During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay C., W. Va., struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whiskey in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by Odendahl Bros.

The illustrated Filipino lectures given at the hall last Friday and Saturday nights by Geo. R. Boomer were a complete success. The views taken on the ground by Mr. Boomer while in Luzon, accompanied by the lecture delivered by him in explanation of them, was a convincing argument to all who wished to see the right, that the course of the administration has been and is still, the only sensible one toward the Philippines. Mr. Boomer is thoroughly convinced that did the democratic doctrine prevail in this affair that wreck and ruin would be the inevitable fate of these Islands. He pictures the Islands as abounding in hidden wealth, as the gate-way to the eastern world and a possession coveted by all nations. He says that the work of humanity begun by this country in sending Cuba and Porto Rico from Spain, should be continued by holding the Philippines and establishing a stable government over them which will protect, not only from the designs of other nations but from the savage barbarity of themselves which would eventually result in the complete destruction of the Philippines through their hatred of one tribe for the other if left to work out their own destinies. The anti-imperialists who heard and saw those lectures and who were not convinced of the righteousness of the course of the administration toward those people must be blinded because he don't want to see.

Dr. W. H. Lewis, Lawrenceville, Va., writes: "I am using Kodol Dyspepsia Cure in my practice among severe cases of indigestion and find it an admirable remedy." Astigmatism!

Astigmatism is not a disease but is simply a defect in the shape of the eye ball. It necessitates an irregular strain upon the muscles in adjusting for different objects. There is no condition which causes so much discomfort and fatigue,

Especially Head Aches

A peculiar feature about astigmatism is that people who have it seldom know that anything is wrong with their eyes. They lay all their suffering to some other cause. They believe that they can see as well as any one and in a good many cases they can. The overwork is going on just the same.

If any one thinks their eyes are not right come in and see me. I am the only optician in this part of the country that can correct astigmatism. Eyes tested free.
