

Devoted to Her Father.

Although the re-election of Charles A. Boutelle of Maine to a seat in congress will probably never reach him, it is a source of great satisfaction to his daughter, Miss Grace, who is devoting her life to his comfort. As is well known, Mr. Boutelle has been | customed to all kinds of financial senfor many months an inmate of a pri- sations, but George H. Phillips has vate asylum at Waverly, Mass. His mind is a complete wreck and even the kind probably a little different of itself, regarding such osculation as the most sanguine of his friends have from any received heretofore. Mr. given up hope of his restoration to reason.

During his entire illness Mr. Boutelle's daughter has been a ministering angel. She is a beautiful young woman and was long a favorite in Washington society. She would be gladly welcomed back to the scenes of her social triumphs, but has chosen instead to remain close to her father. She has sacrificed everything to be as near the one she loves as possible. Not a day passes but she drives from her

lodgings to the insane asylum to spend as many hours with the patient as the doctors will allow. By her tender and loving caresses she seems to soothe the uneasy patient, and if Congressman Boutelle recovers the doctors declare the credit will be due to his affectionate daughter.

Mr. Phillips is slender and short of stature, is light, almost pale, complexioned, with light eyes and hair and a man of most unpretentious appearance and address. He is so extremely modest and unassuming that the notoriety he has attained and the attention which he has attracted have been almost painful to him.

A new bit of Washington gossip tells how one day last winter Senator Chandler of New Hampshire, being about to enter the senate chamber from the public corridor, was accosted by one of two little girls, who had and shocked so that she required medi wandered in there. Deems Actor's Kiss Ruda

The vexed question of kissing on the stage has been vividly brought back into prominence by the amended complaint in the suit brought by Miss Katherine Gray (Mrs. Mason of San Francisco) against Richard Mansfield in the courts of New York city. The complaint brought by the actress is unusual in the fact that Miss Grey given the board a nervous shock of does not so greatly object to the kiss an exigency of the part in which she was playing, but she objects strenuously to Richard Mansfield's manner in performing the act. Miss Grey also alleges that the stage box when she was before the footlights, and by mocking her Wife of Governor Elect Herreid caused her to become nervous, an attack of nervous prostration which occurred soon after being ascribed to this cause. The case will come up for trial shortly.

New York Sweatshops.

It is a striking but notorious fact that, through the vigorous factory legislation and inspection carried out by Massachusetts, the sweatshop has been schools and later went to Galesville abolished in Boston and throughout that state. It is also true, however, that the trade formerly carried on there has to some extent simply transferred its habitat to New York city. The latter city has thus gained in an injurious and impolitic form of industry, and actually sends the product compelled to yard and close feed their thereof to Boston to be sold over its cattle. counters. Notwithstanding this partial nullification, however, of its action, Massachusetts has the satisfiction of having added to the honorable traditions of the old Bay States in this line, by again blazing the way, even at its own seeming cost, in progressive public action.

Selling Cheap Watches Under Bogus Guarantee at Fancy Prices. GRAND ISLAND, Neb., Dec. 3 .- A stranger has been selling farmers of this vicinity three-dollar watches for

ten dollars and giving the guarantee of local jewelers that they would keep the timepieces in repair. The facts be came known last Saturday, when a farmer entered the jewelry store of August Meyer and wanted his watch repaired, incidentally mentioning that Mr. Meyer had guaranteed the watch for such and such a length of time Mr. Meyer was somewhat surprised, as he had never handled such a timepiece and was still further stunned to have the patron pull a piece of paper from his pocket-a written guaranteewhich the farmer stated his (Meyer's) agent had given him. It developed that the fakir had first come to Grand Island and posted himself upon the different jewelers, could talk of all of them and thus impress the farmers that he was genuine.

Kearney Suffers Two Disasters.

KEARNEY, Neb., Dec. 3 .- Kearney suffered its second disaster last week by the burning of its gas plant. If the Standard Oil company's tanks should now be destroyed the citizens would have to resort to tallow candles.

Tuesday the canal pipe, which sup-plied the electric light plant, burst and the flood from the lake wrecked the lighting plant, causing a loss of \$50,000

Friday evening an attendant at the Kearney gas plant was doing some work around the big gas tank or reservoir, when the escaping gas became ignited by the lantern which he carried, and in a few minutes the entire reservoir was burning. The fire company responded quickly, but was unable to do anything save protect the surrounding buildings The damage is considerable, but is covered by insurance.

Since the damage to the water power the city has been depending on the gas company for its lights and its destruction by fire makes the question of lights a very serious one.

road taxes. This is reasonable as far as it goes, because the labor under this system is largely ineffective and misapplied: the work is pretty much all done at one time, which is irrational, and it is rarely well directed. It was stated by one of the speakers at the convention that fully 75 per cent of the work done under this system was thrown away. With the taxes paid in cash and the money used to buy suitable materials and appliances and to employ capable workmen and direct them wisely far more and better results would be secured at no great expense. The second recommendation was that state legislatures make provision for the employment of convict labor in preparation of material for the construction of roads. The third recommendation is the passage of suitable state laws in aid of the work of 1mprovement and the appointment of "non-partisan" highway commissioners.
