Official Paper Sherman County

REPUBLICAN STATE CONVENTION.

The Republican electors of the state of Nebraska, are requested to send delegates from their respective counties to meet in convention in the city of Lincoln, on Wednesday, August 10, 1906, at 10 o'clock a. m., for the purpose of placing in nomination candidates for the following officers:

1. Governor.
2. Lieutenant governor.
3. Secretary of state.
4. Auditor of public accounts.
5. Treasurer.
6. Superintendent of public instructions.
7. Attorney-general.
8. Commissioner of public lands and buildings.

And to transact such other business as may properly come before the convention.

Sherman county, is entitled to four delegates, the apportionment being based upon the vote cast for Hon. Albert J. Burnham, for presidential elector in 1906, giving each county one delegate at large and one for each 125 votes and major fraction thereof.

It is recommended that no proxies be admitted to the convention and that the delegations present be authorized to cast the entire vote of the delegation of the county which they represent.

It is requested that the county conventions select their committeemen and perfect their county organization at the first convention in counties in which two conventions are held.

DAVID H. MERCKER, Chairman.
ED. R. SIZER, Sec.

There are three things necessary to populist success in Nebraska, fusion, confusion and a failure of crops. The same elements the devil banks on for success.

The pop organs have the words "Combines" and "Trusts" stereotyped on the brain of their hypo-editors and when they run out of other material they just howl trusts and combines.

Old Glory is the pride of the down trodden in all parts of the world. The Cuban Junta chose the red white and blue as their colors, Aguinado, in the Philippines did likewise but blue seems to predominate with the Spadiard. When they encounter the Yankee, they are rather white, soon after their prevailing color is red and for along time after a battle they feel blue.

The confiding reader of our Mugwump contemporary will possibly be shocked when he learns that in 1828-31 duties were nearly twice as high as they are now, or have been since 1883. They were then \$12.50 per ton and are now \$6.72. It is a rare effect of Free-Trade audacity which would persuade us that the present duty, \$6.72 per ton, nearly the highest in the history of the country. It reaches this conclusion by estimating that the duty of \$12.50 per ton was 40 per cent ad valorem sixty years ago, while \$6.72 per ton is 58 per cent ad valorem now. A more ludicrous illustration of follies of Mugwumpery could hardly be conceived. It would almost persuade us that the decline of 60 per cent in the price of iron is a grave misfortune because the decline has been attended with the terrible advance of 45 per cent in ad valorem duty.

Here is what the editor of the Butte Neb., Gazette writes after spending a day at the Trans-Mississippi Exposition at Omaha.

"And then there is the Midway with its Oriental flavor, its blast of bands, its giants see-saw that shoots a fellow up in the sky, shoot-the-chutes that will turn your hair white, the maze, the roll-the-roll, the devil's dance, and a hundred other attractions the merits of which the horse-voiced 'barkes' incessantly proclaim. And last, but not the least the hootchee koochee girls. You can see more of them for the money than anything else on the grounds. We sneaked away from our better half one afternoon and viewed the hootchee-koochee from a scientific standpoint. The dance is out of sight, which is eminently proper, and the way the dusky damsels of the desert cavorted around and spun on their toes was a caution. We had considerable trouble in 'breaking away' but finally succeeded.

"The Exhibition is a grand and glorious success, and it is the duty of every citizen of the west to visit it, as you will more than get your money's worth.

In 1588 when the Spanish Armada sailed for the shores of great Britain, it was by far the most formidable fleet of war ships in the known world, and constructed by the proud and wealthiest nation on the globe. Intoxicated by her successes in the western world sought to build a fleet that would humble the Anglo Saxon, and when it was ready to sail away against the British, it consisted of 150 vessels all well manned and equipped and supposed to be an invincible flotilla that would ravage the coast of England and compel her to sue for peace at any price. But Sir Francis Drake, writing afterward said that, with all their ostentation, and circulated reports through Italy France and elsewhere of great victories won, they did not even sink a cockboat or burn a sheep cote on the island.

