Quite a lot of old acquaintances and friends of Mr. and Mrs. W. O. Brown, and Mrs. R. J. Brown gathered at their farm home and spent a most enjoyable evening last Friday. The occasion was had in honor of his brother C. H. Brown and wife of Batavia, Ill., who have been visiting here. Mr. Brown and his wife have made several trips here in the past visiting relatives. Their trips have been made more frequent perhaps, of late years, on account of his mother's ill health and in consequence have become quite well acquainted with many of our people and made a host of new friends, all of which were highly pleased to do them this honor. The evening entertainment consisted of music and dancing and an elegant lap supper. A great deal of enjoyment was had out of the square dance in which Messrs. C. H. and W. O. Brown, M. C. Mullick and R. L. Arthur were participants. The party broke up about 12:30 and each went home feeling glad that they had come out. Mr. and Mrs. Brown started for their eastern home the following, (Saturday) morning. They go with pressing invitations to make another visit.

Omaha, Neb. Dec. 2, 1900.

DEAR NORTHWESTERN:

We are again inspired to speak through your voice to the many friends at home, while Uncle Sam continues to demand our presence in his service. Omaha is a busy City, in fact more so than any we know of for its size. Its streets are filled for 16 hours a day with a bustling mass of humanity. Indications of prosperity are on every hand. Six theatres are crowded every night. The "Boyd" is the Alhambra where wealth and luxury delight to be seen. The Creighton invites a plebeian audience and Mickey Mullin takes all in that come his way.

The Salvation Army is the great free attraction but not the whole show. Most nights sees at least six exponents of holy writ of all colors and sex, preaching on some corner. A Negro preaching the doctrine of a flat earth and a moving sun and proving that without a doubt from a biblical standpoint the old patriarchs were all black. A cowboy with hair two feet long and a voice like a Texas steer doing his level best to round up the mavericks, and a red headed son of ham crying "Ninevah must be saved." He approached us and said "Young man is your father living yet," and we said not yet. He struck us for a dime. We quit and went to our room to commune in solitude.

The World Herald sells on the street, some times, for one cent. Most people think it is within ten mills of its actual value.

The Federal Court, during it's first two weeks, has been occupied with cases that would be a disgrace to a country justice and with but one exception, the judge took them from the jury as soon as the evidence was in and disappointed the whole business. We have met many old acquaintances since we have been here, among them J. S. Pyke, Frank, Crabb, Lewis Rentfrow and Jacob Payne, whom many of our citizens will remember.

Yours as ever,
G. H. GIBSON.

DOWN WITH A PARACHUTE.

A Circus Balloon Man Says It's Gentle and Not Hazardous.

"Coming down from the clouds in a parachute is like a dream," said a circus balloon artist. "Ever dream of falling from a high place? You come down, alight quietly and awake, and you're not hurt. Well, that's the parachute drop over again. No; there is no danger. A parachute can be guided readily on the down trip, but you can't steer a balloon. To guide a parachute out of harm's way a practiced hand can tilt it one way or the other, spill out air and thus work it to where you want to land or to avoid water, trees, chimneys or church spires. Circus ascensions are generally made in the evening. When the sun goes down, the wind goes down. The balloon then shoots into the air, and the parachute drops back on the circus lot or not far away. A balloon is made of 4 per cent muslin and weighs about 500 pounds. A parachute is made of 8 cent muslin.

"There is much more danger is coming down in a balloon. When it strikes the earth, it's like a big ball and bounces up again, taking you with it. Not long ago in McKeesport, Pa., I came down in a balloon because the parachute would not let go. I nearly came down in a big stack of a blast furnace, but the hot air drove the balloon away. After that I never intrusted the parachute arrangement to any one, but attended to it myself.

"The rope that secures the parachute is cut with a knife. The aeronaut drops fully 100 feet before the parachute begins to fill. It must fill if you're up high enough. There are several hundred parachute men in the business, and the accidents are less in ratio than railroad casualties. A man can't shake out a parachute if it don't open. A man in the air is simply powerless. Invariably the fall is head first. When the parachute begins to fill, the descent is less rapid, and finally when the parachute has gradually filled it bulges out with a pop. Then the aeronaut climbs on to his trapeze and guides the parachute to a safe landing. In seven cases out of ten you can land back on the lot where you started from. The first performers must have had nerve to make the drop. Now it is a regular business, not considered hazardous at all. The hardest work is to bring back the balloon with a wagon. Sometimes it tears in the trees or wherever it may land when not in the open."—New York Sun.

Astigmatism!

Astigmatism is not a disease but is simply a defect in the shape of the eye ball. It necessitates an irregular strain upon the muscles in adjusting for different objects. There is no condition which causes so much discomfort and fatigue,

Especially Head Aches

A peculiar feature about astigmatism is that people who have it seldom know that anything is wrong with their eyes. They lay all their suffering to some other cause. They believe that they can see as well as any one and in a good many cases they can. The overwork is going on just the same.

If any one thinks their eyes are not right come in and see me. I am the only optician in this part of the country that can correct astigmatism. Eyes tested free.
