### THE WORLD WORKS.

(By Prof. A. P. Cullev.)  
The World Works will again reaffirm the prophecies and forecasts of weather conditions made by me in my March issue. If you will remember we told you there would be great electric and cyclonic disturbances, accompanied by terrific wind storms and hail, more destructive than pestilence or earth quakes. We have since seen the waste and wreckage of farm, fortune and family, and as fiendish flames cloch around bappy homes, the mutilated and blackened remains of father, mother and babes.

We told you these things would happen just as they have in Iowa, Missouri and other states, central Nebraska being the least affected by these disturbances, owing to a recently discovered Planet presiding over our destinies like a person over his flock, and which I have named "Dewey." Saint and Sinner should pay high homage to the greatest star in the firmament of permanent peace and tranquility. Again you will notice we told you of the moving of the spring months thirty days, pushing April into May, May into June, and June into July, and that overcoats would be a necessity at periods in the months of June and July. Also that honest patient toil would be rewarded by abundant harvest, which would crystalize into bright shining gold dollars before the winter of our next adversity. Keep your spirits up, holding high above all other things, high as hopes great throbbing star, above the darkness of the dead, the love of duty, wife, child, farmer and friend. Remembering all the time that life runs out in sun and shade, in it, we are constantly the sunshine and shadow over billowy fields, the dews of night, the wealth of summer and autumns rich content shall be gilded and golden over with the farmers delight.

P. S. W.—The orld Works will tell you to plant your corn not later than the 15th to 20th of May, and then keep it perfectly clean, when a good crop will be assured this season. Harvest your wheat before too ripe, thresh and sell on first market in fall, for it is impossible for the farmer to get a trust on grain like other folks do on their goods.

The author of the World Works, will furnish its patrons with the "Worlds Discovery" for the Blues. This medicine will be patented and sold under the name of "Baromic Spirits" and is to be taken during periods of low spirits, caused by a falling barometer and low blood temperature while the winds are blowing h— from Texas. This happy fluid will enable many a poor drooping spirit to wing its way between the shores of showers. Sold at 5c per quart naked or 5¢ clothed in a green glass jacket. This being the average first cost of all patent medicines. You have all noticed the more cloudy weather we have, the less rain is needed for crops, but the more "Baromic Spirits" is required for blue patients. Sunlight blended with Spirit light is the chief ingredient in this renowned remedy, though the fur off the back of a black cat, when cut blends, and furnishes the ingredient, charcoal, an essential of all to each remedies. I am often asked by what power I am able to fore-

tell, or devine the weather, to which I invariably answer, by the same means and in the same manner that others foretell the resurrection of the dead, and wreck of the universe. In conclusion I would warn all to be on their guard for a terrible congestion of nature between the 20th of June and 10th of July. In future forecasts, will be able to tell the day and hour, I hope. Like the living, love the dead, and live for all you are worth, for we shall be dead a long time.

### Through Tourist Sleepers To The Northwest.

The Burlington Route has established a twice-a-week tourist car line from Kansas City to Butte, Spokane, Tacoma and Seattle.

Cars leave Kansas City, Lincoln and Grand Island every Tuesday and Thursday, arriving at Seattle following Friday and Sunday. They are upholstered in rattan. The bed linen and furnishing are clean and of good quality. The heating, ventilating and toilet arrangements are all that can be desired and each car is in charge of a uniformed Pullman porter, whose sole duty is to attend to the wants of passengers.

Cars run through without change of any kind and the berth rate from Lincoln to Tacoma or Seattle is only \$5.00. To intermediary points, it is proportionately low.

Montana and the Puget Sound country are now enjoying a period of unexampled prosperity. As a consequence, travel to the Northwest is rapidly attaining large proportions. This new tourist-car line has been established with a view of caring for the Burlington's share of it in the best possible manner.

Berths, tickets and full information can be had on application to any Burlington Route ticket agent or by addressing—J. FRANCIS, G. P. Agt. Omaha, Neb.

### Cheapest Paper in Nebraska.

A big 8-page daily paper six months for \$1. seems an impossibility, but the Daily News of Lincoln, Neb., is being sent by mail at that price. This remarkably low price is only made to add several thousand new subscribers and it is doing it. The News prints all of the telegraph news of the world, all of the state news and the news of the state capitol. It is one of the brightest and snappiest papers in the state and at such a low price every family can afford it. It's nearly as cheap as a weekly. It gives markets and other telegraphic matter hours earlier than Omaha papers and its price is but a trifle. Send for a sample copy and try it for six months. Address,

Nature's Danger Signals.

Do your eyes blur at times?  
Do they hurt after reading?  
Are there frequent headaches?  
Are the muscles around the eyes drawing wrinkles and crows feet? They are NATURE'S DANGER SIGNALS.

Only when sight is gone is the terrible danger realized. It cost so little to help the the eyes. If done in time I can give them early help. Later I have to refer the work to oculists. I examine the eyes in the most intelligent and careful manner and without charge. If glasses are needed I can supply the correct lenses mounted in any manner desired.
