the northern states will be represented in the poultry exhibit. Correspondence has been received from prominent fanciers all over the country and the indications are that there will be a fine collection of birds.

Commissioner Dinsmore, is especially pleased with the prospects for exhibits in cattle, sheep and hogs. He says there will undoubtedly be not less than 1,000 cattle the same number of sheep and twice as many hogs. The inquiries come from all sections of the country north of the

Did You Take Scott's Emulsion

through the winter? If so, we are sure it quieted your cough, healed the rawness in your throat, increased your weight, gave you more color, and made you feel better in every way. But perhaps your cough has come back again, or you are getting a little thin and pale.

Then, why not continue the same helpful remedy right through the summer? It will do you as much good as when the weather is cold.

Its persistent use will certainly give you a better appetite and a stronger digestion.

It will cure your weak throat and heal your inflamed lungs. It will cure every case of consumption, when a cure is possible.

Don't be persuaded to take something they say is just as good.

SOUTH SIDE PUBLIC SQUARE.

Loup City, Neb.

quarantine line and from the Atlantic to the Rockies. The stock men of the central west are taking especial interest in the affairs and are doing all they can to make the exhibit of live stock a great success.

It is said there never was a time in history of cattle breeding in the United States when as much interest was taken in the grading up of stock at present, and the liberal prizes offered by the Exposition are proving a strong inducement to breeders to enter their stock. Thirteen different breeds of cattle are provided for in the premium list all in fact that were exhibited at the World's Fair at Chicago, with the single exception of the Sussex, of which there is but one small herd known in the United States.

The \$35,000 prize money offered by the Exposition will be distributed as follows: Cattle \$7,000 horses and mules \$8,000; hogs \$7,000 fat stock \$5,000; poultry, \$2,000. Money from other sources will mostly be devoted to special premiums.

NOTICE.

Notice is hereby given that all side walks within the village of Loup City, Neb. that are out of repair must be repaired by the owners forthwith, or the same will be done by the village and payment therefor, together with the penalty will be enforced with legal proceeding.

By order of Village Board. Done this 15th day of June, 1898.
T. S. NIGHTINGALE,
Village Attorney

The pop papers of this county are showing their colors. They cannot conceal their dissatisfaction at the success of the war under a republican administration. Many of them are so rabid that a defeat of American soldiers would be hailed with delight merely because they would see in it a defeat for the republican party. Nevertheless President McKinley is still making an enviable record for himself and his administration and will continue to do so under all circumstances.—Fall City Journal.

Trans-Mississippi and International Exposition.

Omaha June 1st—Nov. 1st, 1898. Greatly reduced rates via the O. R. & V. and Union Pacific to Omaha for the exposition. The superb equipment and quick time of this line makes it the popular line to Omaha and the Exposition. For advertising matter, tickets and full information, call on
