An Englishman's View's. Thinks America Should Control the Philippines.

New York, July 30 .- Plans are under consideration for the establish ment of new steamship lines directly from America to Manila. A German syndicate and a Scotch syndicate are both engaged in the preliminary work of starting companies in the beleif that Dewey's victory will open a new

under difficulties, even under insult. Personally I think that the Philippines would prove an expensive luxury to the United States if this country should take possession of them. You would never be able to trust the Pailipinos. I know them thoroughly,

having dealt with them for years.

What the Philipinos need is a direct steamship line to America but great care should be exercised in establishing it.

The flour business in Asia is enormous and as a matter of fact it supplies almost all dead weight for steamers leaving America for Asia which is most necessary in crossing the Pacific.
