

Lydia E. Pinkham's

Vegetable Compound cures the ills peculiar to women. It tones up their general health, eases down overwrought nerves, cures those awful backaches and regulates menstruation.

It does this because it acts directly on the female organism and makes it healthy, relieving and curing all inflammation and displacements.

Nothing else is just as good and many things that may be suggested are dangerous. This great medicine has a constant record of cure. Thousands of women testify to it. Read their letters constantly appearing in this paper.

Reason is a man's guide, but principle is his safe-guard.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. CASCARETS help nature, cure you without a gripe or pain, produce easy natural movements, cost you just 10 cents to start getting your health back. CASCARETS Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. stamped on it. Beware of imitations.

People who have long faces are apt to have short understandings.

Try Magnetic Starch—It will last longer than any other.

The man who crossed Niagara Falls on Blondin's back lives in Chicago. Blondin was the greatest rope walker of that day.

A pet robin awoke a farmer in New Jersey in time for him to frighten away burglars.

VICKERS, 52 E. 10th St., Omaha, Nebraska.

W. N. U.—OMAHA, No. 33—1909

RISSE'S CURE FOR CONSUMPTION

AN EXTENSIVE ADDITION

Being Made to the Indiana Mineral Springs (Indiana) Hotel

AT AN OUTLAY OF \$30,000.

Growth of Enterprise Representing Expenditure of \$250,000—Successful Management of H. L. Kramer.

Ten years ago the ground where the magnificent hotel property of the Indiana Mineral Springs Company is located at Indiana Mineral Springs, Indiana was wholly unimproved and almost a wilderness. Now, owing to the discovery of the valuable medicinal qualities of the springs and the healing virtue of the soil itself, together with the enterprise of Major H. L. Kramer, there is located there one of the finest sanitariums in the United States. The natural picturesque surroundings have been made more attractive and the hotel is a model of comfort and elegance.

For the greater accommodation of guests who come in constantly increasing numbers from every section of the United States, arrangements have now been made for the enlargement of the hotel buildings. The contract was let yesterday by Major Kramer for additions that will cause an outlay of over \$30,000. The improvements will consist of a new bath house and an addition to the hotel. The addition will be two stories in height and will occupy a ground space 80x160 feet. It provides forty additional guest chambers. The entire addition will be handsomely and elegantly furnished. The bath house, when completed, will be the finest in the United States.

Besides the bath house and the guest chambers there will be on the first floor a dining hall, a music room, a billiard hall, physicans' offices and a barber shop. In connection with the bath house there will be ladies and gentlemen's dressing rooms and cooling rooms. The dressing and cooling rooms will be elaborately decorated and the floors will be laid in white tile. In both cooling rooms will be built large ornamental fire places which will be used for heating purposes in addition to the regular steam heating. The work will be entirely completed in 90 days.

The improvement and the entire arrangements of the hotel and grounds are made, keeping in view the artistic effect of the whole, and when the improvements arranged for are completed the hotel and surroundings will be much more attractive than before.

Major Kramer states that a still further addition to the hotel is contemplated, and that plans are now being prepared for an additional structure to contain 150 rooms for guests.

Already a quarter of a million dollars has been expended on the Indiana Mineral Springs enterprise and under the present management greater growth and development in the future is assured.—Attica Daily Ledger.

Well Filled Graveyard.
In a little graveyard in Philadelphia, which is about giving way to the march of improvement, the bodies are being disinterred for reburial elsewhere. The cemetery, which was the burying ground of the Third Baptist church, does not measure more than 50x80 feet, but fully 1,300 bodies have been interred there. Whole families were buried there, and the men in charge of the work have encountered from five to seven skeletons in these tier boxes.

Are You Using Allen's Foot-Ease?
It is the only cure for Swollen, Smarting, Burning, Sweating Feet, Corns and Bunions. Ask for Allen's Foot-Ease, a powder to be shaken into the shoes. At all Drugists and Shoe Stores, 25c. Sample sent FREE. Address Allen S. Olmsted, LeRoy, N. Y.

Partial to Boy Critics.
Conan Doyle, the novelist, says that, for his writings, to use his own language: "I want a boy critic, the boy who will start a story, and then chuck it down and say 'rot,' or who will read a book straight through and say 'ripping.' That's the person I want to criticize my work." "It's strange, too," he said one day, while snatching a few minutes' rest, "the older I get, the less I read and the more I think. As a child the book that appealed to me most was one of Charles Reade's, and, curiously enough, it is the book I enjoy the most now."

Detroit's 200th Anniversary.
Detroit will give itself a birthday party next year that will cost a pretty penny. Mayor Marbury issued a proclamation the other day containing four suggestions as to memorials for the 200th anniversary of the city: Marking the outlines of the old city, cost \$5,000; statue of the founder of the city, Cadillac, \$15,000 to \$25,000; memorial fountain, \$25,000 to \$50,000; memorial arch, \$100,000 to \$200,000. The mayor suggests also the buying of the center of the old city for a public park.

