Aguiñaldo's address is not yet exactly known but Otis holds on to his wife's wardrobe.

The British snatched up a German Transport last week filled with recruits for Oom Paul.

The Bulls are still standing pawing the earth in South Africa, watching for a chance to get into Oom Paul's pig sty.

With this issue, the first of the new year the NORTHWESTERN greets its readers with an increase in size.

Strikes are very prevalent just now. The Republican party always did arrange things so that men could get something to eat while they loafed and quarreled.

Senator Kyle, of South Dakota, who is serving his second six years as a pop senator has jumped out of the popocratic band wagon and declares that hence forth and forever he will be found with the republican hosts.

Our own Governor Poynter was one of the Vice Presidents at the anti-British meeting in New York city last Sunday night, where a democratic love feast was held for the purpose of making the country believe that McKinley was strongly in sympathy with Great Britain in the Transvaal war.

A few democrats and the pops in Congress are reported as having voted to seat Roberts, the man from Utah that has three wives. These are the fellows that had a fit last summer because the administration allowed the poor heathen sultan of the Sulu Island to retain his numerous domestic help mates.

Remember that where Russia goes she Russianizes everything, and especially Government and religion, but all must be subservient to the wishes of the Czar. Could the world afford this? It would seem not. Again who will deny that where Great Britain goes she is a factor for freedom and religious tolerance, and the people of all nations are safe under her flag.

The finding among Aguiñaldo's archives of papers and letters of sympathy and directions, from prominent democrats in the United States, is among the most disgraceful tactics yet pursued by men who look to the stars and stripes for protection since Hamilton at the head of the federal party, sought to start a rebellion for the purpose of destroying the republic, in the early days of this century.

Ten powerful locomotives for passenger service have been added to the equipment of the Burlington lines in Nebraska. They were built at the Baldwin Locomotive works from designs furnished by the Burlington. The big machines have already made some records pulling heavy trains across the Nebraska plains.

Upon interviewing our English friends who now claim to be thoroughly Americanized, there seems to be about the same diversity of opinion in regard to the Transvaal trouble as exists among the native born citizens. Yet it is hard to comprehend why some of them who are well posted should exhibit the amount of apparent gaul and wormwood toward their kith and kin which is allowed to escape a few of their lips.

The article in the Times of two weeks ago criticizing an editorial in this paper of December 15, can be but the product of the diseased brain of the secondary scrub editor of that sheet who always seeks to betray their subscribers by quoting something entirely foreign to the ideas sought to be conveyed by us.

The steam was turned on and the wheels set in motion for the first time at the creamery last Monday to test the machinery. Andrew Garstka, Bert Lukaszewski and John Zochol spent Monday night at Loup City.

Washington, D. C. Dec. 27, 1899. (Special Correspondence) The first two weeks of congress did not develop anything of importance to Nebraska people, aside from the currency debate which is being utilized by both parties in outlining the issue for the coming presidential campaign.

The Masquerade held at the Hall on New Years night was a grand success in every respect, and in spite of the inclement weather a nice crowd attended and the "popular lady" voting contest aroused quite a bit of excitement.

EVERYTHING IN MUSIC

Have You Heard of It?

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.