The British met her with a fleet of fifty sail and drove her all over the seas dealing a blow every time the boastful Don would show fight and never receiving any harm in return, until finally he battered remnant of the greatest fleet the world had known, plowed the waves from whence she came covered with disgrace and humiliation, as she had sought to place it upon the people she hated. The Anglo Saxon had inaugurated for her the beginning of her downward course and since then it has continued. The blowing up of the Maine, in Havana harbor on Feb. 15, last marked another great epoch in her history. The hand that touched the button that exploded the mine which caused that terrible catastrophe was a withering one for Spain. The fleets she has lost on account of that dastardly outrage was far more formidable than her Armada, that she sent against Great Britain, yet the history of its annihilation reads like a romance and places Spain, in the lowest rating among nations.

The Anglo-Saxon begun the work, and the Anglo-Saxon has completed it.

When the populists went into power they did it under the plea that the old parties had become corrupt and that a change would unearth all the crookedness. Of course they had another reason but this was their main battle cry at the onset. They argued that a change every few years was good. In that case if the men in office were doing wrong it would surely be discovered. And so nearly nine years the populist party has had the reins of government in Sherman county. But since the election of their first officers we have never heard them advocate that a change would be good. The NORTHWESTERN has always maintained that a change in office was good.

In years gone by we advocated a change of county officers and after persistent efforts succeeded in electing what was then called the farmers and tax-payers ticket. At that time things were just as they should have been in the matter of electing county officers. There was no politics in it. The two factions were pretty evenly divided and most of the time there were officers of different political faith to serve the people. Then if mistakes were made they were surely discovered. But when one faction or party is continually in office it is next to impossible for the people to discover mistakes or wilful malfeasance in office. Sherman county has, since the election of a populist ticket, been more fortunate than some of her sister counties, at least so far as the people know, or have any way of finding out except by a change of officers, public affairs, in a general way have been honestly conducted.

This year we have a county attorney to elect. Let us elect one of a different political faith, and give him the opportunity to look the matter up satisfactory to his constituents.

EDUCATIONAL EXHIBIT.

LINCOLN Neb., July 10, 1906
To Nebraska School People:

Many have experienced difficulty in locating the Nebraska Educational Exhibit at the Trans-Mississippi Exposition; hence this circular.

This exhibit is to be found in the GALLERY of the MANUFACTURERS building. Some visit our EDUCATIONAL HEADQUARTERS in the Nebraska building and fail to find the exhibit

not knowing that it is put up in another building.

The exhibit occupies some fifteen thousand square feet of floor space, and comprises all grades of school

Does Baby Thrive?

If your baby is delicate and sickly and its food does not nourish it, put fifteen or twenty drops of Scott's Emulsion in its bottle three or four times a day and you will see a marked change.

We have had abundant proof that they will thrive on this emulsion when other food fails to nourish them.

It is the same with larger children that are delicate. Scott's Emulsion seems to be the element lacking in their food. Do not fail to try it if your children do not thrive. It is as useful for them in summer as in winter.

Ask your doctor if this is not true. SCOTT & BOWNE, Chemists, New York

work from the kindergarten up through the State University and is pronounced by leading educators of other state as one of the finest educational exhibit they have ever seen. The New England Journal of Education, published at Boston and Chicago, in its issue of July 14 makes the following comment: The educational exhibit of Nebraska at the Trans-Mississippi Exposition, Omaha is one of the best, if not literally the best, ever made in the United States. Great credit is due to the thousands of educators and pupils of the Nebraska schools who so faithfully co-operated with us in making the exhibit a success.

While we all are proud that Nebraska has the lowest per cent of ill feracy we feel that this exhibit is right in keeping with the high standing our state has attained.

The work is neatly arranged and tastefully decorated. Visitors can find seats where they can rest and examine the work. You can "Stand up for Nebraska" perhaps in no better way than by taking your friends with you to see this exhibit which no doubt is as fine an educational exhibit as was ever put up by any state.

W. R. JACKSON, Supt. Nebraska Educational Exhibit.
