GOLDEN HARVEST HAS BEGUN.

500,000 Persons Visited Paris Exposition During the Last Week.

PARIS, June 11.-The golden harvest of the exposition has at last begun. Twice this week the number of visitors exceeded half a million, which surpasses the figures of the 1889 exposition at a similar period. It is estimated that over 8,000,000 persons have now passed the turnstiles. The greatest difficulty is now experienced in getting from the grounds at night, the street cars and omnibus facilities being utterly inadequate to cope with the immense crowds, and the capmen are having high times, demanding and getting fancy prices for short trips home. It is nothing unusual for them to ask \$2 for a trip for which the legal fare is 30 cents.

The electrical arrangements at the Chateau D'Eau have been repaired and the illuminations during the evening are now very brilliant and effective. The American pavilion was closed for four days this week for the improvement of its internal decoration. A large piece of statuary representing three wild bronchos forms a very striking centerpiece, and about it are palms and flowers and a circular sofa. The walls have been repainted a softer color, relieving the former glare of white, and a number of paintings have been hung. Further improvements are contemplatea.

Pirates Abandon Launch. HONG KONG, June 11.-The steam launch owned by Chinese merchants here, which was attacked June 7 by pirates in an armed junk off Cape Suiman, eight miles from Hong Kong, returned today. The pirates secured about \$600 on board and used the launch to catch three other craft, which

they looted. They then abandoned the

launch to the crew.