Debts of Honor.
Purvis & Co., bankers, of Williamsport, Pa., advertised a few days ago that they would pay in full all claims against the banking house of Purvis & Co., of Baltimore, which failed in 1898. "These are debts of honor," says the advertisement, "and will be paid, regardless of bankrupt laws or statutes of limitations." The present Purvis was a boy when his father and grandfather failed, and since then he has had the ambition to pay the debts of his ancestors.

"Henry Ward Beecher's truck farm," a historic tract of land at the southwest corner of Ohio and New Jersey streets, Indianapolis, was sold by the Connecticut Mutual Life Insurance company to Charles L. Hutchinson. The ground is almost in the heart of the city.

FAMILY OF ENGINEERS.

Long and Faithful Railroad Service of All of Them.

Michael W. Regan, who was killed in the wreck of the fast bound mail train of the Lake Shore at Westfield on Wednesday, May 23, was one of the best known locomotive engineers in this part of the country. He was in the employ of the Lake Shore for a generation, and always enjoyed the confidence of the officials of the line as a man who could make the time and do careful, conscientious work. Regan began railroading as a fireman in 1863 on the State line work train of the old Buffalo & State Line road, afterward extended to Erie, and called the Buffalo & Erie, and finally merged into the Lake Shore & Michigan Southern. In 1866 he got his step and took the throttle of a switch engine at Dunkirk. The next year he ran the work train at Silver Creek, and on July 1, 1869, he went on the road as a freight engineer. In 1880 he was promoted to a passenger run, and up to his untimely end piloted the passenger trains of the Lake Shore in winter and summer. Regan came from a family of engineers. His brother, Thomas Regan, has the opposite run on the companion train. His brother, James Regan, who died a short time ago, was an engineer on the Lake Shore, and another brother, Edward Regan, is an engineer on the Lehigh Valley. His son, Francis Regan, is an engineer on the Lake Shore, and his two brothers-in-law also run on the same road. In Regan's career of thirty-four years as a locomotive engineer he had but three accidents, and none was the result of his fault or negligence. He had the reputation of making uniformly good runs, and the train he was taking out when killed is one of the fastest mails in the country.—Buffalo Express.

Salisbury Dressed Himself.

Here is an amusing and characteristic story of Lord Salisbury. It is known that the premier is much too serious in his mind and occupations to have much regard for the merely ceremonial side of life. For some years this falling produced no evil results, for Lord Salisbury had a faithful valet, who looked after him; but one unhappy day the valet left, and Lord Salisbury was reduced to his own resources. It was levee day, and the minister was in the midst of serious business up to the last moment. He rushed home, turned out a large bundle of uniforms, of which, of course, he has a quantity, and took the first that came to his hand, with the astonishing result that he wore a coat that belonged to the elder brethren of Trinity house, a deputy lieutenant's pair of trousers, and a hat of the Royal archers. Even that was not the worst. He wore his garter on the wrong side, and things reached their climax in the waistcoat, which, dating from an earlier and less robust period in his life, left between it and the trousers what was once called, in the case of another parliamentarian, "a lucid interval."—Boston Journal.

Origin of the Silver Wedding.

The first silver wedding dates back to the time of Hugh Capet of France. Two servants had grown gray in his service, a man and a woman, and what could he give them as a reward? Calling the woman, he said: "Your service is great, greater than this man's, whose service is great enough, for the woman always finds work harder than a man, and, therefore, I will give you a reward. At your age, I know of none better than a dowry and a husband. The dowry is here—this farm from this time forth belongs to you. If this man, who has worked with you five and twenty years, is willing to marry you, then the husband is ready." "Your majesty," said the old servant, "how is it possible that we should marry, having already silver hairs?" "Then it shall be a silver wedding," and the king gave the couple silver enough to keep them in plenty. This soon became known all over France, and it became a fashion after twenty-five years of married life to celebrate a silver wedding.

Ridding Town of Mosquitoes.

For several months past experiments have been conducted at Sassari, in Sardinia, by Dr. Fermi, Dr. Casati, Rocca and Dr. Lombardi for the purpose of ridding the town of the pests of mosquitoes with which it is overrun. The doctors effectually destroyed the larvae by distributing vast quantities of petroleum in the swamps and other spots where the insects bred and the mosquitoes were exterminated by chlorine and other powerful destructive chemicals. The doctors in their report consider it possible to free any town infested with mosquitoes by this means, provided it is not too unfavorably situated. It is an economical remedy, costing only about \$250 a year for a town possessing a population of about 50,000 inhabitants.

Caught with a Hook.

Some time ago we told of a man who accidentally caught a tiger with a hook and line, and now we have to tell of a man who purposely caught a grouse in the same way. He had been hunting all the afternoon without success, and, becoming disgusted at the poor luck, put away his gun and started out in the afternoon with fishing tackle. While fishing he saw a grouse in the grass on the bank of the stream, and, baiting his hook with a grasshopper, made a cast to the bird. Like a fish, the grouse swallowed the bait, hook and all, and started to fly off. But he was held fast and the fisher bagged his queer game.—Atlantic Constitution.

There are nearly 80,000 more women than men in Russia.

