WASHINGTON, March 24 .- The senate today adopted the conference report on the Porto Rico relief bill by a vote of 35 to 15, practically a strict party expression. No democrat voted for the report, but Stewart of Nevada voted with the republicans.

The time of discussion was consumed principally by Tillman, who made a fierce attack upon the measure as agreed upon in conference, and accused the republican senators and republican party of indiscretion, hy-

Gallinger followed with a temperate statement of those who not only favor the report but the passage of a Porto Rico tariff bill.

Spooner closed the debate with a forceful statement in opposition to Tillman's speech, in the course of which he took occasion sharply to criticise the South Carolina senator for dragging the measure into politics. His colloquial tilts with Tillman were immensely enjoyed by the auditors.

President Steyn has issued a proclamation in which he warns the burgners who lay down their arms and help the English that they are liable to the utmost punishment as traitors. LONDON, March 24.-The war office

has issued this bulletin: "CAPETOWN, March 23 -The following telegram has arrived from Nicholson, Buluwayo, March 16: "The following is from Plumer:

"LOBATSI, March 14.-The Boers advanced from the south in considerable force this morning. They first advanced from Goode's Siding. After a sharp little engagement Lieutenant Colones' advanced post was compelled to retreat. The retirement was excellently carried out as to our main position. The casualties included Lieutenant Chapman and a corporal, prisoners, and two missing, probably prisoners. Five troopers were wounded. Chapman's horse fell with him close to the enemy, who immediately surrounded him. The exact Boer casualties are unknown, but several were shot at close range. In the afternoon the Boers advanced further north and shelled our position from a ridge on our left. Our twelve and one-half pounder replied, the artillery duel continuing until sunset. Lieutenant Tyler has since died of wounds. One native was

killed." Colonel Plumer apparently has retired to Crocodile pools, and Mafeking seems further off than ever from relief. This news was contained in a dispatch from Buluwayo, dated Monday, March 19, and published in the second edition of the Times. These advices add that the base hospital has been brought back to Gaberones, though the correspondent further says it is thought the object of the Boer demonstration on March 15 and 16 was sage of this bill and I do not believe to cover the removal of the siege guns from Mafeking.

Republican Peace Committee Decides to

Separate Measures. WASHINGTON, March 23 .- The republican peace committee of the senate met after the adjournment of the senate today and practically ratified the offer of Senator Foraker in the senate to separate the house Porto Rico tariff bill from the senate government bill and to take a vote on the house measare. The peace committee is willing that a vote should be taken upon the house bill as it was passed by that Very Hard Pressed-Instead of Aiding body, provided it becomes apparent that it is impolitic to attempt to amend it, but an effort will be made to ascertain whether the house will consent to consent to any modification.

Some of the republican senators think the bill should be so changed as to provide for the continued exemption from duty of the articles which were exempted by the president's or-Ger. They also find the house bill deficient in that it fails to provide any means of collecting the duty which it there is no confirmation of the rumor, imposes.
