# IS THIS YOUR STORY?

"Every morning I have a bad taste in my mouth; my tongue is coated; my head aches and I often feel dizzy. I have no appetite for breakfast and what food I eat distresses me. I have a heavy feeling in my stomach. I am getting so weak that sometimes I tremble and my nerves are all unstrung. I am getting pale and thin. I am as tired in the morning as at night."

What does your doctor say?  
"You are suffering from impure blood."  
What is his remedy?

### FLEECING THE FARMERS

#### Home Range Comfort Company of Omaha Takes Up Its Bed and Walks.

#### NEW FIELDS AND FRESH VICTIMS.

The Modus Operandi by Which Gudgeons are Caught and Worked for Their Hard-Earned Wealth—Beware of the Swindlers.

From the Omaha Penny Press.

"Yes, they have quit in Omaha. Their wagons have all been sent to Kansas City and only a collection office will be maintained here long enough to settle up the business. We were doing a land office business until the Penny Press opened up on us." Thus spoke a party who was looking for a job in consequence of the fact that the Wrought Iron Range company had been compelled to retire from this field. Inquiry elicited the information that the party spoke correctly and that this fake concern, that six months ago was doing a prosperous business in Omaha, had been compelled to retire because its nefarious methods were exposed. It was also ascertained that notwithstanding the fact that hundreds of their ranges had been thrown back on their hands, they still had out in this city 1,200 of them. When you come to consider that every one of these ranges was sold at from \$20 to \$30 above the price asked by local dealers for a better range, some idea of the magnitude of the steal perpetrated by this concern may be gained.

Thomas A. Edison, Jr., taking advantage of the temporary silence of Nikola Tesla, has announced that he has two plans for the removal of snow from the streets by electricity. One involves the use of a portable melter which is to be so constructed that the current necessary to heat the melting surfaces can be easily taken from the wires that supply trolley lines or electric lighting circuits. The other plan has as its feature a machine that must be a modification of the hay press, for its purpose is to press the snow into comparatively small "bricks" which could be handled easily and with expedition. Neither of these plans is ready for a test, but Mr. Edison junior will talk about them with New York's street commissioner before another winter comes.

### GOVERNOR McCORD.

Recommends Pe-ru-na to All Catarrh Victims.

Hon. Myron H. McCord, ex-governor of New Mexico, in a letter to Dr. Hartman, from Washington, D. C., says:

Gentlemen—At the suggestion of a friend I was advised to use Pe-ru-na for catarrh, and after using one bottle I began to feel better in every way. It

Hon. M. H. McCord.

helped me in many respects. I was troubled with colds, coughs, sore throat, etc., but as soon as I had taken your medicine I began to improve and soon got well. I take pleasure in recommending your great remedy to all who are afflicted with catarrh.—M. H. McCord.

Thousands of cases of chronic catarrh have been cured by Pe-ru-na during the past winter. In spite of changeable weather, in spite of the natural set-backs from catching cold, and confinement to ill-ventilated rooms, the great catarrh remedy—Pe-ru-na—has effected these cures. But now spring is here. The days are longer, the sun is warmer, and the blizzard is gone for another year. This presents a much more favorable opportunity for the permanent cure of chronic catarrh, especially old, stubborn cases. Now is the time to begin treatment. Other things being equal, one month's treatment in the spring is worth two months' treatment during the inclement weather of winter. Insist upon having Pe-ru-na. There are no successful substitutes for this remedy. Send to Dr. Hartman, Columbus, O., for a free catarrh book.

Few men can keep their good resolutions and a diary at the same time.

Richard's Magic Catarrh Cure has been examined by the medical staff of the American Journal of Health, published in New York city, and by them pronounced the most effective remedy on the market. It is not for sale by druggists. Sold only by the manufacturer, C. H. Richard Co., Omaha, Neb. They have reduced the price from \$5.00 to \$3.00, including their special Atomizer, and two bottles of medicine—a full treatment. Write to them today. They are reliable.

#### NEW FIELDS AND FRESH VICTIMS.

The Modus Operandi by Which Gudgeons are Caught and Worked for Their Hard-Earned Wealth—Beware of the Swindlers.

From the Omaha Penny Press.

