The reports of damaged wheat crop which has been circulated for several weeks turns out to be something of the nature of the reports of the over zealous correspondents at Santiago. Shafter's reports always come in later and generally changes the face of big stories materially. The farmers are bringing in their reports now and claim that the yield is good and the quality better than that of last year. There is some political "Leaders" that expect to profit by poor crops and circulate these stories for their own selfish ends. Oh would that the fates would so decree that these political poodles should live in the Ladrones for the balance of their listless lazy lives.

There was no one around the stable from the dinner hour up to the time of the happening. Adam Schaupp, one of our representative business men returned Tuesday from a three weeks visit to New York City and the capital city, Washington. This is really the first trip for recreation that Adam has taken for a number of years, having devoted himself strictly to his business. He accompanied his wife and children to her old home at Geneva, Indiana, where they will spend the summer months and enjoy an extended visit with friend and relatives. It can truly be said that Mr. Schaupp, is one of our best business men and none are more deserving of success in business, or of a pleasure trip than he. The house contained the same old furniture and the yards were picturesque. Mr. Schaupp also boarded an ocean steamer and sailed out a hundred mile or more. At New York he took in the big sights and returned home feeling all the better for having taken a few days off from the cares of his extensive business. In going Mr. Schaupp and family visited the Exposition at Omaha.

INSTITUTE WORK.

The teachers Institute which is now on and which will close this week has been very successful. Fifty-six teachers were enrolled, most of them being ladies. Our representative visited the afternoon session last Tuesday and noted the deep interest taken by both the instructors and attending teachers. Superintendent G. S. Leininger, has been present throughout the session, and whenever, and wherever possible, has helped his able corps of instructors to interest and instruct their pupils and entertain the many visitors. The instructors, Prof. J. A. Hornberger, of Naperville, Ill. and Margaret Cleiong, of Beatrice, Neb. and Prof. Nicolson, of Loup City, well understand the arts and methods of teaching and gave some very good lessons along that line. Mr. Hornberger, gave a lesson on the subject of education. He first spoke of the stereotype method of teaching school which he claimed was, in many instances of no good to the pupil, explaining that there were so many children of different temperament and character that the same method which may be applied to one with good success will not suit in another case. Other equally as good lessons were brought up and impressed upon the minds of his pupils. Miss Cleiong, gave some interesting lessons in teaching the primary schools. Her suggestions were received with interest and her explanations were clear. On Monday evening the members of the institute and people of the city had the pleasure of listening to a lecture at the M. E. Church, delivered by the state Superintendent and on Wednesday evening Prof. Hornberger lectured. Both lectures were instructive and highly entertaining. Following is a list of teachers in attendance:

Central Committee Meeting. The members of the Republican county central committee met at the office of A. Wall in this City on July 23 the committee man from this twp. being absent W. J. Fisher was elected in his place and also made Secretary of the meeting. The principle object of the meeting was for the purpose of deciding whether to call a county convention before the state convention or whether it would not be better to have the Delegates to the State convention elected by the central committee and call a convention later, as this is right in the midst of harvest and after a thorough discussion upon the subject by the members of the committee it was decided that it would be better for all parties concerned to have the county committee elect delegates for the state convention and as soon as it could be ascertained when and where the Congressional and Senatorial conventions should be held and the number of delegates to each then to call a county convention. This being the sense of all present they then elected the following named wheel horses of the party to represent Sherman county at Lincoln on August 10, Messrs, G. E. Henschoter, W. H. Brown Alex Taylor, and A. H. Potter, and the committee then adjourned subject to the call of the chairman.

Mrs Dr Hendrickson returned from Illinois last Tuesday. Elias Ogle and sons received a steam threshing machine last Tuesday. Wilson & Kettle received a new horse power Thresher last Tuesday. L.
