On the pews that are owned, as on real estate in the city, a certain proportion of the parish revenue is laid annually in the form of taxes. In former times there was not much attention paid to this matter of taxes, but for some years past the parish has been trying to acquire title to all of the pews, to the end that taxes may be abolished and rental substituted therefor. For this reason the collector has been looking very sharply after delinquents, and each year the parish was bid in and bought some pews. This list this year includes some dozen or more, and they are to be sold Jan. 15 if the unpaid taxes are not paid in the meantime. When this lot of pews is bidden in by the parish committee there will be only about a dozen more that are owned by individuals, and the prospect is good that these will be surrendered within a year or twor so that it will become a free church where anyone may secure seats anywhere by paying rental for them, instead of in the old-

Thus, Maggie would be charged by me in a day with nine pounds, equaling 870 cocoons, and, by a simple formula in division and subtraction. I could tell how many pounds of yarn Maggie ought to get from her portion, and if she came out short the 'cocoon guard' would inquire
