LETTER FROM THE PHILIPPINES.

SAN ANNA, P. I. Feb. 10, 1899.
DEAR PARENTS—We have just had a glorious victory, and I have went through it safe so far without a scratch. I am well and feeling fine. The fight started at 11:00 o'clock Saturday night, and at 3:00 o'clock Sunday morning the first washing ton entered the battle. We were under a heavy fire all day. The way the bullets sang over our heads was a caution. About 11:00 a. m. we were ordered to make a charge on a knoll, there was 300 insurgents holding it, but we did not know fear, so away we went. We had to cross a stream that was waist deep, we lost one man in making the charge. When we got possession of the knoll the insurgents that were in the trenches threw up their hands, all but two or three and they killed three of my comrades, then we moved to one end of the trench and poured several volleys into them. We captured 88, wounded 15, and killed 60. The battle lasted until 1:00 p. m. Sunday, that is the hardest of it, but the sharpshooters were killing off men all next day. The fight is still going on to our right and left but I don't think we will have any more engagements for a while. We lost 4 men from my company, I will give you their names for the papers do not give them right, also to read the papers one would think the Californians did it all. Gen. King, gave us a talk after the battle, he said he never saw better work than the first Washington did, and said when his official report went in he would give us full credit for our gallant work. The names of my old friends that got killed was; Cherry, Shearrer, Smith, and Kitchart, Shearrer, poor boy, was laying by me shooting when a bullet struck him fair in the stomach. He exclaimed, "Oh I am shot" and rolled over but he lived till night and died. All the others were killed instantly, all were close to me when they fell, we had 6 wounded. One bullet struck me on the pants leg and I had dirt thrown in my face several times. We were three days without taking our wet clothes off. This is Friday and we are feeling pretty sore. Dewey's fleet did some good work, and he has just taken a stronghold to day. Molos, is one of their strongholds and it is reported that Dewey will shell that place tonight. I hope he will for I have got all the fight I want at present. It was awful to see the field after the battle, there was dead insurgents everywhere, some with their shoulders and arms almost torn off, others with their heads half shot away and their brains, what little they had, running out. Their loss was between 3 and 4 thousand. The American loss was 2 or 3 hundred. I think the black devils have got a lesson they will never forget. There was one fellow that belonged to the first California regiment married a Philippine woman and deserted the Army and fought with the Insurgents. He was found on the battle field next day dressed as an insurgent 1st lieutenant and so full of Springfield bullet holes that there was no room for any more. He was buried like the rest of the biggers, 15 or 20 in a trench with dirt thrown over them. We took the prisoners next day and made them bury their own dead. They bury them in the rice fields or where ever they find them just like dogs. Will mother I must stop for I am very tired. Write soon, love to all.

Nature's Danger Signals.

Do your eyes blur at times?
Do they hurt after reading?
Are there frequent headaches?
Are the muscles around the eyes drawing wrinkles and crows feet? They are NATURE'S DANGER SIGNALS.

Only when sight is gone is the terrible danger realized. It cost so little to help the the eyes. If done in time I can give them early help. Later I have to refer the work to oculists. I examine the eyes in the most intelligent and careful manner and without charge. If glasses are needed I can supply the correct lenses mounted in any manner desired.