"Yes, they have quit in Omaha. Their wagons have all been sent to Kansas City and only a collection office will be maintained here long enough to settle up the business. We were doing a land office business until the Penny Press opened up on us." Thus spoke a party who was looking for a job in consequence of the fact that the Wrought Iron Range company had been compelled to retire from this field. Inquiry elicited the information that the party spoke correctly and that this fake concern, that six months ago was doing a prosperous business in Omaha, had been compelled to retire because its nefarious methods were exposed. It was also ascertained that notwithstanding the fact that hundreds of their ranges had been thrown back on their hands, they still had out in this city 1,200 of them. When you come to consider that every one of these ranges was sold at from \$20 to \$30 above the price asked by local dealers for a better range, some idea of the magnitude of the steal perpetrated by this concern may be gained.

These festive frauds delight to operate in the rural districts. There they find a fertile and fruitful field. They are smooth people and scarcely ever fail to land a victim when they start out to do so. This paper has repeatedly exposed their methods, but as long as they can still ply their nefarious calling, it does not seem too much to keep dwelling upon it. The effects of the fight upon them in Omaha is apparent. They have been driven out of the field. Only one week before they left they shipped back to the factory a large furniture car full of ranges they had been compelled to take back. What has been done in Omaha can be done elsewhere. It is the duty of the press of the state to take up and expose these frauds. The press owes it to the public to do this. In order that this may be done understandingly we herewith give the modus operandi by which they work in the country:

"They go to a farm house and by their smooth talk make the good wife believe that her work, done upon her old cook stove, is twice as hard as it should be. That she is needlessly wearing her life out and that she is not being treated right. He adroitly cites the fact that men upon the farm provide themselves with all labor saving machinery in order to make their work easy. He pathetically recites the grievous burdens to which ye farmer's wife is subjected and is moved almost to tears as he contemplates her forlorn condition.

"After he has succeeded in making her believe she is the worst abused mortal on earth, he has made of her an ally in the sale of a range and he then sallies forth to meet the head of the house. He names a price of \$68 for a six-hole range, which is the style they usually seek to sell. Such a price for a 'cook stove' takes away the agricultural gentleman's breath, but the wily salesman praises his range, its superior baking qualities, its small amount of fuel it requires, its lasting qualities, etc. And then the terms. He can have all the time he wants. He, besides, will be allowed \$8 for his old stove, \$15 will be taken out in board and \$15 more in hauling. This will reduce the amount he will have to pay to \$30.

"The bait usually works and the farmer agrees to make a deal which seems to be so much to his advantage. "When the yocem to draw the papers the payor is asked to name the time, one, two or three years when it will be convenient for him to take up the note. Then the salesman informs him that in order to keep his accounts straight with the company the note must be taken for the full amount, \$68, and then the credits would be placed upon it, first \$8 when he delivered the old stove to the nearest railway station, then the \$30 for board and hauling as the service was performed.

"When the farmer hauls the stove to town he finds no one there to receive it. The railway company will not do so unless he pays the freight in advance and he is left with the alternative of doing that, carrying it back home again, or dumping it in a weed patch beside the road. He consoles himself with the thought that when they come to his house to board out the \$15 he will get this matter fixed up. It does not yet enter his innocent old pate that he has been in the clutches of a smooth confidence man. Even when he sees or hears nothing further of them he still believes that he has only got \$30 to pay some time in the future when it is convenient for him to do so.

"The awakening comes in 60 or 90 days when a notice comes through the mail from a local bank to the effect that it holds his note for \$68, which will be due in about 10 days and request prompt payment. Inquiry shows it to be the note given for the range, which the bank purchased the next day after it was signed. It is in vain he urges there should be some credits upon the note. The bank knows nothing about that. It bought the note at its face value supposing it to be all right. The long time is also urged, but the note tells a different story. The farmer puts on his 'specs' and for the first time reads it carefully. He then remembers that when he signed the note the nice young man read it to him and the true situation dawned upon him. He consults the leading lawyer of the town who advises him to pay the note.

To turn a new leaf is not enough; there must be a new life to make the record.

#### Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

### IN THE GREAT NORTHWEST.

Letter From the Kansas and Nebraska Delegates to Dauphin.  
Prince Albert, Sask.,  
17th August, 1898.