The Duerber Watch Works, at Canton, O., form the finest and most complete watch plant in the world. The two factories producing both watch movements and watch cases are devoted exclusively to the manufacture of high-grade watch movements and watch cases. Every resource and every effort is concentrated in the single direction of making watch movements and watch cases as nearly perfect as lies within human power. All common watches are pendant set, and consequently dangerous and unreliable. The Hampden 17 jewel watch is Lever Set and pronounced by all experts as the most reliable and accurate watch on the market. In buying a watch, get the very best you can afford. It will be the cheapest in the end and give the greatest satisfaction. Railroad men, in the nature of their employment, are necessarily good judges of a timekeeper. They will tell you that which made equals the "Special Railway 23 Jewel" manufactured by the Hampden Watch Co., Canton, Ohio. Thousands of these watches are the standard in train service, and their accuracy of movement and reliability under all conditions have earned for them the enviable reputation of surpassing all others in the world. The latest production of the Duerber-Hampden factories is the smallest ladies watch made in America. The name of this unique production is "The Four Hundred." Any lady who is the proud possessor of one of these gems has a thing of utility and beauty not exceeded by anything that money can purchase. The movement of the Duerber-Hampden watches is of the finest quality, and its experienced workmen stand without peers in the watch industry. Today the Duerber-Hampden Works the greatest watch plant in the world. All first-class jewelers keep these goods, demand the Duerber-Hampden watches and accept no substitute.—Irish Watch, July 7th, 1900.

Children behave when out as they behave when at home.

Drugs have their use, but don't store them in your stomach. Beeman's Peppin Gum aids the natural forces to perform their functions.

Good Housekeepers use "Faultless Starch" because it gives the best results—at all grocers, 10c.

The marriage license bureau of Philadelphia in June issued 2,000 licenses, which is twice the usual monthly issue.

THE BOXERS OF CHINA

are attempting to solve a gigantic problem, but they are going about it in the wrong way and will never succeed. Some people, in this country, seem to think that they have as great a puzzle on their hands in selecting a location for a home. They will certainly go about it in the wrong way unless they inspect the beautiful farming country on the line of the Chicago, Milwaukee & St. Paul Railway in Marinette county, Wisconsin, where the crops are of the best, work plenty, fine markets, excellent climate, pure, soft water; land sold cheap and on long time. Why rent a farm when you can buy one for less than you pay for rent? Address C. E. Rollins, Land Agent, 161 La Salle St., Chicago, Ill.

Boats are to be propelled between Dayton and Cincinnati and Dayton and Toledo by electricity on canals.

For starching fine linen use Magnetic Starch.

Electricity to Replace Steam.
It is probable that the New York Central railroad will soon substitute electricity for steam as a motive power between the Grand Central station and Mott Haven. There are 400 trains a day running out of the depot, and the residents of Park avenue complain of the noise of the engines. The railroad company is only waiting until it can perfect an electric system that is reasonably certain not to break down.

Daggett is a Pious Man.

Colonel Aaron S. Daggett, commander of the Fourteenth United States Infantry, at Taku, is a man of sincere piety, who is said to have never been known to "drink," smoke, swear or gamble. He went through every battle of the Army of the Potomac, and led the Twenty-fifth Infantry as lieutenant colonel at the battle of Santiago.

When a preparation has an advertised reputation that is world-wide, it means that preparation is meritorious. If you go into a store to buy an article that has achieved universal popularity like Cascarets Candy Cathartic for example, you feel it has the endorsement of the world. The judgment of the people is infallible because it is impersonal. The retailer who wants to sell you "something else" in place of the article you ask for, has an ax to grind. Don't it stand to reason? He's trying to sell something that is not what he represents it to be. Why? Because he expects to derive an extra profit out of your credulity. Are you easy? Don't you see through his little game? The man who will try and sell you a substitute for CASCARETS is a fraud. Beware of him! He is trying to steal the honestly earned benefits of a reputation which another business man has paid for, and if his conscience will allow him to go so far, he will go farther. If he cheats his customer in one way, he will in another and it is not safe to do business with him. Beware of the CASCARET substitute. Remember CASCARETS are never sold in bulk but in metal boxes with the long tailed "C" on every box and each tablet stamped C. C. C.

Many a good man's reputation is due to the fact that he gives publicly and steals privately.

Carter's Ink is so good and so cheap that no family can afford to be without it. Is yours Carter's?

You have doubtless observed that it is only sensible people who agree with you.

Like the Deadly Under-Current

which grasps one without warning, the mucous membrane which lines the entire body suddenly becomes weakened in some spot and disease is established. It may be of the lungs, the head, throat, stomach, bowels, or any other organ. Where-ever it is, and whatever it seems, it all springs from the same cause—

CATARRH

or inflammation of this delicate pink membrane.

The system is weakened in winter. The delicate lining is more susceptible to irritation or inflammation, and thus we have pneumonia, grip, colds, coughs, fevers, etc., all catarrhal conditions which may easily be checked by one catarrh cure—Pe-ru-na.

That's the only way out of it. You may dose forever—you will not be well until you try the true cure and that is Pe-ru-na. You may think your trouble is some other disease and not catarrh. Call it what you will, one thing is sure, your system is affected and must be treated, and Pe-ru-na is the only remedy which reaches the right place and does cure.
