The Republicans of Sherman county have a fashion of running their affairs to their own liking and if the pops are not satisfied they can take the less of it.

Europe is said to be 268,000,000 bushel short on wheat this year which ought to add to the price of that cereal in this country. Uncle Sam has a cinch most all the time of late.

We have perfect confidence in Governor Savage's honesty of purpose in the Bartley case and do not expect to have it shaken until there is a good reason for it. When there is we will say so and don't you forget it.

The Omaha Bee is authority for the statement that the Panama route for our isthmian canal is not affected by the Clayton-Bulwer treaty. If such is the case the fact that Colombia is very favorable to the United States building the canal, and the French owners of the Panama plant being desirous to sell out to us, the prospects for the southern route are flattering.

W. J. Bryan is experiencing a cold snap in the east that was not even expected by the Republicans. Half dozen states have already turned him down in democratic circles and more are expected to follow. Mr. Bryan's meteoric career was ephemeral, simply because his ability was not what his ardent admirers believed it to be, and his deductions on political economy were entirely erroneous. No speeches of recent years has called forth the multitudes and left as little lasting impression as those of Mr. Bryan. His eloquence is grand but his reasoning deficient, his prophecies never come to pass and his sowing was of the whirlwind type.

A pop was heard to say the other evening that Norlin, the pop treasurer of Kearney county, that stole \$10,000 of the county's money this spring, was a republican. This reminds us of the old story of the hog and the Mohammedan mosque. For a hog to go into one destroys it for all time as a place of worship. One day a swine entered a very costly one and a counsel of high priests was called to determine what to do. After much worry and fuss over the matter it was decided by a majority vote, that the moment the hog crossed the threshold he became an angel and remained an angel until he retired when he became a hog again. They may show that this fellow had been a republican before he joined their party, and he was considered a very fine man at that time, but they must acknowledge he acquired the bristles while with them.

The negroes of Alabama are combining and forming themselves into working organizations for the purpose of combating the new constitution now nearly complete in that state, and which has for its object the disfranchising of the black man. The negro has nearly arrived at that point where he will work out his own salvation. Perpetual disfranchisement of his race under the stars and stripes and in the face of the Fourteenth and Fifteenth amendments will be an utter impossibility, and the more it is tried the less it will become a fact. Contact with the caucasian race has developed his senses and taught him that his intellectual growth must keep pace with that of his white brother, if he would enjoy the same privileges. Education has brought forth its fruit and the slave of yesterday can be heard debating his own rights today.

Any one residing in the west side of the county can make any arrangement necessary for undertaking and embalming with C. W. Gibson at Litchfield. All orders will be promptly and satisfactorily attended to at reasonable rates.

LETTER FROM THE NAVY

SAN FRANCISCO, Cal. Aug. 16, 01.
DEAR FATHER—I again take the opportunity of penning you a few lines. We are all well, except 'Bid' he is troubled considerable with rheumatism. It is still very hot here, as we have not had any rain for a long time. The battleships Iowa and Philadelphia are anchored in the bay on the opposite side of the island from here, also the gun boat Petrel. There was a big fire at Berkley, just across the bay. A large planeing and saw mill burned, a starch factory and coconut oil mill. There were about three acres of buildings burned said to be worth between ten and fifteen millions of dollars. While we were having general signals the other day, we saw a sailing vessel, weighing some 30 tons, out in the bay capsized. There were three men on it and they clung to the bottom of it. The ferry boat Enical, was just ten minutes out of Oakland when she saw it. Capt. Harmsworth in charge of the ferry boat steered straight for the light house on Yerba Buena or Goat Island, and when close enough dropped a life boat with a crew of five and picked them up. The sloop or sailing vessel, drifted on this island and a party of apprentices got it.

The great rock which lay in Golden Gate, and was dangerous to navigation was blown up yesterday at 12 o'clock. There was 30 tons of dynamite used and it was blown down 40 feet below low tide. The big strike is still on in the cities of Oakland and San Francisco. The ocean vessels are being anchored out in the bay for safety and from the fact that they cannot get men to load and unload them. How are the crops coming on with you. I hope they are all right. One of our Omaha landmen got a medical discharge. There is nothing much going on on the island just now but will have a hot time on the 21st. There will be boxing, music, races and a little of every thing.

Sunday, Aug. 18th.—Well I will endeavor to finish my letter. Today is Sunday and there are a great many visitors over from the city. Tomorrow at ten o'clock there will be thirty landmen go from here on the Iowa. She leaves for the Isthmus, to look after our interests there. I guess I have told you all of any interest so I will close. From yours as ever.
