It may be interesting to note the following statement of mileage of the new York Central, leased and operated lines, which shows the total miles of track east of Buffalo as 6,114.81.

It is, of course, generally known that some of the western lines have a greater mileage, but their tracks run through a number of sparsely settled states, while the trackage of the New York Central and leased lines is all in the densely populated States of New York and Pennsylvania, accommodating, by its numerous trains, millions of passengers each year.

Dodge," says the Kansas City Journal, "was in command of one of the southern Kansas forts many years ago, he was astonished one day to receive a delegation of Indians who complained to him of the quality of the soap issued to them by the government. Thinking it would be impossible to make soap too bad for an Indian, Dodge investigated, with the result of finding that the tibe had been eating their soap allowance and didn't like the taste."

To a Lawrence Journal reporter Mr. G. H. Snyder, a well known citizen of Lawrence. Kan., related a wonderful story. He said:
"I am now seventy years of age. About three years ago I experienced a coldness or numbness in the feet, then creeping up my legs, until it reached my body. I grew thin, appetite poor and did not relish my food. I became unable to move about. Consulted several distinguished physicians, one teiling me I had locomotor ataxia, another, creeping paralysis. I took their medicines but continued to grow worse. A friend advised me to try Dr. Williams' Pink Pilis for Pale People. Before I had finished my first box I found that they were benefiting me. I used twelve boxes and was perfectly cured. Although over six months since I used my last pili there has been no return of the disease. My appetite is good and general health better than for many years."