William McCreary, Esq., Immigration Commissioner, Winnipeg, Man: Sir—We, the undersigned delegates from Kansas and Nebraska, U. S. A., in reporting the results of our trip to Dauphin, and subsequently to Regina, Prince Albert and the middle Saskatchewan country, beg to say that our tickets were limited to 21 days, and as we had other large regions to visit, we could only spend a short time in the Dauphin country. We examined, however, the principal cultivated areas in the southern parts of township 25, range 19, the great wheat fields of Wisheart, Buchanan, Owen, Smith, Ross, Sinclair, the Whitmore's, Drinkwaters, etc., and subsequently, others to the north, and never, in our experience, have we seen finer grain. The whole country is watered by numerous streams flowing from the slopes of Riding Mountain, and excellent well water is found everywhere at from 9 to 18 feet. Extensive forests of spruce and tamarack cover the northern parts of the mountains, from which timber is manufactured in Dauphin and elsewhere, and sold at \$12 a thousand. Wild birds and wild fruits are abundant, and ripen in the open air. Vegetation throughout is surprisingly luxuriant, and without hesitation we would rank the whole region amongst the best grain growing areas of the continent. The output of wheat last year was about 75,000 bushels, but this year it is estimated at over a million. Westward lie the homestead lands which now, and when fresh surveys are completed, will afford comfortable homes to thousands of diligent families. The great Gilbert Plains, also, were unable to visit, where grain growing has been conducted with the best results for years, and which will become a vast wheat field as soon as a branch railway reaches there. Settlement is speeding in all these regions, reminding us indeed of the early days in our own states; and, as we have examined, since our visit to Dauphin, a portion of the great country lying south and east of Prince Albert, we can readily imagine the tide of immigration which will soon flow into the Canadian west.

### COMFORTING WORDS TO WOMEN.

#### The Surgical Chair and its Tortures May be Avoided by Women Who Heed Mrs. Pinkham's Advice.

Woman's modesty is natural; it is charming. To many women a full statement of their troubles to a male physician is almost impossible. The whole truth may be told to Mrs. Pinkham because she is a woman, and her advice is freely offered to all women sufferers.

Mrs. O. E. LADD, of 19th and N Sts., Galveston, Texas, whose letter is printed below, was completely discouraged when she first wrote to Mrs. Pinkham. Here is what she says:

"DEAR MRS. PINKHAM:—I wrote to you some time ago, telling you of my ills, but now I write to thank you for the good your remedies have done me. I have used two bottles of Lydia E. Pinkham's Vegetable Compound, three packages of Sanative Wash, and one box of Liver Pills, and to-day I call myself a well woman. I suffered with backache, constant headache, whites, sick stomach, no appetite, could not sleep, and was very nervous. At time of menstruation was in terrible pain. Your medicine is worth its weight in gold. I never can say enough in praise of it. I have recommended it to many friends. If only all suffering women would try it, there would be more happy homes and healthy women. I thank you for the change your medicine has made in me.

Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice, have saved thousands of women from hospital operations.

The lives of women are hard; whether at home with a ceaseless round of domestic duties or working at some regular employment, their daily tasks make constant war on health. If all women understood themselves fully and knew how exactly and soothingly Lydia E. Pinkham's Vegetable Compound acts on the female organs, there would be less suffering.

### MERIT ALWAYS WINS.

#### A SUCCESSFUL ENTERPRISE IS BASED ON MERIT.

The Importance of Informing the Public of the Value of an Article Through the Leading Newspapers.

The few remedies which have attained to world-wide fame, as truly beneficial in effect and giving satisfaction to millions of people everywhere, are the products of the knowledge of the most eminent physicians, and presented in the form most acceptable to the human system by the skill of the world's great chemists; and one of the most successful examples is the Syrup of Figs manufactured by the California Fig Syrup Co. Unlike a host of imitations and cheap substitutes, Syrup of Figs is permanently beneficial in its effects, and therefore lives and promotes good health, while inferior preparations are being cast aside and forgotten. In olden times if a remedy gave temporary relief to individuals here and there, it was thought good; but now-a-days a laxative remedy must give satisfaction to all. If you have never used Syrup of Figs, give it a trial, and you will be pleased with it, and will recommend it to your friends or to any who suffer from constipation, or from over-feeding, or from colds, headaches, biliousness, or other ills resulting from an inactive condition of the kidneys, liver and bowels.

In the process of manufacturing the pleasant family laxative made by the California Fig Syrup Co., and named Syrup of Figs, figs are used, as they are pleasant to the taste; but the medicinal properties of the remedy are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. As the true and original remedy, named Syrup of Figs, is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist in avoiding the worthless imitations manufactured by other parties. The company has selected for years past the leading publications of the United States through which to inform the public of the merits of its remedy, and among them by reference to its advertising columns.
