The Nations Supply of Gold.
(Chicago Daily News.)
It is not surprising that the present financial condition of the United States should attract as much attention abroad as did our recent naval and military exploits. The report of the director of the mint sets forth that this country has a financial standing that is no less a marvel to foreign nations than it is to the people of America.
Mr. Roberts' report shows that the available gold of the country amounts in round numbers, to \$910,000,000, which is an increase of \$284,000,000 since July, 1896. Large as this sum appears it looks still larger when compared with the stock of gold held by the leading foreign nations. The \$215,000,000 in excess of the holdings of Great Britain, \$285,000,000 in excess of the stock held in Germany and \$60,000,000 more than France possesses. The only way such a large and rapid increase in the quantity of gold can be accounted for is the phenomenal growth of the trade balance in favor of this country. Since 1889 there has been no year in which the balance of for-

ign commercial transactions has not been upon our side and while the amount has varied considerably one year with another total credit approximates \$1,850,000,000. A very large proportion of this has been paid by bonds and other securities in alien hands, but lately we have drawn upon the stocks of foreign gold in the adjustment of trade balances and at the same time we have been able to retain the products of our own mines.
It is an interesting question whether we can hold the position of being a creditor nation, which has been so long held by Great Britain, but at present there is nothing to indicate an unfavorable change in our foreign trade relations.
The ladies of Orel have been sending off lately for "silk remnants," advertised extensively in the papers. They send 15 cents and expect to get fifteen remnants, various colors, in yard lengths. They get them all right but they prove to be only sewing silk cut up in yard lengths and are not very good to make crazy quilts of. If any of the ladies want

any further information, ask Mrs. O. W. Taylor, or call at this office.—Valley County Times.
We understand that some of our Loup City ladies have been investing in the same goods with like results.
DANGERS OF THE GRIP.
The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for La Grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure La Grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Odenhall Bro's.
For La Grippe.
Thomas Whitfield & Co., 240 Wabash avenue corner Jackson st., one of Chicago's oldest and most prominent drug gists, recommend Chamberlain's Cough Remedy for La Grippe, as it not only gives a prompt and complete relief, but also counteracts any tendency of La Grippe to result in pneumonitis. For sale by Odenhall Bro's.
