**Girls That "Fail"**  
 The English anthropologist, Francis Galton, tells of a conversation which he had lately with the president of a college for women. Mr. Galton asked this lady about the subsequent career of the girls who graduated from the college. She answered that about one-third of them derived real profit from their education, that another third profited very little by it, while the remaining third were an absolute failure. "And what becomes of these failures?" asked Mr. Galton. "Oh, they're the ones who marry."

**Removing Hats in Elevators.**  
 A crusade has been begun in Washington against the southern custom of men removing their hats while riding in elevators if there are any women passengers. Notices have been posted in the corridors of several large office buildings to the effect that good taste does not require gentlemen to remove their hats in the presence of ladies who may be using the elevator. The reason for the crusade is said to be altogether hygienic.

 Some one has discovered that sunstroke is only the work of a microbe of peculiar shape and kind. It only remains now to find the germ which causes people to freeze to death in winter time. The germ which invades the physical anatomy that has been struck by lightning and the bacillus that plays havoc with persons who are run over by railroad trains can be hunted up and identified later.

The three papers named, which we club with our own, are well known throughout the West and commend themselves to the reader's favorable attention upon mere mention. The Homestead is the great agricultural and live stock paper of the West; The Poultry Farmer is the most practical poultry paper for the farmer, while The Special Farmers' Institute Editions are the most practical publications for the promotion of good farming ever published. Take advantage of this great offer, as it will hold good for a short time only. Samples of these papers may be examined by calling at this office.

The claim of other cough medicine to be as good as Chamberlain's are effectually set at rest in the following testimonial of Mr. C. D. Glass, an employe of Bartlett & Dennis Co., Gardiner, Me. He says: "I had kept adding to a cold and cough in the winter of 1897, trying every cough medicine I herd of without permanent help, until one day I was in the drug store of Mr. Houlehan and he advised me to try Chamberlain's Cough Remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I get a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines." For sale by Odendahl Bros.

**SAVED HIM FROM TORTURE.**  
 There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unceasing. DeWitt's Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds it is unequalled. J. Gerall, St. Paul, Ark., says: "From 1865 I suffered with the protruding bleeding piles and could find nothing to help me until I used DeWitt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits. For sale by Odendahl Bros.

**Uses for the Sunflower.**  
 Olive oil has many uses but more substitutes, and few salads are compounded without the aid of one of them. Cottonseed oil is a favorite substitute, but according to an Egyptian newspaper, this is soon to find a sturdy rival in the oil of the seed of the sunflower. Experiments made by German chemists have convinced them, it seems, of the availability of this cheap raw material and it may become shortly a valuable article of commerce. It is said to be convertible to many uses and, besides having possibilities as a lamp oil, may be used for dyeing purposes, and will be of service in soap making.—New York Press.

**THE LAST HEARD OF IT**  
 "My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house." says E. D. Reynolds, Mansfield, O. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. For sale by Odendahl Bros.

**Love Idealizes.**  
 All active love idealizes—that is, sees and loves the ideal of the loved one. Often, indeed, the absorption in the ideal is so complete that the outer life is mistakenly supposed to be identical with it, thus opening the way to shocks and bitter disappointments.

**DANGER OF COLDS AND LA GRIPPE.**  
 The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventative of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Odendahl Bros.
